1. This Act may be called "The Criminal Tribes' Act, 1871," and it Short title. shall come into force on the Commencement. passing thereof.

This section and Section twenty extend to the whole of British India: the rest of this Act extends only to the territories under the Governments of the Lieutenant-Governors of the North-Western Provinces and the Panjáb, respectively, and under the administration of the Chief Commissioner of Oudh.

Part I.—Criminal Tribes.

Local Government to report to the Governor-General in Council what tribes should be declared

2. If the Local Government has reason to believe that any tribe, gang or class of persons is addicted to the systematic commission of non-bailable offences, it may report the case to

the Governor-General in Council, and may request his permission to declare such tribe, gang or class to be a criminal tribe.

3. The report shall state the reasons why such tribe, gang or class is consi-Report to contain cerdered to be addicted to the Am particulars. systematic commission of non-bailable offences, and, as far as possible, the nature and the circumstances of the offences in which the members of the tribe are supposed to have been concerned; and shall describe the manner in which it is proposed that such tribe, gang or class shall earn its living when the provisions hereinafter contained have been applied to it.

1. If such tribe, gang or class has no fixed place of residence, the report Occupation of wander-ing tribe to be stated in shall state whether such tribe, gang or class follows report. any lawful occupation, and

whether such occupation is, in the opinion of the Local Government, the real occupation of such tribe, gang or class, or a pretence for the

purpose of facilitating the commission of crimes, and shall set forth the grounds on which such opinion is based; and the report shall also specify the place of residence in which such wandering

proposed to be made for enabling it to earn its living therein.

what tribe is criminal.

5. If, upon the consideration of any such report, the Governor-General in Council is satisfied that the tribe, gang or class to which it relates ought to be

declared criminal, and that the means by which it is proposed that such tribe, gang or class shall carn its living, are adequate, he may authorize the Local Government to publish in the local Gazette a notification declaring that such tribe, gang or class is a criminal tribe, and thereupon the previsions of this Act shall become applicable to such tribe, gang or class.

6. No Court of Justice shall question the validity of any such potifica-Bar of suits relating to

the tribe, gang or class specified therein. 7. When the notification mentioned in section

five has been published, the Register of members of Local Government may direct the Magistrate of any

district in which such tribe, gang or class, or any part thereof is at the time resident, to make a register of the members of such tribe, gang or class, or of any part thereof.

The declaration of the Local Government that any such tribe, gang or class, or any part of it is resident in any district, shall be conclusive proof of such residence.

8. Upon receiving such direction, the said Magistrate shall publish a Procedure in making notice in the place where the

register is to be made, calling upon all the members of such tribe, gang or class, or of such portion thereof as is directed to be registered, to appear, at a time and place therein specified, before such persons as he appoints, and to give those persons such information as may be necessary to enable them to make the register.

RESOLUTION .- The position of the Government of India, and the difficulty experienced by Native States and public bodies in obtaining competent officers without its assistance, frequently render it necessary for the Gover ment, for political and for public reasons, to transfer its officers to ervice paid for from sources other than its own revenues. Such transfers would, as a general rule, be impossible if the condition were insisted on that the officer transferred should give up his privileges as an officer in the service of the Government of India; and in the papers above read, the question is discussed what financial arrangements are proper to be made in the case of officers of Government lent to, or transferred to service paid by, Native States, Municipalties, and other bodies financially independent of the G vernment of India, such as Courts of Wards, Port Trusts, &c., and permitted at the same time to retain their privileges as servants of the vovernment of India.

The remunered of officers of Government may be

السيرthus classifie

Irraddiate—their pay and allowances while on duty, Contingent—their absentee allowances.

Deferred—their pensionary allowances; and such officers, when lent to Native States, &c., though they obtain their "immediate" remuneration from the State or fund at the charge of which they are employed look, for the most part, to the Government of India for their "contingent" and "deferred" remuneration.

It may sometimes be expedient, for special reasons, that the Government of India should bear such charges; but, as a rule, it is not so; and it is necessary to prescribe the conditions which should be imposed, so that such charges may be avoided, unless the Government, for special

reasons, accepts them.

4. The Government of Inlia have accordingly resolved to the last or transferred to to require, on account of every officer lent or transferred to a Native State, or a Municipality or other financially inde-pendent body, who is permitted to retain his position in relation to the service of Government, and his claims to absentee and pensionary allowances under the rules of the service to which he belongs, and with regard to whom the exemption contemplated in paragraph 3 is not declared, a contribution proportional to the salary which be received. and regulated on the following principles.

5. In he first place it is to the officers themselves and

not to their employers, that the Government will look for the contribution required; any other course would be productive of difficulty and inconvenience.

6. In the second place, a calculation founded upon such data as are available shows that the cost to Government of the charges above classed as conjugent and deterred texcluding, however, privilege leave allowances), is about onequarter of the amount actually disbursed in the form of

immediate" remuneration.

7. The Government of India will therefore require from officers whose services are lent or transferred as comtemplated in parargraph 4, a contribution of one-fifth of their pay and acting allowance, that is, they will receive from their employers pay and acting allowance fixed, in accordance with the rules of the Government service, with relation to the the rules of the Government service, with relation to the appointments which they hold, or in which they officiate, and retaining four-fifths, will transfer one-fifth to Government. In return for this contribution, the Government will undertake to pay their absentee allowances texcept in the case of -privilege leave), and their pensionary allowances, in the same manner, and to the same extent, as if they were in the service of Government, save only that the calculation of such allowances will be based only upon the four-fifths which they retain, instead of upon the full four-fifths which they retain, instead of upon the full amount which they receive of pay and acting allowance.

8. A native officer will be permitted if he prefers it, to resign all claim to allowances during leave (except privilege leave), and in such case the contribution required of him will be only twelve per cent. The contribution required in respect of inferior servants is one anna in the rupee.

9. And with the special permission of the Government of India in the Financial Department, officers may make

the contribution provided for in paragraph 7 in respect of a less sum (not being less than two-thirds) of their actual allowances, in which case their absentce and persionary allowances will be calculated as if their actual salary were four-fifths of the amount in respect of which they make their contribution.

10. As to privilege leave to all officers in the position referred to in this resolution, the Government of India cannot make arrangements. Privilege leave is at all times spe islly subject to the discretion of the Government or body which employs the officer; and though an officer lent to Native States, &c., will retain his general claim to privilege leave in the manner provided by the rules of the Govern-ment service, he must be left to arrange the times of taking it, and the amount to be taken, with his employer, in same way as in the Government service he has to arrange them with the Government. An officer must contime during privilege leave to pay the contribution required by paragraphs 7 and 8.

As regards officers transferred to local funds, the resolution of this Department, No. 2197, dated the 24th April 1868, empowered the Local Governments, in certain cases, to admit pensions chargeable to such funds, and they have power also to grant absentee allowances from them. In the case of an officer permanently transferred to service paid from a fund to which these conditions are declared by the Local Government to be applicable no contribution will be required, as his claims to persion and absentee allowance for that part of his service which is under the local fund will be provided for by it; but, in all cases of mere temporary transfer to such funds the required contribu-tion must be poid. So in all cases of transfer, whether temporary or permanent, to a local fund under which service does not reckon for pension, the required contribution must be paid.

12. An officer whose services are lent or transferred, is not permitted to withhold the contribution by entering into an understanding that the time of his service so lent or transferred will not count for pension or for leave. He must either entirely resign the service of Government, or, unless he is specially exempted, make the contribution

required by these rules.

In the case of Covenanted Civil Servants the contribution of one-fifth required by this resolution, includes the four per cent, deduction to the annuity funds which will not be separately levied. The amount of the contribution to be credited to the annuity fund is 33 per cent. of the full nominal pay and acting allowance, being one-twenty-fourth part of the amount retained by the officer after deduction.* This retained out of 100.

sixth of the entire con-

tribution, will be credited to the annuity funds so long as they are maintained.

It. If the salary of the officers is disbursed at a Government Treasury, the required contribution will be deducted at time of payment, otherwise the officers them-

selves must pay the amount directly to the Government of India in such manner as may be arranged.

15. Nothing in this resolution is to be held to apply to officers accepting service under Native States, &c., for their own purposes; it applies solely to officers transferred from the service of Government under the general or special sanction of the Government of India, and for political or public reasons; nor shall any thing in this resolution be held to authorize the formation of funds by the accumulation of

the contributions or deductions required.

16. The above rules will apply to all officers in the service of Government transferred after the date of this resolution, under the sanction, general or special, of the Government of India, to service under Native States, Local Funds, Municipalities, or other bodies financially independent of the Government of India, unless they resign all claim to absentee or pensionary allowance from the Government of India. They will not apply, however, to service in the Hyderabad Assigned Districts or Mysore, the revenues of which States are under the financial control of Government, and can be used to meet charges for absentee and pensionary allowances when they arise. Also, they will not apply to the following cases where other arrangements have been made: (1) teachers transferred to service in the Chumba State, or in the Kolapur School; (2) Government servants transferred to the Municipality of Malcolm Peith.

17. The rules will not apply to officers lent or transferred to the British or to any Colonial Government. Such cases are rare, and will be left for special arrangement as they arise, due regard being had to the principles laid down in this resolution. The Government of India will not, unless

there are special reasons to the contrary, accept, without reimbursement, any charge for absentee allowances or for pension for service rendered by its officers to other Govern-

P dening up opposed company to proposed quarter range () in the contract of the last of the contract of the c

18. Nothing in this resolution shall be held to affect the position of officers who have, before the date of its promulgation, accepted service under Native States, Municipalities, gation, accepted service under Anive States, Municipalities, or other bodies financially independent of Government. Unless they belong to the army, or to the Covenanted Civil Service, or unless their case is met by some special rule, such officers have ordinarily no claim for pension from the Government of India, their pay not being a charge against the general revenues. This resolution is intended to provide for future transfers, and not to create any claims of the past of officers already transferred under other condithe part of officers already transferred under other condi-

OBDER.—Ordered, that the foregoing resolution be communicated to the several Departments of the Government of India, the several Local Governments and Administrations, the Director General of the Post Office of India, the Mint Master of Calcutta, the Comptroller-General, the several Accountants-General, and the Several Deputy Accountants-General in independent charge.

No. 4134 .- The 18th October 1871 .- Leave and Allowanction the substitution of the following rule for Rule 3 in Chapter XI. of the Covenanted Civil Service Leave Code—(see Notification No. 1317, dated 23rd June 1871):

When an officer, after giving over charge of his office at one station on transfer or reversion to another, takes privilege or examination leave before joining the office to which he has been transferred, or to which he has reverted; or when an officer, while on privilege or examination leave, is transferred to an office at a station other than that from which be took leave, he is entitled to joining time in addition to his privilege or examination leave. The joining time of an officer transferred during privilege or examination leave will count from his old-tation or from the place where he received the order of transferred by the place where he is now to be place where he received the order of transferred by the place where he is now to be place. fer, whichever is nearer to his new station.

No. 4549 .- The 20th October 1871 .-- The Governor-General in Council is pleased to sanction the insertion of the following rule as No. 5 in Chapter XIII. of the Cove-nanted Civil Service Leave Code:

An officer, the head-quarters of whose office are not fixed at one station, must, on the expiry of leave, rejoin his office wherever either the head-quarters of the office or his locum tenens may actually be: provided that the Government or other authority by whom the leave was granted may, for any public reason, permit or require the officer to rejoin elsewhere.

This rule is of general application.

No. 4585. - The Governor-General in Council is pleased to direct the addition of the following rule as Rule 3a under Section I.. Covenanted Civil Service Leave Code:

-There is no rule under which a Covenanted Civil Servant resigning his office or, by his own choice, remaining out of employ can obtain subsistence allowance. Time thus spent without allowances does not count as actual service.

Currency .-

does not count as actual service.

No. 4445.—Simla, the 19th October 1871.—Mint and Surrency.—Read again.—

Circular letter to all Local Governments and Administrations, No. 4121, dated 12th October 1870, regarding the enforcement of Section 16 of the Indian Coinage Act of 1870.

Notification of this Department, No. 451, dated 24th January 1871, containing rules for carrying out the provisions of Sections 18 and 28 of the Indian Coinage Act of 1870.

Read also the following convergenced uses on any processity.

Read also the following correspondence, on any necessity of relaxing the strict responsibility of a treasurer, for loss from his receipt of coin, which is defaced without having lost more than two per cent. in weight, or which was of doubtful legality from its appearing to have been reduced in weight otherwise than by reasonable wearing, viz.:

From Head Commissioner of Paper Currency, No. 393, dated 6th September 1871.

From Head Commissioner of Paper Currency, No. 393, dated 6th September 1871.

From Mint Muster, No. 477 of 8th September 1871.

RESOLUTION.—The Governor-General in Council observes that, under Section XIII. of the Coinage Act, defaced coin is not legal tender, and, accordingly, all coin which has been defaced, including that to which a piece of solder may have been attached, should be declined at a Government-Treasury or a Paper Currency Office. The

solder imparts to the coin a suspicious character, for it may concent a drilling of the coin, though, in other cases, it is attached for the purpose of using the coin as an ornament.

2. Similarly coin which has been artificially diminished (as by partial solution in acids), should be treated under Section XIII. of the Coinage Act as not legal tender, and be dealt with as Section XVI, and the rules in the notification dated 24th January 1871, may permit.

3. Coins which have lost more than two per cent. by fair wear and tear, should, in supersession of the rule in Financial Notification dated 24th January 1871, be received

only as bullion.

i. Weights for testing whether coins have lost more than the prescribed allowance in weight by wear and tear. should be supplied by the Mint Masters to all Treasuries and Paper Currency Offices, and the Mint Master, Calcutta, should be requested to submit a draft of the rules which he would propose for testing the scales and weights in use at Treasuries, since such test must become necessary in time, even when proper weights and adjusted scales may have been supplied in the first instance by the Mint.

Onder.—Ordered, that the above resolution be commu-

nicated to all Local Governments and Administrations, to the Comptroller-General and Head Commissioner of Paper Currency, the Mint Master, Calcutta, and the soveral Accountants-General and Deputy Accountants-General in independent charge, and that it be published in the Gazette-

31 & 35 VICTORIA, CAP. 31.

An Act to extend in certain respects the power of Local Legislatures in India as regards European British subjects.

[29th June 1871.]

Whereas it is expedient that the power of making laws and regulations conferred on Governors of Presidencies in India in Council by the Indian Councils Act, 24 & 25 Vic., c. 67, sec. 42, should in certain respects be extended:

Be it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Pariment assembled, and by the authority of the same, as follows:

1. No law or regulation heretofore made or hereafter to be made by any Governor or Lieutenant-

Power to Local Logislatures to con-fer jurisdiction over European British subjects to magistrates in certain cases. Governor in Council in India in manner proscribed by the aforesaid

Act shall be invalid only by reason that it confers on magistrates, being justices of the peace, the same jurisdiction over European British subjects as such Governor or Lieutenant-Governor in Council, by regulations made as aforesaid, could have lawfully conferred or could lawfully confer on magistrates in the exercise of authority over natives in the like cases.

2. When evidence has been given in any proceeding

Committal of defendant (being an European British subject) to the High Court.
Indian Act No. XXV of 1861, s. 223. under this Act before a

accused person, being an European British subject, of an offence for which, if a native, he would under existing law be triable exclusively before the Court of Session, or which, in the arrival of the court of Session, or which, in the opinion of the magistrate, is one which ought to be tried by the High Court, the accused person, if such European British subject, shall be sent for trial by the magistrate before the High Court.

3. And whereas by an Act passed by the Governor-Power to Local Legislatures to General of India in nend and repeal certain laws.

Council, Indian Act amend and repeal certain laws.

XXII of 1870, it No XXII of 1870, it is provided that certain Acts heretofore passed by the Governors of Madras and Bombay respectively in Council, and by the Lieutenant Governor of Bengal in Council, shall, so far as regards the liability of European British subjects to be convicted and punished thereunder, be and be deemed to be as valid as if they had been passed by the Governor-General of India in Council at a meeting for the purpose of making laws and cognitions. N_0 meeting for the purpose of making laws and regulations: Be if further enacted, that the said Governors and Licutenant-Governor in Council respectively shall have power to repeal and amend any of the said Acts so declared valid, by Acts to be passed under the provisions of the Indian Councils Act.

Act V of 1852	•••	An Act for giving effect to the provisions of an Act of Parliament passed in the 15th year of the reign of Her present Majesty intituled "An Act for Marriages in India."	The whole.
Act V of 1865	•••	The Indian Marriage Act, 1865	The whole.
Act XXII of 1866	•••	An Act to extend the Indian Marriage Act, 1865, to the Hyderabad Assigned Districts and the cantonments of Secunderabad, Trimungerry, and Aurungabad.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The law relating to the solemnization in India of marriages of persons professing the Christian religion is at present distributed over two English Acts of Parliament and three Acts of the Indian Legislature.

The object of this Bill is to reduce into a smaller compass and simplify the existing law on this subject by the consolidation of the different enactments referred to, and at the same time to amend the law in those matters in which it has been shown to be defective.

For example, by Act V of 1865 it is provided that marriages between Native Christians shall be valid where the ages of the centracting parties are not less than sixteen and thirteen years, respectively, and where they do not stand in relation to each other within the prohibited degrees of consanguinity or affinity.

It has been very forcibly represented by the President and several Members of the Bengal Christian Association that this provision of the law works injuriously by freeing the children of Native Christian parents from the control which all other parents can legally exercise over their sons and daughters ere the latter have attained their majority.

The Bill requires the consent of the parents or guardians of Native Christians to a marriage between them, where the age of either of the parties about to contract such marriage is less than eighteen years, except in cases in which the minors have been altogether separated from their parents or natural guardians, and by reason of such separation are not properly subject to their control.

There is also some ambiguoty in regard to the provisions of the law respecting the submission of returns, and the disposal of the records of the registration of marriages solemnized between Native Christians.

The Bill lays down distinctly how such marriages are to be recorded in all cases, and provides for the disp sal of the record. It also substitutes for the fixed rates of fees in respect of marriages solemnized by or before Marriage Registrars; a power to the Local Government to regulate such fees and their remission; and, lastly, extends the Marriage Law to all places within the territories of Native Princes in alliance with Her Majesty, in respect of marriages between British subjects professing the Christian religion.

NOTICE is hereby given, under Section 6, Act XI. of 1859, and under Section 3, Act VII. (B. C.) of 1868, that the undermentioned Estate, in Zillah Rungpore, will be put up to public and unreserved sale, at the Collector's Office of that district, on Saturday, the 23rd of December 1871, (corresponding with the 9th of Pous 1278 B.S.) for arrears of revenue, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on the 28th September 1871:—

Permanently-settled Estate.

To be sold for arrears of revenue.—No. 30.—Mouzah Tajpore, &c., Chuckla Kakcena. The shares of the recorded proprietors Radhanath, Surbanund, Rakhal Doss, Ramdoyal Chattyapadhya, Shibsoondery Debea (mother of Doorgakant Chattyapadhya, minor) and Bhugobutty alias Kon Debea (mother of Dwarkanath Mokhopadhya) will be exempted from sale on account of payment of Government revenue. The shares of Rajendro Chattyapadhya and of the minors Shamachurn and Dukhinachurn Chattyapadhya, which have been separated under Section 10, Act XI. of 1859, will be sold. The Sudder Jumma of the share to be put up for sale is Rs. 155-14-1½. The entire Sudder Jumma of the estate is Rs. 1,558-13-3.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The Lord Bishop of Calcutta has granted to the Reverend Mathew Lamert, B.A., Officiating Chaplain of St. John's Church, Calcutta, one month's privilege leave of absence, under Section XVI. of the Leave Rules for Chaplains, in extension of the leave which was notified in the Calcutta Gazette of the 6th September last.

The Lord Bishop of Calcutta has granted to the Reverend George Lovely, M.A., Chaplain of Gowhatty, one mouth's privilege leave from the 1st ultimo, or such date as he may avail himself of it, under Section XV. of the Leave Rules for Chaplains.

R. H. WILSON,

Offg. Under-Secy. to the Govt. of Bengal.

The 3rd November 1871.—The following Order received from the Government of India, in the Military Department, is published for general information:—

Military Department, Fort William, the 14th
October 1871.

From Colonel. H. K. Burne, Secretary to the Government of India, Military Department, to the Secretary to Government, Bombay, Military Department,—(No. 923 dated Simla, the 29th September 1871.)

I am directed to acknowledge your letter No. 3661, dated 6th September 1871, enquiring as to the interval at which a grant of furlough under Rule XI. of the Furlough Rules of 1868 may be repeated.

2. In reply I am to observe that leave under Rule XI. can only be given when the officer is not entitled to ordinary furlough, or is, owing to the number of absentees, unable to take it. Apart from this condition, there is no prescribed limit within which such leave may not be repeated, nor was it intended to fix any.

- 3. Leave under Rule XI. is of so exceptional a mature, and can only be given in such cases of extreme and proved urgency, that it must be of the rarest occurrence for any one officer to come under its operation a second time within any reasonable period.
- 4. Provided, therefore, that such leave is only granted in perfectly good faith, and is not allowed to become a form of privilege leave with a proformá certificate attached, the Governor General in Council is of opinion that no limitation in respect to periods need be laid down.
- 5. I am to point out that the Financial Department Notification, No. 323 of 10th May 1870, was superscded by Notification in the same department No. 2899, dated 18th August 1871.

No. 576.

Cory of the above forwarded to the Secretary to the Government of Bengal, General Department, for the information of the Hon'ble the Lieutenant-Governor.

R. H. WILSON,

Offg. Under-Secy. to the Govt. of Bengal.

The 5th November 1871.—The following revised rules for encouraging the study of oriental languages among graded European officers of the Bengal Educational Service, have been approved by the Government of India, and are published for general information:—

A letter dated 25th September 1871, from the Officiating Secretary to the Bengal Civil Service Annuity Fund, intimating the proceedings taken on the above resolution, and that the members of the Bengal Civil Service have consented by a decisive majority (316 against 16, about 220 having abstained or been presented from voting) to surrender the accumulated capital of the Annuity Fund upon the terms offered in the said resolution.

Read-

Despatch to Secretary of State, No. 205, dated 17th August last, regarding the method of crediting the capital of the Civil Service Annuity Funds.

Telegram from Secretary of State, dated 12th October last, in reply thereto

RESOLUTION.—The proceedings of the subscribers to the Bengal Civil Service Annuity Fund will, in accordance with Rule 23 of the Fund, be forwarded to the Secretary of State for sanction and approval. Subject to such sanction and approval. His Excellency the Governor General in Council is pleased to declare the scale of annuities set forth in the resolution of this Department above read, to be in force with effect from the 24th June 1870, and to direct that the accumulated Bengal Covenanted Civil Service Annuity Funds be credited to the Government of India as an extraordinary asset in the account of 1871-72; annuities and gratuities, whether already granted or to be granted in future, being borne as a charge against the Government of India.

ORDER.—Ordered, that the above resolution be published in the Gazette of India.

Also, that copy to be forwarded to the Secretary to the Bengal Civil Service Annuity Fund, with intimation that annuities commencing on or after the 24th June 1870, may be recalculated in accordance with the above may be re-calculated in accordance with the above resolution.

And to the Comptroller-General for information and guidance, with request that he will report the amount credited as above directed.

SEPARATE REVENUE. (Assessed Taxes.) The 25th October 1871.

No. 4693.—The following ruling under the Indian In-.come Tax Act, 1871, is published for general information:

From C. Bernard, Esq., Officiating Secretary to the Government of Bengal in the Revenue Pepartment, to the Secretary to the Board of Revenue, Lower Provinces, in the Department of Assessed Taxes,—(No. 3340, dated Fort William, the 2nd September 1871.)

I am directed to acknowledge the receipt of your letter No. 455B, dated the 24th ultime, and in reply to state that the Lieutenant-Governor concurs with the Member

in charge in holding that Section 7 of Act XII. of 1871 on the one hand, and Section 17 on the other, prohibit the assessment of income tax under parts II. and V., respectively, on incomes of less than Rs. 62-8 per mensem, or Rs 750 per annum. There is no other section in the Act which warrants an income less than Rs. 750 a year being assessed under one part, because the assessed's income under another part brings his total receipts for the year up to Rs. 750.

No. 3341.

Copy of the correspondence submitted to the Government of India in the Financial Department in the hope that the ruling of this Government may be approved.

From F. B. Peacock, Esq., Officiating Secretary to the Board of Revenue, Lower Provinces, to the Officiating Secretary to the Government of Bengal, Revenue Department,—(No. 455 B' dated Calentta, the 24th August 1871.)

At the instance of the Deputy Commissioner of Dar-jeeling, I am directed by the Member in charge to solicit the orders of Government on the following point: A Government official derives an annual income of Rs. 729 under Part V. of Act XII. of 1871 besides his annual income under Part II. amounting to Rs. 3,000, that is, a monthly salary of Rs. 250, the tax on which is recovered by the treasury officer by monthly deductions from his salary. Is the sum of Rs. 729 to be assessed under Part V. or is this income to be assessed under Part V., or is this income to be exempted as not amounting to Rs. 750, the minimum amount taxable? If the tax is levied, under what class of income is the assessment to be included? Other cases involving the same point have been referred to the Member in charge, such as where a man derives under Part V. an income of Rs. 60), and from Government securities separately assessed an income of Rs. 1,000, of course in equity the Rs. 600 here, and the Rs. 729 in the other case should be assessable, but the law has not provided for such cases in Mr. Money's opinion. The wording of Section 17 is against the assessment.

From J. WESTLAND, Esq., Under-Secretary to the Government of India, Financial Department, to the Secretary to the Govern-ment of Bengal, Revenue Department,—(No. 3846, dated Simla. the 23rd September 1871.)

With reference to your endorsement No. 3841, dated 2nd September 1871, I am directed to say that the Governor General in Council approves of the ruling exempting from income tax under Parts II. and V., respectively, incomes of less than Rs. 62-8 per month, or Rs. 750 per annum. I am to state that the point was intentionally left unprovided for, it not being thought worthwhile to construct the needful legislation.

SEPARATE REVENUE.

(Post Office.) The 26th October 1871.

No. 4726.—The Governor General in Council is pleased to direct the addition of the following officers to the list of officials and public offices privileged to frank letters without pre-payment of postage under Rule 1 of the rules published in Financial Notification No. 4032, dated 30th September 1871:

Ordinary Members of the Council of the Governors of Madras and Bombay.

Commanders-in-Chief of Madras and Bombay, including their Military Secretaries.

The following Order issued by the Government of India, in the Military Department, is republished for general information :-

No. 911.—Simla, the 24th October 1871.—The following Military letter from the Right Hon'ble the Secretary of State for India is published for general information:

MILITARY. No. 207.

INDIA OFFICE: London, the 10th August 1871.

To His Excellency the Right Hon'ble the Governor General of India in Council.

My Losp,—In framing the Military Furlough Bules of 1868, it was understood to be the desire and intention of the Gotternment of India that all distinction between furlough on private affairs and that on medical certificate should, as for a possible case and amount the intention as far as possible, cease, and amongst the intro-ductory clauses to those rules is the following: "1.—The distinction with respect to allowances

hitherto drawn between furlough on private affairs and sick leave is abolished, both kinds of leave being included under the general term furlough, provision, however, being made for the obtainment of furlough under medical certificate, without all the restrictions applicable to furlough when taken without medical certificate."

- 2. It appears to me, therefore, that the only occasions upon which any officer should be granted furlough on medical certificate are—
- 1st, when (as in the case of Subalterns) an officer entitled to furlough may, if compelled to take leave on account of ill health, be entitled, under the regulations, to certain privileges,—as free passage to England;
- 2ndly, when an officer is not entitled to furlough, but is obliged to take leave on medical certificate,—a case for which provision is made in the rules;
- 3rdly, when, in the interests of the service, an officer, although entitled to furlough, would only be granted leave on the production of a medical certificate.
- 3. Very recently applications for extension of furlough on private affairs on the part of officers
 who have come home on medical certificate, have
 been submitted to me, and have been granted, the
 applicants appearing to be entitled to furlough
 under the regulations; but it is obviously desirable that I should be informed of the actual circumstances under which every officer claiming
 furlough upon medical certificate has had furlough
 granted to him, and I consider all officers entitled
 to furlough, whose services can be spared, should
 have the leave gazetted as "furlough," whether
 they produce a medical certificate or not.
- 4. With respect to the above three classes, it might be well to gazette the first to furlough, with a note to the effect that, being recommended by a medical board, they are entitled to a free passage, &c. With regard to the second, it would be sufficient to note the clause under which they take leave, and, with regard to the third, it will be assumed in future, when an officer cutified to furlough is thus granted leave on medical certificate, that his services could not otherwise have been dispensed with, and no extension of his leave will be granted in this country except on medical certificate.

I have, &c.,

ARGYLL.

An Act for the Registration of Criminal Tribes and Eunuchs.

Whereas it is expedient to provide for the registration, surveillance, and Preamble. control of certain criminal tribes and eunuchs; It is hereby enacted as follows :-

1. This Act may be called "The Criminal Tribes' Act, 1871," and it Short title. shall come into force on the Commencement. passing thereof.

This section and Section twenty extend to the whole of British India: the rest of this Act extends only to the territories under the Governments of the Lieutenant-Governors of the North-Western Provinces and the Panjáb, respectively, and under the administration of the Chief Commissioner of Oudh.

Part I .- Criminal Tribes.

Local Government to report to the Governor-General in Council what tribes should be declared criminal.

2. If the Local Government has reason to believe that any tribe, gang or class of persons is addicted to the systematic commission of non-bailable offences, it may report the case to

the Governor-General in Council, and may request his permission to declare such tribe, gang or class to be a criminal tribe.

3. The report shall state the reasons why such tribe, gang or class is consi-Report to contain cerdered to be addicted to the tain particulars. systematic commission of non-bailable offences, and, as far as possible, the nature and the circumstances of the offences in which the members of the tribe are supposed to have been concerned; and shall describe the manner in which it is proposed that such tribe, gang or class shall earn its living when the provisions hereinafter contained have been applied to it.

4. If such tribe, gaug or class has no fixed place of residence, the report Occupation of wandering tribe to be stated in report. shall state whether such tribe, gang or class follows any lawful occupation, and

whether such occupation is, in the opinion of the Local Government, the real occupation of such tribe, gang or class, or a pretence for the

purpose of facilitating the commission of crimes, and shall set forth the grounds on which such opinion is based; and the report shall also specify the place of residence in which such wandering

proposed to be made for enabling it to earn its living therein.

Governor-General Council to empower Local Government to notify what tribe is criminal.

5. If, upon the consideration of any such report, the Governor-General in Council is satisfied that the tribe, gang or class to which it relates ought to be

declared criminal, and that the means by which it is proposed that such tribe, gang or class shall earn its living, are adequate, he may authorize the Local Government to publish in the local Gazette a notification declaring that such tribe, gang er class is a criminal tribe, and thereupon the provisions of this Act shall become applicable to such tribe, gang or class.

6. No Court of Justice shall question the validity of any such notifica-Bar of suits relating to such notification. tion on the ground that the provisions hereinbefore contained, or any of them, have not been complied

with or entertain in any form whatever the question whether they have been complied with; but every such notification shall be conclusive proof that the provisions of this Act are applicable to the tribe, gang or class specified therein.

7. When the notification mentioned in section five has been published, the Register of members of Local Government may direet the Magistrate of any district in which such tribe, gang or class, or any part thereof is at the time resident, to make a register of the members of such tribe, gang or class, or of any part thereof.

The declaration of the Local Government that any such tribe, gang or class, or any part of it is resident in any district, shall be conclusive proof

of such residence.

Upon receiving such direction, the said Magistrate shall publish a Procedure in making notice in the place where the register is to be made, call-

ing upon all the members of such tribe, gang or class, or of such portion thereof as is directed to be registered, to appear, at a time and place therein specified, before such persons as he appoints, and to give those persons such information as may be necessary to enable them to make the register.

Penalties for failing to appear, refusing or giving I, se information.

9. Any member of any such tribe, gang or class who, without lawful excuse, the burthen of proving which shall lie upon him,

shall fail to appear according to such notice, or who shall intentionally omit to furnish such information.

or who shall furnish, as true, information on the subject which he knows or has reason to believe to be false,

shall be deemed guilty of an offence under the first parts of section one hundred and seventy-four, or one hundred and seventy-six, or one hundred and seventy-seven of the Indian Penal Code, respectively, as the case may be.

Act V of 1865	The Indian Marriage Act, 1865	The whole.
Act XXII of 1866	An Act to extend the Indian Marriage Act, 1865, to the Hyderabad Assigned Districts and the cantonments of Secunderabad, Trimungerry, and Aurungabad.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The law relating to the solemnization in India of marriages of persons professing the Christian religion is at present distributed over two English Acts of Parliament and three Acts of the Indian Legislature.

The object of this Bill is to reduce into a smaller compass and simplify the existing law on this subject by the consolidation of the different enactments referred to, and at the same time to amend the law in those matters in which it has been shown to be defective.

For example, by Act V of 1865 it is provided that marriages between Native Christians shall be valid where the ages of the contracting parties are not less than sixteen and thirteen years, respectively, and where they do not stand in relation to each other within the prohibited degrees of consanguinity or affinity.

It has been very forcibly represented by the Fresident and several Members of the Bengal Christian Association that this provision of the law works injuriously by freeing the children of Native Christian parents from the control which all other parents can legally exercise over their sons and daughters ere the latter have attained their majority.

The Bill requires the consent of the parents or guardians of Native Christians to a marriage between them, where the age of either of the parties about to contract such marriage is less than eighteen years, except in cases in which the minors have been altogether separated from their parents or natural guardians, and by reason of such separation are not properly subject to their control.

There is also some ambiguity in regard to the provisions of the law respecting the submission of returns, and the disposal of the records of the registration of marriages solemnized between Native Christians.

The Bill lays down distinctly how such marriages are to be recorded in all cases, and provides for the disposal of the record. It also substitutes for the fixed rates of fees in respect of marriages solemnized by or before Marriage Registrars; a power to the Local Government to regulate such fees and their remission; and, lastly, extends the Marriage Law to all places within the territories of Native Princes in alliance with Her Majesty, in respect of marriages between British subjects professing the Christian religion.

The following Orders, issued by the Government of India in the Financial Department, are republished for general information :-

No. 4851.—Notifications.—Accounts.—Simla, the 1st November 1871.—Read again—

Financial Notification No. 3965, dated the 5th October 1870, prohibiting Local Governments and Administrations from making advances to municipalities or individuals by way of loan without the special sanction of the Government of India.

RESOLUTION .- The Governor General in Council is pleased to extend the above prohibition to all loans, whether direct from the Government trees ary or contracted with a bank by the authority of any Government officer, and to rule that, save under express sanction of law, no loans shall be authorized by any one but the Government

ORDER.—Ordered, that a copy of the above be communicated to all Local Governments and Administrations, and to the officers of audit concerned; also, that a copy of the above order be published in the Gazette of India.

LEAVE AND ALLOWANCES.

No. 4873.—The 30th October 1871.—The Governor General in Council is pleased to direct the insertion of the following as a heading in Chapter IV. of the Acting Allowance Code: The following rules regulate the acting allowance Code: ances of military officers in civil employ who are not in the Pubic Works, the Survey, the Telegraph, or the Forest Department.

No. 4889.—The Governor General in Council is pleased to direct the insertion after word "class" in Section XXIX. of the Acting Allowance Code of the words " and is not such as is described in Section XXVII. (a)."

No. 4892.—The 31st October 1871.—The Governor General in Council is pleased to direct the substitution of the following rule for Rule 3 under Section XIX of the

the following rule for Rule 3 under Section XIX. of the Covenanted Civil Service Leave Code and the elimination of the worl "But" from Rule 4 under that section:—

Time spent on subsidiary leave does not qualify for privilege leave. But if an officer returning from leave lasting more than three months be, solely for the convenience of the Local Government, and not for any fault of his own or by his own choice, prevented from rejoining an appointment on which he has a lien, or be kept out of employ on subsistence allowance, then duty qualifying for privilege leave begins on the day on which he presents himself to the Local Government ready for duty. for duty.

MINT AND CUBBENCY. No. 4895 .- The 3rd November 1871 .- The following Resolution is published in substitution of Resolution No. 4445, dated 19th October 1871,—vide page 810 of the Gazette of India, dated 21st idem: Read again-

Circular letter to all Local Governments and Administrations,
No. 4121, dated 12th October 1870, regarding the enforcement of Section 16 of the Indian Coinage Act of 1870.
Notification of this Department, No. 451, dated 24th January
1871, containing rules for carrying out the provisions of
Sections 16 and 28 of the Indian Coinage Act of 1870.

Read also the following correspondence on any necessity of relaxing the strict responsibility of a treasurer, for loss from his receipt of coin which is defaced without having

lost more than two per cent weight, or which was of doubtful legality from its appearing to have been reduced in weight otherwise than by reasonable wearing, viz. :

From Head Commissioner of Paper Carrency, No. 393, dated 6th September 1871 From Mint Muster, No. 477 of Sth September 1871.

RESOLUTION: -The Governor General in Council observes that, under Section XIII. of the Coinage Act, defaced coin is not legal tender, and, accordingly, all coin which has been defaced including that to which a piece of solder may have been attached, should be declined at a Government Treasury or a Paper Currency Office. The solder imparts to the coin a suspicious character, for it may conceal a drilling of the coin, though in other cases it is attached for the purpose of using the coin as an ornament.

2. Similarly coin which has been artificially diminished (as by partial solution in acids) should be treated under Section XIII. of the Coinago Act as not legal tender, and be dealt with as Section XVI. and the rules in the notifica-

tion dated 24th January 1871 may permit.

3. Coins which have lost more than two per cent. by fair wear and tear, should be cut or broken and paid for at the rate of one rupes per tolah, as directed in paragraph 2 of Financial Notification No. 451, dated 24th January 1871.

Weights for testing whether coins have lost more than the prescribed allowance in weight by wear and tear, should be supplied by the Mint Masters to all Treasuries and Paper Currency Offices, and the Mint Master. Calcutta, should be requested to submit a draft of the rules which he would propose for testing the scales and weights in use at treasuries since such test must become necessary in time. treasuries, since such test must become necessary in time,

even when proper weights and adjusted scales may have been supplied in the first instance by the Mint.

Onder.—Ordered, that the above resolution be communicated to all Local Governments and Administrations; to the Comptroller-General and Head Commissioner of Paper Currency, the Mint. Master, Calcuttan and the account. Currency, the Mint Master. Calcutta; and the several Accountants-General and Deputy Accountants-General in independent charge, and that it be published in the Gazette of India.

The following are the Conditions of Sale :--

- 1. The Opium will be sold for exportation by sea only, and no Certificate will be granted except to cover such export.
- 2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of these Conditions of Sale.
- 3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 r.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.
 - 4. Each lot shall contain five chests.

5. A Promissory Note for a sum calculated

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On mas of Rs 1,200 and apwards, but less than Rs, 1,60c per chest, Rs, 300 per chest. On bids of Rs, 1,600 and apwards, but less than Rs, 2,000 per chest, Rs, 400 per chest.

per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of fifth the day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or, times and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accoming from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opinin advertised for sale shall be paid for within fitteen clear days from the day of sale, and in case any lots of such Opinin shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public scenritics that may have been deposited on account of such lots or chests, shall be forfeited, and the Opinin shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opinin was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be

returned when payment in full has been made by

the said purchaser or his order.

11. The Officer superintending the sale on the part of the Government, is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fietitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bonà fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Cortificate of the Opium advertized for sale. No. 2, Report of the examination of such Opium.

No. 2, Report of the examination of such Opium.

16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for

shipment.

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Behar and Benares as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Article VI .- " With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of "that article there chall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons duly appointed by "them, the number of chests so applied for, pro-"vided that such supply shall not exceed three "hundred chests in each year, and the price for "the same shall be determined by the average "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Most Chris-"tian Majesty, within the usual period of delivery, the quantity so applied for shall nevertheless "be considered as so much in reduction of the "three hundred chests bereinbefore mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazelle."

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground .- The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The following Order received from the Government of India, in the Financial Department, is published for general information:—

No. 4570.

GOVERNMENT OF INDIA. FINANCIAL DEPARTMENT.

Accounts.

Simla, the 25th October 1871.

READ a letter-

Ì

From the Comptroller-General, No. 789, dated 4th October 1871, enquiring whether certain items of rovenue and charge, which from their inclusion in accounts current between Departments could not be adjusted in the year to which they appertained, should be adjusted in the following year as revenue and charge of the later year, or be adjusted outside the finance and revenue accounts through the head of "Government."

RESOLUTION.—The Comptroller-General very properly does not advise an adjustment outside the finance and revenue accounts through the head of "Government;" but the existence of any doubt on the subject after so many years' experience of the budget system,—and some recent instances of the retention of final payments under suspense or other debt heads, pending removal of

technical objections to the payments,—render it desirable to re-state the rules which should be

implicitly observed for the future.

2. The head "Government" should be strictly confined to its use as a closing head; it should not be employed to relieve other heads of account though writes-off from those heads; and adjustments of items of revenue and charge, which date since the introduction of the new system of accounts in 1865-66, should on no account be made to "Government," or be kept out of the revenue and finance accounts.

3. Actual revenue or charge which, for any reason, may not have been recorded as such in the accounts of the year to which it relates, should be so recorded in the earliest accounts that are open, and the record should be scrupulously made the moment that a final adjustment is practicable.

4. Final adjustments have often been retarded by erroneous or defective procedure, and in correction of, such, the following rules should be

observed :—

I. - Money indisputably payable under rule,

Financial Order No. 5024, dated 18th November 1869. Financial Notification No. 1274, dated 22nd February 1870. contract, operation of law, or other obligation, should be paid even in the ab-

sence of budget provision, and should be adjusted against the proper grant of the year, even when sanction to an additional grant may be deferred from any cause.

II.—A final payment of charge by a treasury or a disbursing officer should be recorded against the grant, even when the officer who made the disbursement, or the authority that ordered it, is held responsible for the amount owing to defect of vouchers, or of budget provision, or of competent sanction, or to other cause; the amount, while charged against the proper grant, being held in an objection statement against the officer who is responsible.

III.—The adjustment of a charge against the proper grant, under the two preceding rules, is not to annul or impair the responsibility of any officer who may be accountable for securing competent sanction or obtaining proper budget provision for the expenditure, nor do the rules now prescribed dispense with the obligation to obtain budget provision before payment for any charge which, in the absence of budget provision, the authority who may order its disburse-

ment is incompetent to sanction.

IV.—Owing to non-receipt in sufficient time (by the Department or Presidency which has to make the final adjustment) of the accounts current for the last month of the year between Governments or Departments, and between Presidency and Presidency, items of charge or receipt remain over for adjustment in the following year. But the number of such postponed items should be reduced as much as possible by the transmission of vouchers of receipts and final payments in anticipation of the complete account current for the last month of the year.

- b. Errors of classification of revenue or charge in the monthly accounts may, during the progress of the year, be corrected by transfer debits and credits in the accounts of succeeding months, but no such correction of errors in the accounts of one year should be attempted in those of a following year. When once the account for a year has been closed, errors in it, if affecting revenue or charge heads exclusively, are past amendment, and they should be simply noted in the appropriation audit report. The accounts of a province or department for any year are not, however, to be considered as finally closed until the closure of the accounts at the central office of the Comptroller-General.
- 6. If a receipt or charge appertaining to general revenue has been wrongly adjusted in any year under a debt head, the error may be corrected in any later year by debit to allowances and refunds if general revenue has to pay to a debt account; or by credit to the appropriate head of receipts if it has to receive from a debt account.

ORDER.—Ordered, that a copy of this Resolution be sent to the Military and Public Works Departments, the several Local Governments, the Comptroller-General, and the several Accountants-General and Deputy Accountants-General in independent charge.

NOTIFICATION.

The 13th November 1871.

RULES REGARDING THE APPOINTMENT, PROMOTION, AND POSTING OF POLICE OFFICERS BELOW THE GRADE OF ASSISTANT SUPERINTENDENTS.

The following rules, most of which correspond to those which have been found to work well in Oude, are promulgated for the guidance of Magistrates and Police Officers. They supersede the rules regarding promotion of Police Officers contained in Police circular No. 4 of 1870, paragraph 7.

1. The District Superintendent will make all appointments and promotions up to and including the grade of Head Constable; but the Magistrate of the district may place a veto on

any appointment or promotion.

2. Nominations to the grade of Sub-Inspector will be made by the District Superintendent, but such nominations will require the formal sanction of the Magistrate of the

district before the actual appointment is made.

- 3. When there is a vacancy in the grade of Inspector, a nomination will be sent by the District Superintendent to the Magistrate of the district, who will record his approval or disapproval; and if he disapproves, will make another nomination of a Police Officer for the promotion. The Magistrate will then submit the nomination or nominations to the Commissioner, who will forward them with his opinion to the Inspector-General. The Inspector-General will ordinarily appoint, or submit for appointment by Government in the usual manner, any person nominated as above and approved by the Commissioner, unless he sees special objection, in which case he will record his objections and submit the case for the orders of Government.
- 4. District Superintendents may suspend, reduce, or dismiss, any officer under the grade of Head Constable, subject to the veto of the Magistrate of the district, and also subject to the present rules regarding appeals.
- 5. Officers of higher grade may be suspended under the same conditions as above; but if they are reduced or dismissed, the sentence shall not be carried out without the approval of the Magistrate of the district in the case of a Head Constable, and of both the Magistrate of the district and the Inspector-General in the case of officers of higher grades. After approval as above, there will be no appeal; but in case either the Inspector-General or Commissioner consider that a special injustice has been done, they may represent the case for the orders of Government.
- 6. Magistrates of all grades shall be at liberty to record their opinion that any Police Officer has deserved reward or punishment for his conduct in any case or cases tried by them, and Magistrates other than the Magistrate of the district shall submit such recommendations to the Magistrate of the district. The Magistrate of the district may also record an opinion as above in regard to the conduct of any Police Officer in any other duty coming under his notice or reported to him.

The Magistrate of the district may direct the entry of such recommendation in the character-book kept by the Superintendent of Police. A similar order may be passed by the

Commissioner of the division.

7. In case punishment is recommended, the Superintendent of Police will either punish or submit to the Magistrate of the district or Commissioner (when the Commissioner has recommended punishment) his reasons for not doing so. If the Magistrate of the district or Commissioner deem the reasons unsatisfactory, the District Superintendent shall carry out such punishment as the Magistrate or Commissioner may direct. An appeal from the orders of the Magistrate shall lie to the Commissioner of the division only. District Superintendents retain the power of inflicting minor punishment on their own motion, subject to the present rules regarding appeals in such cases.

8. In making promotions or recommendations for promotion, the District Superintendent shall have full and due regard to the recommendations entered in the character-book as above directed. If men well recommended are passed over in favour of others of whom the Magistrate does not approve, the Magistrate may require the District Superintendent to submit the name of a person so recommended. The District Superintendent may request that the order may be submitted for the sanction of the Commissioner, who will finally

decide.

9. Police Officers will ordinarily be considered to be attached to the districts and

divisions in which they are now serving, and will be locally promoted.

10. Except temporarily on emergency, or for detective or other inquiries, no Police Officer will be removed from any district to another in the same division without the consent of the Magistrate of the district in which he is serving, or the order of the Commissioner, nor to any other division without the consent of the Commissioner of the division in which he is serving or the order of Government.

11. The Magistrate will have a veto on transfers of Police Officers from one place to another within the district, and should take care that local efficiency is not sacrificed by

frequent transfers.

12. The Inspector-General is requested to submit a scheme showing the number of Inspectors of each grade to be attached to each division, and the number of Sub-Inspectors of each grade to each district. He is also requested to revise the present rules regarding qualifications for Police Offices, appeals from orders in the Police Department and other cognate subjects, to incorporate with them the rules now published, and to submit the whole for the consideration of Government.

II. L. HABRISON, Offg. Jr., Secy. to the Govt, of Bengal, The following Order issued by the Government of India, in the Department of Agriculture, Revenue, and Commerce, is published for general information:—

No. 432.

Extract from the Proceedings of the Government of India in the Department of Agriculture, Revenue, and Commerce,—(dated Simla, the 31st October 1871.)

[GENERAL.]

READ-

A memorandum, dated the 23rd September, by the Officiating Inspector-General of Forests, asking for permission to print, for circulation to Forest Officers, a Manual of directions for the use of common medicines, and the treatment of some of the most common diseases.

Read also-

A memorandum, dated the 2nd October, on the above, by the Secretary in this Department, suggesting the advisability of compiling and printing for general use by officers whose duties compel them to reside very frequently beyond the reach of medical aid, e.g., officers in the Customs, Opium, Forests, Public Works, and other Departments,—a simple, brief, and concise medical Vade Mecum.

Observations.—A simple and concise popular work on medicine suited to the wants of nonprofessional persons in this country has long been wanted. To the many officers of the Forest, Survey, Customs, Opium, and other Departments, who are scattered over India in situations far removed from medical advice, simple instructions for the treatment of accidents, of diseases, and specially of those tropical diseases which are most common, and which require early treatment, would, it is believed, prove of much service, not only for their own use, but also for the use of their families and establishments. Such a work could not take the place of proper medical advice, nor is it proposed that it should be resorted to where such advice can be obtained, but, in the absence of such assistance, much might be done, and probably many lives might be saved, if a manual, well suited to the circumstances, accompanied by a small medicine chest, were placed in the hands of all those who have no other guide.

2. Such a work, however, to be really useful, must be extremely simple and concise. It must contain no technical terms, and it should deal with as few remedies as possible. With this object, all the medicines recommended as absolutely essential should first be enumerated, their action explained, and the proper doses, both for adults and children, stated. (Small medicine boxes will be hereafter distributed, arranged expressly with reference to this first chapter.) In the next chapter, the symptoms of the chief diseases, and the treatment which is best suited to each, should be described. A third chapter should be devoted to the diagnosis and cure of accidents; and a fourth should contain general instructions for preserving health, especially in those circumstances of exposure and of residence in unhealthy localities which so frequently attach to the performance of duty.

Resolution.—His Excellency the Viceroy and Governor General in Council has resolved to offer a prize of Rs. 1,000 for the best manual of this kind (special regard being had to brevity and simplicity) which shall be submitted on or before the 15th October 1872. Manuscripts should be sent to the Inspector-General of Hospitals, Indian Medical Department, Calcutta, superscribed "Manual of Family Medicine for India." A scaled

envelope should accompany each, the outside bearing a motto, and containing within the name of the author. The work will be the property of the Government, and will be published with any additions* or omissions that Government may deem necessary at the public expense, bearing the author's name.

ORDER.—()rdered, that a copy of this Resolution be sent to all Local Governments and Administrations, for general information, and to the Home Department for communication through the proper channels to all branches of the Medical Services.

* Note.—These will be printed in brackets.

Judges of the Court.

Judges of all grades sit in Court with their Sherishtadars in attendance, think fit to call the attention of all Judicial Officers to the pre-

judicial effect of such a course.

First.—It tends to give an erroneous impression of the position and influence of the Sherishtadar.

Secondly.—By the Sherishtadar being kept all day in attendance on the Judge, the Office, the Subordinate Amlah and the details of business lose almost entirely the benefit of his presumably superior capacity and experience.

2. The Court accordingly forbid the employment of the Sherishtadar on the Bench, and remind all Civil Judges of the regular Courts that his proper place is in the Sherishtah, for the management of which he is more immediately responsible.

The following are the Conditions of Sale:-

- 1. The Opium will be sold for exportation by sea only, and no Certificate will be granted except to cover such export.
- 2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of these Conditions of Sale.
- 3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 r.M.; but if at that hour any of the loss advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a publie holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on nand at a future sale.
 - 4. Each lot shall contain five chests.

A Promissory Note for a sum calculated

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest, On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400

per chest.

And so on, Rs 100 being added to the deposit for every bid additional to the extent of Rs, 400.

according to the scale noted in the margin shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in sale book, and all

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Pengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'elock in the afternoon of fifth the day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or fimes and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before I o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests whether more cr less, than the number of lots or chests originally required to be included in each Certificate or Order.

No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by

the said purchaser or his order.

11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

- 12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Cortificate of the Opium advertized for sale. No. 2, Report of the examination of such Opium.

- No. 2, Report of the examination of such Opium.

 16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- 17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for

shipment.

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity witnin thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Behar 21,000 estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Article VI .- " With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of that article there chall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons duly appointed by "them, the number of chests so applied for, pro-"vided that such supply shall not exceed three "hundred chests in each year, and the price for "the same shall be determined by the average "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Most Chris-"tian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless "he considered as so much in reduction of the "three hundred chests hereinbefore mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazette."

By order of the Member in charge,

F. B. Peacock,

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is $1\frac{1}{2}$ feet, and that of the anemometer 70 feet 10 inches above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

An Act to regulate the Weights and Measures of Capacity of British India.

Whereas it is expedient to provide for the ultimate adoption of an uniform system of Weights and Measures of Capacity throughout British India;

It is hereby enacted as follows:-

I .- Preliminary.

1. This Act may be called "The Indian Weights and Measures of Short title. Capacity Act, 1871," and Local extent. extends to the whole of

British India.

11.-Standards.

2. The primary Standard of Weight shall be called a Scr, and shall be a Weight of metal in the possession of the Government of India, equal, when weighed in a vacuum, to the weight known in France as the Kilogramme des archives.

Units of Weights and Measures of Capacity.

3. The Units of Weight and of Measures of Capacity shall be—

for Weights, the said Ser;

for Measures of Capacity, a measure containing one such Ser of water at its maximum density, weighed in a vacuum.

Special Weights and Measures of Capacity to be authorized.

The Governor General in Council may, from time to time, by notification in the Gazette of India, declare the magnitude and denominations of the Weights

and Measures of Capacity, other than the said units, to be authorized under this Act:

Provided that every such Weight or Measure of Capacity shall be an integral multiple or integral sub-multiple of one of the units aforesaid.

The Governor General in Council may, in like manner, revoke such notification.

Unless it be otherwise ordered in any such notification, the sub-divisions of all such Weights and Measures of Capacity shall be expressed in decimal parts.

5. The Governor General in Council may, from time to time, by notification in the Gazette of India, define the limits of districts for the purposes of this Act.

The Local Government may, from time to time, by notification in the official Gazette, define the limits of sub-districts for the purposes of this Act.

6. The Governor General in Council may provide for such districts as he thinks fit, proper primary standards and sets of the said authorized Weights and Measures of Capacity.

Such standards shall, for the purposes of this Act, be deemed the standards for such districts.

7. The Local Government may provide, for such sub-districts as it thinks fit, copies of such of the said authorized. Weights and Measures of Capacity as shall be necessary to serve as local standards in such sub-districts.

Such local standards shall be deemed correct, until they are proved to be otherwise.

III.—Use of new Weights and Measures of Capacity.

8. Whenever the Governor General in Council considers that proper standard Weights and Weights and Weights and Measures of Capacity have been made

available for the verification of the Weights and Measures of Capacity to be used by any Government Office or Municipal Body or Railway Company, the Governor General in Council may, by notification in the Gazette of India, direct that, after a date to be fixed therein, all or any of the Weights and Measures of Capacity authorized as aforesaid shall be used in dealing.

In continuation of Circular Order No. 25, dated

HIGH COURT, &c.,
Civil Side,
Present:
The Hon'ble F. B. Kemp,
Offg. Chief Justice.
The Hon'ble Louis S. Jackson,
A. G. Macpherson,
Judges of the Court

the 12th August last, the Court find it necessary to issue the following further instruction in respect to the forms A, B, C, of the quarterly returns of Civil work.

These statements are mainly intended to exhibit the work of each Court as a whole, and the work of individual Officers should not be distinguished in the body of the returns. And in the columns headed "Instituted or received by transfer," as well as in those headed "Disposed of by final order or transfer," the term transfer was intended to relate to those cases only which have passed. from one Court to another by an order of the presiding Officer, and not to those which have been left by the presiding Officer to his successor in the same Court when successive Officers have presided in the same quarter. Cases of the latter description may be distinguished by a note in the column of remarks, where the number disposed of by each Officer out of the total in each of the columns indicated ought also to be exhibited.

By order of the High Court,

J. H. BELCHAMBERS,

Deputy Registrar, In charge of the Office of Registrar.

according to the scale noted in the margin shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is re-gistered in the sale book, and all

such Premissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Pengal receipts, or by substitution of other public securities of the Government of India, on or before I c'elock in the afternoon of the fifth day after the sale; or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such tine or times and under such conditions of resale as the Member in charge shall see fit, and all lesses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, wholst any profit accruing from such re-sale shall be forfeited to Government,

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 O'clock of the fifth day tollowing the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before I o'cleek of the fifth day following the day of sale, will be afterwards accepted.

S. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited. and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any less or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be

returned when payment in full has been made by the said purchaser or his order.

- 11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes. Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.
- 12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twentyfive lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.
- 14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the Opium advertized for sale.

- No. 2, Report of the examination of such Opium.

 16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Eenares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium se applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole Quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 12,900 chests of

Behar and Benares as above Chests. ... 21000 ... 18,000 estimated, will be brought to sale in the usual manner, Behar . Ben des ... 42 900 and if they shall make application for a quantity of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengai reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing toe quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Article II .- " With regard to the trade in "Opium, it is agreed between the high contract-Ging parties that at each of the periodical sales of "that article there shall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian " Majesty, or by the persons duly appointed by "them, the number of chests so applied for, pro-"vided that such supply shall not exceed three "hundred chests in each year, and the price for "the same shall be determined by the average "rate at which Opium shall have been sold at every " such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Most Chris-"tian Maje-ty within the usual period of delivery, "the quantity so applied for shall nevertheless "be considered as so much in reduction of the "three hundred chests bereinbefore mentioned. "The requisitions for Opium as aforesaid age to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazeite."

Report on the Baleeparah and Adhabari Tea Gardens.

From S. C. BAYLEY, Esq., Officiating Secretary to the Government of Bengal, Judicial Department, to the Commissioner of Assam,—(No. 74T, dated on board the yacht Rhotas, Sylhet, the 16th September 1871.)

In continuation of this office letter No. 1787, dated the 9th June 1871, I am directed to request that a most particular inquiry may be instituted into the condition of Baleeparah tea garden. The Lieutenant-Governor finds that in 1870 the average number of imported coolies was under 240, and the deaths were 52; or considerably more than 20 per cent; while in the last half of 1869 (the first half does not distinguish the mortality from other gardens of the same owner) there was a mortality of 26 out of an average number of 151, being at the rate of upwards of 34 per cent per annum.

2. I am also to request that the other garden belonging to the Agra and

2. I am also to request that the other garden belonging to the Agra and Masterman's Bank, viz. Adhabari, may be thoroughly inquired into. In Adhabari the average number of imported coolies for 1870 was 133, and the deaths were 24, or about 18 per cent; while in the second half of 1869 they were 19 per cent; and in the return of this Bank's gardens for the first half of 1869 lumped together, the mortality was 9 per cent for the half year, or 18 per cent per annum. It may be taken, then, that for the two years 1869 and 1870 the annual mortality of these two gardens is fully 20 per cent. His Honor does not think that such a waste of human life should be tolerated, especially when the manager does not himself take the risk and look after the coolies, but resides at Tezpore, seventeen miles off. It is true that the Act is somewhat vague in not providing any test as to what gardens are fit for human habitation; but seeing that the coolies do not know the character of the gardens for which they are engaged, and as they are (as remarked by Captain Walcott) bound hand and foot, Government is most especially bound to see that they are not forced to remain in very unhealthy places or under very unhealthy circumstances. If

there is not a very great change in the condition of these gardens, the Lieutenant-Governor directs that a committee, under section 112 of Act II (B.C.) of 1870, should be at once assembled with the view of closing them to imported labor.

3. I am further to observe that the mortality in the Bishnath Tea Company's garden seems to have been very heavy. For the first half of 1869 it was (in the gardens lumped together) 7.32 per cent in the half year, or at the rate of nearly 15 per cent per annum. In the second half of that year the average number of coolies in the gardens (Pabhoy, Partabghur, Sadharoo, Diplonga, and Dikroy) seems to have been 448, and the number of deaths 81, or at the ratio of upwards of 35 per cent per annum. In the first half of 1870 the mortality was not so heavy, but in the second half of 1870 it was again at the rate of about 15 per cent per annum. The death-rates in the Luckimpore Tea Company's gardens in the Bishnath circle (including besides Gogra, Bishnath, Behalce, Singlejan) are also heavy. The Lieutenant-Governor requests that the gardens of both these companies may be inquired into particularly, and a committee assembled under Act II (B.C.) of 1870 in case any of them are still very unhealthy.

From Colonel H. Hopkinson. Agent to the Governor-General, and Commissioner of Assam, to the Officiating Secretary to the Government of Bengal, Judicial Department,—(No. 161, dated Gowhatty, the 4th November 1871.)

I have the honor to acknowledge the receipt of your letter No. 74 of the 16th September, directing that inquiries be made into the condition of the Baleeparah and Adhabari tea gardens in Durrung, and in reply beg to state that a committee has been convened, under section 112 of Act 11 (B.C.) of 1870, to ascertain whether the gardens are fit for human habitation, and I now beg leave to submit a copy of the proceedings of the committee, and to make the following remarks.

2. From the complaint made by the laborers of the Baleeparah garden, that they did not receive their Sunday's pay, and which complaint was found to be correct, I conclude that the men were compelled to work on Sunday or forfeit their wages for the day, contrary to the provisions of section 69 of the Act, according to which no laborer is bound to work for more than six days in the week; and as it appears from the remarks of the committee that a system somewhat similar obtains in other gardens in the Durrung district, the inspector's attention has been drawn to the subject, and he has been requested to see that the provisions of the Act on this point are adhered to.

3. Again, the deduction of pay from men, who, from physical incapacity, are unable to perform a full day's work, is most improper and illegal, according to paragraph 8 of the form of contract circulated with your office endorsement No. 99 of the 21st December 1870; and the fact of coolies being obliged in self-defence to work when suffering from fever, "in order to obtain at least some allowances," is most cruel, and throws discredit on the entire management of the garden.

4. After reviewing all the circumstances connected with the situation of the garden, and the treatment the coolies employed on it received, the committee have declared that the Baleeparah tea garden is unfit for human habitation; but they have at the same time added a condition that if certain suggestions which they made be carried out, the garden may remain open to imported laborers.

5. It appears to me that the committee acted without jurisdiction in attaching any conditions whatever to their verdict. The only question they had to decide was, whether the garden was or was not fit for human habitation; and when they decided that it was not, it was the duty of the inspector to step in and close the garden against imported laborers.

6. With the facts elicited, I cannot hope that there will be any radical improvement in the condition of the laborers employed at Balceparah: it is evident that the place is unhealthy from causes inherent to it; moreover, Balceparah is notoriously an unhealthy locality, and, with the exception of Odalgooree, I know of no place on the frontier with a worse reputation. We can leave neither sepoys nor constables at the Balceparah stockade without their running a risk of being decimated after March. I have, under these circumstances, and in accordance with the finding of the committee, directed Major Graham to caucel the contract of every laborer employed in the Balceparah garden so far as regards that garden, and to close it against all imported laborers.

7. With regard to the Adhabari garden, the committee have declared their inability to hold it unfit for human habitation, and under the existing law nothing remains to be done in the matter; but here too, as at Balceparah, coolies have been apparently compelled to work for seven days in the week; and although the coolies appear to have carned more than their brethren in the Balceparah garden, it does not seem that they have always been paid in full.

PENEMENT TO THE CARCUITA GRARITE, NOVEMBER 29, 1911. 191

To these points with regard to this garden also, Major Graham has been instructed to pay attention and to enforce the law.

8. With reference to the committee's remarks about the hospital, the inspector ought to have proper hospital accommodation, according to the rules, both at Adhabari and Hullessor, and his attention has been called to the subject. I quite concur with the committee's remarks about the want of European management, and think that there should most certainly be a European manager or assistant when imported laborers are employed; but I would observe that the Act does not make this obligatory.

9. In conclusion, I would remark that both the gardens reported on belong to the Agra Bank, Limited, and are under the management of Mr. Wingrove, who resides in the station of Tezpore, and I can only hope that the inquiries now made will induce the owners

of these estates to take more interest after the welfare of their coolies.

10. The result of the inquiries directed by His Honor in the 3rd paragraph of your letter, regarding the Bishnath and Luckimpore Companies' gardens, will be reported hereafter.

From Major J. M. Graham, Deputy Commissioner of Durrung, to the Personal Assistant to the Commissioner of Assam,—(No. 1291, dated Tezpore, the 24th October 1871.)

I have the honor to state, for the information of the Commissioner, that in pursuance of instructions conveyed in his letter No. 1628 of the 20th ultimo, and in Government No. 74 of 16th idem, a committee has been assembled to report on the Baleeparah and Adhabari tea gardens, belonging to the Agra and Masterman's Bank, Limited, and to report on its proceedings.

2. The committee was composed as follows:-

Major J. M. Graham, Deputy Commissioner,

Dr. A. Imthurn, Civil Surgeon,

Mr. W. R. Phillips, Tea Planter of Gelahating,

and left Tezpore at 4 A.M. on the 7th October, reaching Adhabari garden at about 8 A.M., and inspecting the lines, site, and water-supply, &c., after which the committee proceeded to Panipotah, where they remained for the day, and next morning inspected the Baleeparah garden, which is about four or five miles from Panipotah, staying there a considerable time, and obtaining all necessary information.

In the evening the committee again returned to Adhabari to complete their investigation,

and returned the next morning to Texpore.

The following is the committee's report on the gardens:-

BALEEPARAH.

Coolie lines.—The houses are about 12 feet by 18, and are adequate in number to the requirements of the garden. There is a space of fully 12 feet between each house, and in these respects there is nothing to find fault, and although at the present season the houses are somewhat out of repair, they are far better than the average of those of native villages.

The houses are situated on a piece of ground raised about 8 feet above the present surface of the water of a jheel which compasses them on two sides, and there can be little doubt but that as this jheel receives in the rains the inundation of the Bhoroli river, and considerable surface water, its level at that season cannot be far below the level of the floors of the houses. It must, however, in fairness be here remarked that the same might be said as regards the water level in other gardens of the district, which are fairly healthy. The committee, however, are not inclined to attribute the unhealthiness of the garden to the situation of the lines alone, although they think it may influence the unhealthiness.

The water, the committee believe to be bad; and they are supported in this view, first, by its taste and appearance, and secondly, from the statements of the jemadar in charge of the garden and the native doctor; the former declaring that the mortality was owing to the water, and the latter stating that food taken along with it remains undigested. A certain portion of the water is, however, taken from an unfinished well which is close to a portion of the huts, and is said to be somewhat better. The next point is the ventilation of the lines, which is decidedly bad, as on three sides they are surrounded at no great distance by grass or other jungle, which seems to obstruct the breeze, and by the main lines being on the lower part of a slope this objectionable circumstance is increased.

Here, however, the committee would remark that the objectionable circumstances noticed above apply in a greater or less degree to almost any garden in the district, and although the committee are of opinion that these circumstances must tend, in a considerable degree, to increase sickness and mortality, still they consider that these circumstances alone will not of themselves account for the great mortality of the garden as compared with that of other gardens which are in a somewhat similar position, and that the committee must therefore seek further for the cause of the mortality.

An inspection of the books of the garden shewed that on an average the carnings of an adult male coolie was not much over Rs. 2-8 per mensem, that rice had been sold from 9 to 12 pie per seer, and that the coolies bitterly complain of their not being paid what they term the "Sunday hazri," which the committee found to be the case. The women, by leafpicking, it is true, earn more; and the committee believed that their looking healthier than

the men was perhaps to be attributed to this. In other gardens it appears to be the custom to pay the coolies the Sunday wages when they have worked for twenty-six days in the month; but here this was not the case: and this the committee consider highly reprehensible. Many of the men are found to have worked only for half a day, that is, given what they call a half "hazri," for which they only receive half a day's pay, and the reason they give for this

is that they are too weak (and many of them look it.) to work a whole day.

The Civil Surgeon, in inspecting the hospital records, noticed that there were very few cases of fever on the list, whilst there were many cases of enlargement of the spleen and of dropsy, which probably had been preceded by fever. On inquiry it turned out that coolies suffering from fever were, as a rule, treated in their own houses, and did some work in order to obtain at least some allowance, whereas in hospital they would receive nothing beyond their daily food; and the deduction which the committee draw from the above is that the coolies, acted on by a malarious climate, and the objectionable circumstances as regards water, &c., above noted, get into a weak state, and being in consequence incapacitated from earning full wages and being muleted of the Sunday's wages, are unable to provide the means, that is live sufficiently well, to recover strength, and consequently die.

The excuse for the non-payment of Sunday wages was within the cognizance of the manager; and although payment of Sunday wages is said to be made in the adjoining garden of Adhabari, the manager admitted it was not made in Baleeparah, on the score of the funds allowed him for the maintenance of the garden being insufficient. The manager stated that at one time he had ordered the payment of the "Sunday hazri," but finding the funds supplied him would not meet this demand, he was obliged to stop it.

Having, then, came to a conclusion that the general unhealthiness of the Baleeparah garden, added to its consequent results as regards the pay of the coolies, has conduced to the heavy mortality, the committee feel that to be consistent they should close the Balceparah garden to imported labor, and would have no hesitation in doing so did they not consider that by the removal of the lines to the high ground in the neighbourhood of the Mansiri river, which is about a mile distant, and the residence of an efficient European manager or assistant on the spot, who would look to the welfare and fair treatment of the coolies, the present excessive mortality would doubtless be avoided; and they therefore, while declaring, in the terms of section 112 of Act II of 1870, the present garden and coolie lines of Baleeparah as unfit for human habitation, declare that if the arrangements above suggested be carried out without delay, the garden may remain open to imported labor, but not residence.

The Adhabari garden is situated on a narrow plateau, surrounded on three sides by an extensive tract of low land, the greater part of which is under rice cultivation. The level of the garden is from 30 to 50 feet above the level of the surrounding paddy fields; the latter are liable to inundation by the Bhoroli river. A small river forms the northern boundary of the high land, and is the only source of drinking water for the inhabitants of the garden and

neighbourhood.

The garden looks as if it might be exposed to malaria from the surrounding low land. It is, however, to be noticed that the gardens of the former Tezpore new concern are similarly situated close by, and yet there is much less sickness and mortality in the latter garden than at Adhabari. The state of the coolie lines was on the whole satisfactory. The houses are not less than 9 × 18 feet superficial space, the side wall being about 5 and 6 feet high. There is ample space between the houses, and the lines are intersected by numerous wide and well kept roads. The number of the houses is more than sufficient for the requirements of the coolies. The ground affords great facilities for drainage. There is no grass jungle near the lines,—nothing to interrupt ventilation. The water from the little river above mentioned was very clear, and of good taste and free from any obnoxious smell.

Of the laborers, four were convalescents employed on light work; the majority of the remainder looked healthy. A man, suffering from syphilis, and a boy with a skin disease, ought to have been sent to the civil station for treatment. From the garden register it would appear that the earnings of the laborers are on an average much above what they are

at Balceparah.

An inquiry made regarding Sunday wages did not lead to a satisfactory result; some of the laborers said they received pay for Sundays, others said they did not, whilst many others alleged that they received pay if they worked on Sundays. The committee are inclined to think the last-mentioned statement likely to be correct.

The site of this garden, then, being apparently fairly healthy (with the exception of the possible exposure to malaria noted above), the accommodation of the coolies being sufficient, and there being no proof, or even, it may be said, complaints of their being stinted as

regards pay, cannot say that this garden is unhealthy or ought to be closed.

Lately the mortality has much improved, being below 2½ per cent in nine months, which contrasts most favorably with that of Balceparah, which stands at 12.4 per cent for the same

The Tezpore old concern has only one hospital for all its gardens. The hospital is about three-quarters of a mile from the Balceparah garden and 600 paces from the Mansiri river, its

water-supply being obtained from the latter. It is also three miles from Adhabari and nine miles from Hullessor garden. The ground where the hospital is situated is higher than the Baleeparah garden, and open from all sides. The hospital itself is not sufficiently raised; its under floor being hardly higher than the surrounding ground. There is nothing to recommend the site for a hospital, whilst its great distance from the source of water supply, and the fact that the native doctor lives three-quarters of a mile away, are objectionable circumstances. The hospital building is roomy and well-ventilated; in fact, it will hardly afford protection against rain and sunshine.

The hospital contains sixteen muchans about three feet apart in rooms separated by a space about six feet broad. Four of the machans are in a separate hut, a somewhat exposed enclosure, intended for female patients, and the want of isolation is not satisfactory. Near

the hospital is a large cook-room and a house for the servants, a cook and a sweeper.

A very liberal supply of medicines, and also the most necessary implements for their preparation, are kept in the bungalow at the Baleeparah garden in good order. The native doctor keeps the records of the hospital transactions. These records give the following data of sickness and mortality for the nine months ending the 30th September 1871. Nevertheless, it is the opinion of the committee that this garden, which employs a large number of coolies, should have either a European manager or assistant on it, as the absence of such a person may, it is considered, lead to circumstances which might affect the health and condition of the coolies, and thus cause a return of the former heavy mortality.

A not inconsiderable numb	rr oi ngnt c	ases of sick	ncss, chieffy	iever, at l	saice datai

A not inconsiderable number of light cases of sickness, chiefly fever, at Balceparah have been treated as out-patients, and the records kept do not admit of an exact compilation. If the Balecparah lines are removed to the bank of the Mansiri, the hospital should be crected

near them, on some adjacent and convenient spot.

In conclusion, the committee would observe that the average annual mortality of the Assam jails for the last 25 years has been above 8 per cent, and that of the Tezpore jail, which is considered the most healthy, above 4 per cent for the same period. The committee believe that under any cirumstances the mortality of laborers newly imported into Assam will considerable exceed that of the Assam will considerable exceed that of the Assam will considerable exceed that of the Assam will considerable exceed that of the Assam will considerable exceed that of the Assam will considerable exceed that of the Assam will exceed the considerable exceed that of the Assam will exceed the considerable exceed that of the Assam will exceed the considerable exceed that of the Assam will exceed the considerable exceed the considera into Assam will considerably exceed that of the Assamese themselves, even although the latter may be living under apparently more unhealthy conditions, and this being so, that a low death-rate cannot be expected; but what might be considered a fair death-rate, the committee, with their present information, are unable to say.

From S. C. BAYLEY, Esq., Officiating Secretary to the Government of Bengal in the Judicial Department, to the Commissioner of Assam,—(No. 3798, Fort William, the 22nd November 1871.)

I have laid before the Lieutenant-Governor your letter No. 161, dated 4th instant, enclosing the committee's report, under section 112 of

Act II (B.C.) of 1870, on the gardens of Baleeparah and Adhabari.

The Lieutenant-Governor gathers from the report that not only is the situation of Baleeparah necessarily unhealthy, but the water is bad and the lines near the level to which the water of the jheel rises during the rains. In addition to this, it is found that the laborers do not earn more than Rs. 2-8 a month on the average, while rice is from 9 pie to 1 anna a seer; that they are only paid for six days in the week, (their Sunday pay being illegally deducted); that when suffering from fever they are still obliged to work in order to get any allowance at all: in the words of the committee the coolies "get into a weak state, and being in consequence incapacitated from carning full wages, and being muleted of the Sundays' wages, are unable to provide the means; that is, to live sufficiently well to recover strength, and consequently die." The manager explains that the funds supplied to him are insufficient. There is, however, no European manager or assistant living on the spot, and the conclusion to which the committee come, is that the present garden and the lines of Balceparah are unfit for human habitation; but they propose certain arrangements which will, they think, make it possible for coolies to work at the garden, though not to reside there.

3. The Lieutenant-Governor cannot too strongly express his reprobation of and pain at the state of things which has been found to exist at this garden, and he very fully approves of the view you have taken of the case, and of your

orders to close the existing garden to all imported laborers.

4. As the committee have taken a more lenient view in regard to the Adhabari garden, the Lieutenant-Governor cannot of course interfere; but he desires that the inspector will be particularly careful to inspect the garden frequently, and to pay special attention to the illegal practice of not paying the laborers their full wages, including Sundays, and will insist upon proper hospital accommodation being provided.

5. The Lieutenant-Governor concurs with you in the hope that the Agra Bank Corporation, who are the owners of these gardens, will see the necessity of providing a resident European manager, and of seeing that their imported coolies are treated with justice and with reasonable care and attention in the future. He deeply regrets that so discreditable a state of things should be brought to light in gardens owned by so large and important an institution.

The mean barometer as likewise the dry and wet bulb thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

INSTRUCTIONS TO OFFICERS IN BRITISH POS-SESSIONS ABROAD.

REGULATIONS FOR TREVENTING COLLISIONS.

The following is the substance of an opinion recently given by the Attorney-General, the Solicitor-General, and the Ship's Side Lights. S. 30-62 Queen's Advocate, riz. :-

- (1.) That side lights and lanthorns, otherwise unexceptionable, fixed in such a position that they may be obscured by the lower corners of the ship's square foresail cannot be considered to be fixed as required by Article 3 of the Regulations.
- (2).-In the event of such side lights and lanthorns being so fixed that the lower corners of the square fores il can obscure either or both such lights, the Surveyors or Impectors may require the master or owner of the ship either to move the lanthorns further forward, and to fix them where the lights cannot be obscured, or to cut off so much of the lower corners of her square foresail as causes or is likely to such obscuration.
- (3) .- In the event of such master or owner neglecting or refusing to alter the position of the lanthorns or cut away such portion of her lower courses as the Surveyor or Inspector may direct, such Surveyor or Inspector may report the fact to the Collector of Customs for the purpose of stopping the ship, and such Collector may refuse to grant the vessel a clearance under Section 30 of the Merchant Shipping Act Amendment Act, 1862, until he receives a report from the Surveyor or Inspector to the effect that his requirements have been complied with.
- (1).-If after a vessel has been passed by such Surveyor or Inspector as carrying properly constructed and fixed lanthorns and lights, the master fixes them in such a position that they may be or are obscured by the vessel's square foresail, and are not under such circumstances visible for a distance of two miles from right ahead to two points about the beam, on the respective sides, as required by Article 3, read in connection with Article 20 of the Regulations, such master will be guilty of a misdemeanor under Section 27 of Merchant Shipping Act Amendment Act, 1862.

• Total	24,000	18,900	42,900

The following are the Conditions of Sale:-

- 1. The Opium will be sold for exportation by sea only, and no Certificate will be granted except to cover such export.
- 2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of these Conditions of Sale.
- 3. The sale shall commence at the hour of 11 a.m. of the day fixed by previous notification, and shall not be continued after the hour of 5 r.m.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 a.m., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.
 - 4. Each lot shall contain five chests.

5. A Promissory Note for a sum calculated

DEPOSIT.

When the emount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,000 per chest, Rs. 300

on bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400

per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the purchaser in the sule-room, and before the lot is registered in the sale book, and all

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at I o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

S. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be

returned when payment in full has been made by

the said purchaser or his order.

11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

- With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twentyfive lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.
- 14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:-No. 1, Certificate of the Opium advertized for sale.

- No. 2, Report of the examination of such Opium.

 16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug pro-cured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- 17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of

· , , ,

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole fantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Chests, 21,000 ... 21,000 ... 18,900 Berenes ... 42,900 Total

Behar and Benares as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Article FI.—" With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of "that article there shall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons duly appointed by "them, the number of chests so applied for, pro-"vided that such supply shall not exceed three "hundred chests in each year, and the price for "the same shall be determined by the average "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Mest Chris-"tian Majesty within the usual period of delivery, "the quantity so applied for shall nevertheless "be considered as so much in reduction of the "three hundred chests hereinbefore mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazette."

CALCUTTA,

The 4th December 1871.

W. D. BRUCE, Vice-Chairman.

(1010-1)

No. 49A.

From the Auditors of the Accounts of the Commissioners for making improvements in the Port of Calcutta, to the Commissioners for making improvements in the Port of Calcutta.

GENTLEMEN,

We have the honor to report that we have examined your accounts for the half year ended 30th September 1871, and have found them to be correct.

2. Your receipts and charges in the half year are exhibited in the accompanying statements, and may be summarised as follows:-In the division comprising the wharves, jetties and Strand bank, your income was Rs. 3,21,079, and your ordinary or revenue expenditure Rs. 1,28,341, the corresponding figures in the previous six months having been Rs. 2,73,556 and Rs. 99,200, respectively. In the River division your income was Rs. 1,90,492, and expenditure Rs. 1,22,674; but these sums cannot be contrasted with the results of the previous six months, as the former accounts of this division of the Trust were not made up half-yearly. Your extraordinary expenditure on new works amounted to Rs. 2,20,586, of which Rs. 1,11,739 were paid out of surplus revenue, and the balance from the loan advanced by Government. These figures compare favorably with the sanctioned budget, but a large proportion of the estimated expenditure on new works has not yet become due, and will probably appear in the accounts of the ensuing half year.

3. Your liabilities are fully covered by your assets, and your net carnings from the commencement of the Trust to 30th September last, including the amount realized by Government before the transfer of the Trustees, viz. 2, 18,841 amount to Rs. 6,18,798, your capital debt being Rs. 27,65,000. Of your net earnings you have invested Rs. 1,06,375 in Government Securities, as the nucleus of a reserve fund, and Rs. 1,11,739 in extensions of your wharves and jetties. Rs. 4,00,684 being retained as a cash balance. This balance is greatly in excess of the ordinary requirements of the Trust, but we do not now recommend its investment, as it may be needed shortly for payments connected with the

extension of the jettics.

4. We have some observations to offer respecting your system of accounts, and the form in which you hold the Government Securities belonging to your reserve fund, but we propose to address you separately on these subjects.

We have the honor to be,

Gentlemen,

Your obedient servants,

Hugh Sandeman,
Offy. Comptroller-General.
E. W. Kellner.

Asst. Comp/roller-General.

Comptroller-General's Office, Central Account Branch; The 8th November 1871.

The above report is published in accordance with the provisions of section 58, Act V. (B.C.) cf 1870. (1007—1)

Notice

Is hereby given that the undermentioned lots of waste lands, estimated to consist of about 520 acres, more or less, situated in Pergunnah Surrispore, Mouzah Budderpore, in Zillah Cachar, and bounded as shewn at the foot of this notice, having been applied for under the "Rules for the sale of unassessed waste lands in the Lower Province of Bengal," will be put up to sale by auction to the highest bidder above the upest price of two Rupees and eight annas per acre, on the 2nd day of January 1872, at the Office of the Deputy Commissioner of Cachar, should no objection be preferred such as to render it necessary to defer the sale under the provisions of Act XXIII of 1863. NOTE.

Barometric Pressure. - The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables."

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Direction.—The mean wind direction and its comparative prevalence are calculated from the whole number of wind observations recorded during the half month. The latter is given as a percentage of the whole number of observations. The mean direction is calculated in the usual way by Lambert's formula.

The above being all comparable, afford the data for constructing a meteorological chart for the half month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

CALCUTTA, The 30th November 1871.

HENRY F. BLANFORD, Meteorological Reporter to the Govt. of Bengal.

Results of the Meteorological Observations taken at the Surveyor-General's Office, Calcutta, from 22nd to 30th November 1871.

The mean barometer as likewise the dry and wet bill thermometer means are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants.—The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity.—The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground.—The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

LEGISLATIVE DEPARTMENT.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 9th December 1871, and was referred to a Select Committee with instructions to report thereon in one week:—

A Bill to extend, the borrowing powers of the Justices of the Peace for the Town of Calcutta.

Whereas it is expedient to increase the amount which the Justices are nuthorised to borrow, by way of debentures or otherwise, under the provisions of Section 9 of Act IX of 1867, passed by the Lieutenant-Governor of Bengal in Council; It is hereby enacted as follows:—

In the said section, for the words "sum of fifty-five lakhs of rupees," wherever such words occur, shall be substituted the words "sum of eighty-five lakhs of rupees"; and the said section shall be hereafter read and construed as if the words hereby directed to be substituted were inserted in place of the words for which they are hereby directed to be substituted.

2. This Act shall be read with and as part of Construction of Act. the said Act IX of 1867.

STATEMENT OF OBJECTS AND REASONS.

THE Justices of the Peace for Calcutta have resolved to extend the drainage system which has already done so much good to a part of their city. To do this economically and effectually they must borrow money. The borrowing powers of the Justices are at present limited by enactment, and the present Bill provides for their borrowing, with the Lieutenant-Governor's sanction, a further sum of thirty lakks of Rupees for permanent improvements.

HERBERT COWELL,

Asst. Secy. to the Govl. of Bengal,

Legislative Department.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 9th December 1871, and was referred to a Select Committee with instructions to report thereon in three weeks:—

A Bill to amend the Law for the registration of Jute Warehouses in Calcutta, and to provide for the establishment of an efficient Pire-brigade in Calcutta and the Suburbs.

WHEREAS it is expedient to amend so much of Act VI of 1866, passed by the Lieutenant-Governor of Bengal in Council, as provides for the registering

and licensing of jute warehouses within the town of Calcutta; and whereas it is expedient to provide for the better constitution of the Calcutta Fire-brigade; It is hereby enacted as follows :-

PART I.

PRELIMINARY.

This Act may be called "The Calcutta Jute Warehouse and Fire-brigade Short title. Act, 1871."

PART IV.

Expenses and Funds.

18. All fees and penalties levied under Part II of this Act shall form a fund.

Fees and penalties to fund for the payment of officers appointed by the Justices for the inspection of jute and cotton warehouses or yards. Any surplus from this fund, which may at the end of each year remain after the payment of such officers, shall be carried in the books of the Justices to the credit of an account to be called the fire-brigade account.

19. Every Insurance Company that insures from fire any property within Contribution by Insurance Companies. the limits of the operation of this Act shall pay annually to the Justices, by way of contribution towards the expenses of the Calcutta Fire-brigade, a sum at the rate of half a rupee for every thousand rupees on the gross amount insured by it in respect of such property. All sums paid to the Justices under this section shall be credited to the Firebrigade Fund. The said payments shall be made quarterly in advance, on such dates as the Justices may appoint: and arrears on account of these payments shall be realizable as if they were arrears of rates due to the Justices, and all the provisions of Act VI of 1868 (passed by the Lieutenant-Governor of Bengal in Council) and of any Act amending the same shall be applicable so far as the circumstances will permit to the recovery of moneys due under this section.

For the purpose of ascertaining the amount to be contributed by Insurance Companies to make returns every such Insurance Company as aforesaid, every Insurance Company insuring property from fire within the limits of this Act shall, on the 30th day of June 1872, and on every succeeding 80th day of June, or on such other days as the Justices may appoint, make a return to the said Justices, in such form as they may require, of the gross amount insured by it in respect of property within the limits of this Act. At the foot of every such return shall be appended a certificate by the Secretary or chief officer of such Insurance Company in Calcutta, stating that to the best of his knowledge and belief the return contains a true and faithful account of the sums insured by the Company to which he belongs in respect of property within the limits of this Act.

The return made in the June of one year shall be the basis of the contributions for the year beginning on the first day of January next succeeding.

21. The cost of all establishments and plant hired or purchased, and of all other charges under Proportions of contribution towards payment of expenses of Fire-brigade. At the end of each quarter of a year, the Justices shall certify to the Suburban Commissioners the total cost of the Fire-brigade for such year, the money which may have accrued under sections 18 and 19 of this Act, and the precise sum which must be paid by each body charged with the cost of the Calcutta Fire-brigade under this Act. On the receipt of such certificate, the Suburban Commissioners shall pay the sum certified against them by the Justices: provided that in no case shall the three-tenths payable by the Suburban Commissioners in any year after the first year of the establishment of the Fire-brigade exceed the sum of Rs. 10,000.

PART V.

MISCELLAN ROUS.

Lieutenant-Governor may declare the Warshousing of any other substance to be subject to Act.

Lieutenant-Governor may declare the Warshousing of any other substance to be subject to Act.

Lieutenant-Governor may declare the Warshousing of any other substance to be subject to Act.

Lieutenant-Governor may declare the Justices, to declare that any other fibre or substance besides jute or cotton shall be warshoused and kept subject to the provisions of Part II of this Act. When such declaration shall have been made in the Calcutta Gazette, this Act shall be read as if the name or names of the said fibre or other substance had been printed after the words "jute" or "cotton" in the several sections of Part II., wherein the said words "jute" or "cotton" may occur.

STATEMENT OF OBJECTS AND REASONS.

THE Calcutta Municipal Act VI of 1866 (B.C.) provided for registering and licensing jute warehouses in Calcutta. But it has been found that those provisions do not enable the Corporation to control existing jute warehouses or to insist on

jute dealers exercising proper care and vigilance against fire. Moreover, no part of Act VI of 1866 applies to the suburbs of Calcutta. Fires have occurred in Calcutta owing to the carelessness with which jute is stored; the Corporation of Justices, the Chamber of Commerce, and the Municipal Commissioners of the suburbs have all urged that further power should be given to the Justices and the Suburban Commissioners to enforce reasonable care in the storage of jute and other combustible substances of that nature. The Bill now presented is intended to meet the wishes of these bodies, and it provides also for the constitution of a Fire-brigade for Calcutta and its suburbs.

No. 399.

In supersession of the rules referred to in Notification No. 243 of the 9th August 1870 by this Department, the following draft of rules having reference to the undermentioned four navigable channels in the Backergunge District, viz.:—

- 1. The River Damoodah, connecting Rivers Balessur and Kotcha and Kaleegunga.
- 2. The Cowcolly River, from its junction with the Kotcha and Kalleegunga Rivers, up to the place where the Jhallokati Bharani Khall rises.
- 3. The Jhallokati Bharani Khall, from its junction with the River Cowcolly to its opening into the River Jhallokati.
- 4. Bhandaria Done, from its junction with the Jangalia River up to the place where the Khatakhally begins on the south, known in its several channels as Augaria, Joobkhali, Galoos, Churkhally, Kanoodass Khati, and Bhandaria,—

is published for information under the provisions of Sections XI. and XII. of the Canals' Act (V. of 1864, B. L. C).

- 1. Every vessel, not being a steamer or flat for which a fixed rate of toll has been provided, on entering any of the above navigable channels, shall be liable to measurement by the officer in charge of the toll station, for the purpose of ascertaining the amount of toll to be paid.
- 2. The tonnage of every vessel, not being a steamer or flat as aforesaid, whether laden or empty, shall, for the purposes of the Canals' Act and of these rules, be determined by the following measurement:—
 - (a.)—The product of half the length of the vessel, from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll should be levied.
 - (b.)—The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet, and quarters of feet, rejecting portions of less than a quarter of a foot.
 - (c.)—In calculating the amount of toll to be levied, any fraction of 100 maunds, less than 50 maunds, is to be omitted.
- 3. No timber, bamboos or grass will be admitted, except securely and compactly packed in the form of a raft. There shall be no restriction as to the size of rafts, but the supervisor of tolls may order a raft to be lessened and divided into two or more rafts, when its size is such as to impede the navigation of the channels.
- 4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the manudage of the vessel, and the amount of toll paid. Toll paid at the first station clears the passage through any tolls met afterwards on the same voyage.

- 5. No vessels whatever, except such as are employed on works connected with the maintenance or improvement of the lines of channels in question, shall be exempted from paying toll.
- 6. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under Section XI. of the Canals' Act, to a fine not exceeding Rs. 50 for any one offence.

The following are the Conditions of Sale :-

- 1. The Opium will be sold for exportation by sea only, and no Certificate will be granted except to cover such export.
- 2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of these Conditions of Sale.
- 3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a publie holiday) at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a future sale.
 - 4. Each lot shall contain five chests.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,800 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400

per chest. And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

A Promissory Note for a sum calculated according to the scale noted in the margin shall be taken as a deposit on each lot from the purchaser in the sale-room, and before the lot is registered in the sale book, and all

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, it remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final. and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order. · 10. No deposit of public sconnities under the

fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by

the said purchaser or his order.

11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual, shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up 'again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bona fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

18. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete

the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the Opium advertized for sale.

No. 2, Report of the examination of such Opium.

16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug produced and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge anternals or recognize any claim to compensation in the from any alleged deficiency of

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for

hipment.

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them. are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Behar 24,000 Benures ... 18,900

Total ... 42,900

Behar and Benares as above estimated, will be brought to sale in the usual manner, and if they shall make application for a quantity of

plication for a quantity of Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to—

Article VI .- " With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of "that article there shall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons duly appointed by them, the number of chests so applied for, pro"vided that such supply shall not exceed three "hundred chests in each year, and the price for the same shall be determined by the average "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French-"Government by the Agents of His Most Christ ... "tian Majesty within the usual period of delivery, "the quantity so applied for shall nevertheless be considered as so much in reduction of the "three hundred chests hereinbefore mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta" within thirty days after notice of the intended "sales shall have been published in the Gavern-"ment Gazette."

The 6th December 1871.

The Bengal Coal Company, "Limtied."

Proceedings of the Half-yearly General Meeting of the Shareholders of the Bengal Coal Company, "Limited," held in terms of the Articles of Association, and in pursuance of Advertisement, at the Office of the Company, No. 27, Dalhousiv Square, Calcutta, on Saturday, the 9th day of December 1871.

HENRY BERNERS, Esq., Chairman.

Francis D'Cruz, Esq. C. H. Denham, Esq. STUART S. HOGG, Esq. J. W. Lowe, Esq. C. Marten, Esq.

T. M. Robinson, Esq. T. M. Vigors, Esq.

J. WALKER, Esq. J. T. Woodroffe, Esq.

The Advertisement, under which the Meeting was held, having been read, as also the Directors' Report, which had been previously circulated to the Shareholders, the following Resolutions were proposed and carried unanimously:—

1st.—"That the Report of the Directors for the half-year ending the 31st October last, now submitted, be received and adopted."

Proposed by Stuart S. Hogg, Esq., Seconded by J. W. Lowe, Esq.

2nd.—"That the accounts, as audited, be passed as satisfactory, and that the books be closed accordingly."

Proposed by T. M. Vigors, Esq., Seconded by Francis D'Cruz, Esq.

3rd.—"That a Dividend at the rate of 5 per cent. per annum, or Rs. 25 per share, be now declared for the half-year, payable on or after the 19th December 1871."

Proposed by C. H. Denham, Esq., Seconded by J. T. Woodroffe, Esq.

4th.—"That Messrs. H. Berners, C. H. Denham, C. Marten, and J. T. Woodroffe, be re-elected Directors of the Company for the ensuing year."

Proposed by J. W. Lowe, Esq., Seconded by Francis D'Cruz, Esq.

5th.—"That Messrs. G. L. Kemp and Francis D'Cruz be re-elected Auditors of the Company for the ensuing year."

Proposed by C. Marten, Esq., Seconded by J. T. Woodroffe, Esq.

6th.—"That the Lieutenant-Governor of Bengal be again memorialized upon the subject of 'The District Road Cess Act 1871,' and that in such Memorial His Honor's attention be called:—

(1st.) To the mode in which English coal is in England subject to taxation.

(2nd.) To the consideration of the concluding part of the 2nd paragraph of the letter of the Secretary to the Government of India, to the Secretary to the Bengal Coal Company, Limited, dated Simla, 28th August 1871, and to the fact that, having regard to the views therein expressed, and the existing state of the Indian coal trade, it is inexpedient to bring the District Road Cess Act 1871 into operation in the district of Raneegunge.

(3rd.) That if the Act ought, in His Honor's opinion, to be extended to the Raneegunge District, a tak ought to be imposed upon imported coal with a view of equalizing the competition at present operating most injuriously upon the Indian coal trade, and this Company recouped, or at

least allowed to set off against the amount at which they may be assessed the sums expended by it in the construction of public roads prior to the passing of the Act in question."

the passing of the Act in question."

Proposed by J. T. Woodroffe, Esq.,

Seconded by Stuart S. Hogg, Esq.

After a vote of thanks to the Chair, the Meeting separated.

LEGISLATIVE DEPARTMENT.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 9th December 1871, and was referred to a Select Committee with instructions to report thereon in one week :-

A Bill to extend the borrowing powers of the Justices of the Peace for the Town of Calcutta.

WHEREAS it is expedient to increase the amount which the Justices are authorised to borrow, by way Preamble. of debentures or otherwise, under the provisions of Section 9 of Act IX of 1867, passed by the Lieuxenant-Governor of Bengal in Council; It is hereby enacted as follows:-

. 1. In the said section, for the words "sum of fifty-five lakhs of rupees," Justices not to borrow more than 85 lakhs. wherever such words occur, shall be substituted the mords sum of eighty-five lakes of rupees;" and the said section shall be hereafter read and construed as if the words hereby directed to be sub-stituted were inserted in place of the words for which they are hereby directed to be substituted.

2. This Act shall be read with and as part of

the said Act IX of 1867. Construction of Act.

STATEMENT OF OBJECTS AND REASONS.

THE Justices of the Peace for Calcutta have resolved to extend the drainage system which has already done so much good to a part of their city. To do this economically and effectually they must borrow money. The borrowing powers of the Justices are at present limited by enactment, and the present Bill provides for their borrowing, with the Licutenant-Governor's sanction, a further sum of thirty lakhs of rupees for permanent improvements.

C. BERNARD.

The 6th December 1871.

HERBERT COWELL, Asst. Secy. to the Gort. of Bengal, Legislative Department.

THE following Bill was read in the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations on the 9th December 1871, and was referred to a Select Committee with instructions to report thereon in three weeks :-

A Bill to amend the Law for the regletration of Jute Warehouses in Calcutta, and to provide for the establishment of an efficient Fire-brigade in Cal-culta and the Suburbs,

Wheneas it is expedient to amend so much of Act VI of 1866, passed by the Lieutenant-Governor of Bengal in Council, as provides for the registering

and licensing of jute warehouses within the town of Calcutta; and whereas it is expedient to provide for the better constitution of the Calcutta Fire-brigade; It is hereby enacted as follows:—

PART I.

PRELIMINARY.

1. This Act may be called "The Calcutta Jute Warehouse and Fire-brigade Act, 1871."

It extends to the whole of the town of Calcutta, and to such portions of the suburbs thereof as are for the time being subject to the operation of Act II of 1866, passed by the Licutenant-Governor of Bengal in Council. And it shall commence and take effect on the day of 1872.

2. The words mentioned in this section shall,
for the purposes of this Act
have the meanings therein
assigned to them, except when from the context
a contrary intention appears.

"Justices."

"Justices."

"Justices"

means the
corporation of the "Justices
of the Peace for the town of Calcutta."

"Jute" and "Cotton" mean respectively "Jute" and "Cotton" which have "Jute" not been pressed or screwed

as if for shipment.

"Person" includes a firm and a Hindu undivided family.

"Insurance Company" means any Association or person who may carry on the business of fire insurance, whether such Association be incorporated or not, and the agent or agents of such Association or person.

"Magistrate" includes a Justice of the Peace for Calcutta, and any person exercising all or any of the Powers of a Magistrate.

38, 39, 40, and 41, of Act VI of 1866, passed by the Lieutenant-Governor of Bengal in Council, are hereby repealed, but such repeal shall not affect any registration which has been made, or any act or offence which shall have been done or committed, or any penalty or liability incurred under the said sections.

PART II.

4. No warehouse, depôt, yard, store or place,

All existing public fire-engines, with the establishments and buildings thereto belonging in the town and suburbs of Calcutta, except those belonging to the Military Department, or to the Port Commissioners incorporated under Act V of 1870, shall be transferred to the fire-brigade to be established under this Act. The Justices shall have power to appoint and remove any members or officers of the fire-brigade; and they shall furnish the fire-brigade with all such steam or other fire engines, horses, oxen, accourtements, tools, and implements, as may be necessary for the complete equipment of the force, or conducive to the efficient performance of their duties.

Power to frame Byelaws. 16. The Justices may frame bye-laws in respect to—

given notice of fires.

(2.) Awarding gratuities by way of a gross sum or annual payment to be from time to time awarded to any member of the fire-brigade.

(3.) For the training, discipline, and good conduct of the members of the force.

(4.) For the speedy attendance of such members with engines and all necessary implements on the occasion of any alarm of fire.

(5.) Imposing and summarily realizing a fine not exceeding one week's wages from any member of the brigade who may infringe these bye-laws.

(6.) And generally for the maintenance of the fire-brigade in a due state of efficiency.

17. On the occasion of a fire, the chief or other officer in charge of the Powers of Fire-brigade in cases of fire. fire-brigade on the spot may remove, or may order any member of the brigade to remove any persons whose presence may interfere with the due operation of the brigade; and generally, he may take any measures which may appear necessary for the preservation of life and property; and he shall have power by himself or by his men to break into or through or pull down any premises for the purpose of putting an end to the fire, doing as little damage as possible; and he may also cause the mains and pipes of any district to be shut off so as to give greater pressure of water in the place where the fire has occurred.

Police officers of all grades shall be authorized to aid the fire-brigade in the execution of its duties.

They may close any street in or near which a fire is burning, and they may, of their own motion or on the request of the chief or other officer of the fire-brigade, remove any persons who interfere by their presence with the operations of the fire-brigade.

Any damage done by the fire-brigade in the due execution of their duties shall be deemed to be damage by fire within the meaning of any policy of insurance of property in Calcutta or the suburbs against fire.

PART IV.

Expenses and Funds.

Fees and penalties levied under Part II of this Act shall form a fund.

Fees and penalties to fund for the payment of officers appointed by the Justices for the inspection of jute and cotton warehouses or yards. Any surplus from this fund, which may at the end of each year remain after the payment of such officers, shall be carried in the books of the Justices to the credit of an account to be called the fire-brigade account.

19. Every Insurance Company that insures

Contribution by Insurance Company that insures from fire any property within the limits of the operation of this Act shall pay annually to the Justices, by way of contribution towards the expenses of the Calcuta Fire-brigade, a sum at the rate of half a rupee for every thousand rupees on the gross amount insured by it in respect of such property. All sums paid to the Justices under this section shall be credited to the Fire-brigade Fund. The said payments shall be made quarterly in advance, on such dates as the Justices may appoint: and arrears on account of these payments shall be realizable as if they were arrears of rates due to the Justices, and all the provisions of Act VI of 1863 (passed by the Lieutenant-Governor of Bengal in Council), and of any Act amending the same shall be applicable so far as the circumstances will permit to the recovery of moneys due under this section.

20. For the purpose of ascertaining the amount to be contributed by Insurance Companies to every such Insurance Commake returns. pany as aforesaid, every Insurance Company insuring property from fire within the limits of this Act shall, on the 30th day of June 1872, and on every succeeding 30th day of June, or on such other days as the Justices may appoint, make a return to the said Justices, in such form as they may require, of the gross amount insured by it in respect of property within the limits of this Act. At the foot of every such return shall be appended a certificate by the Secretary or chief officer of such Insurance Company in Calcutta, stating that to the best of his knowledge and belief the return contains a true and faithful account of the sums insured by the Company to which he belongs in respect of property within the limits of this Act.

The return made in the June of one year shall be the basis of the contributions for the year beginning on the first day of January next succeeding.

The cost of all establishments and plant Proportions of contribu-tion towards payment of expenses of Fire-brigado. bired or purchased, of all other charges under Part III. of this Act, shall be paid from the Fire-brigade Fund. The full amount of such charges over and above the moneys which may accrue to the Fire-brigade Fund under sections 18 and 19 of this Act, shall be contributed by the Justices, and by the Commissioners of the suburbs, in the following proportions, namely,by the Justices, seven-tenths; by the Suburban Commissioners, three-tenths. At the end of each quarter of a year, the Justices shall certify to the Suburban Commissioners the total cost of the Fire-brigade for such year, the money which may have accrued under sections 18 and 19 of this Act, and the precise sum which must be paid by each body charged with the cost of the Calcutta Fire-brigade under this Act. On the receipt of such certificate, the Suburban Commissioners shall pay the sum certified against them by the Justices: provided that in no case shall the three-tenths payable by the Suburban Commissioners in any year after the first year of the establishment of the Fire-brigade exceed the sum of Rs. 10,000.

PART V.

MISCELLANEOUS.

Lieutenant-Governor may declare the warehousing of any other substance to be sides jute or cotton shall be warehoused and kept subject to the provisions of Part II of this Act. When such declaration shall have been made in the Calcutta Gazette, this Act shall be read as if the name or names of the said fibre or other substance had been printed after the words "jute" or "cotton" in the several sections of Part II., wherein the said words "jute" or "cotton" may occur.

STATEMENT OF OBJECTS AND REASONS.

The Calcutta Municipal Act VI of 1866 (B.C.) provided for registering and licensing jute warehouses in Calcutta. But it has been found that those provisions do not enable the Corporation to control existing jute warehouses or to insist on

jute dealers exercising proper care and vigilance against fire. Moreover, no part of Act VI of 1866 applies to the suburbs of Calcutta. Fires have occurred in Calcutta owing to the carelessness with which jute is stored; the Corporation of Justices, the Chamber of Commerce, and the Municipal Commissioners of the suburbs have all urged that further power should be given to the Justices and the Suburban Commissioners to enforce reasonable care in the storage of jute and other combustible substances of that nature. The Bill now presented is intended to meet the wishes of these bodies, and it provides also for the constitution of a Fire-brigade for Calcutta and its suburbs.

2. The Cowcolly River, from its junction with the Kotcha and Kalleegunga Rivers, up to the place where the Jhallokati Bharani Khall rises.

3. The Jhallokati Bharani Khall, from its junction with the River Cowcolly to its opening into the River Jhallokati.

4. Bhandaria Done, from its junction with the Jangalia River up to the place where the Khatakhally begins on the south, known in its several channels as Augaria, Joobkhali, Galooa, Churkhally, Kanoodass Khati, and Bhandaria,—

is published for information under the provisions of Sections XI. and XII. of the Canals' Act (V. of

1864, B. L. C).

1. Every vessel, not being a steamer or flat for which a fixed rate of toll has been provided, on entering any of the above navigable channels, shall be liable to measurement by the officer in charge of the toll station, for the purpose of ascertaining the amount of toll to be paid.

2. The tonnage of every vessel, not being a steamer or flat as aforesaid, whether laden or empty, shall, for the purposes of the Canals' Act and of these rules, be determined by the following

measurement:---

(a.)—The product of half the length of the vessel, from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll should be levied.

(b.)—The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet, and quarters of feet, rejecting portions of less than a quarter of a foot.

(c.)—In calculating the amount of toll to be levied, any fraction of 100 maunds, less

than 50 maunds, is to be omitted.

3. No timber, bamboos or grass will be admitted, except securely and compactly packed in the form of a rafts. There shall be no restriction as to the size of rafts, but the supervisor of tolls

*,

may order a raft to be lessened and divided into two or more rafts, when its size is such as to impede the navigation of the channels.

4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel, and the amount of toll paid. Toll paid at the first station clears the passage through any tolls met afterwards on the same voyage.

5. No vessels whatever, except such as are employed on works connected with the maintenance or improvement of the lines of channels in question, shall be exempted from paying toll.

6 Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under Section XI. of the Canals' Act, to a fine not exceeding Rs. 50 for any one offence.

The following are the Conditions of Sale :-

- 1. The Opium will be sold for exportation by sea only, and no Certificate will be granted except to cover such export.
- 2. The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 12th of these Conditions of Sale.
- 3. The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertized for sale shall remain unsold, the sale may, at the discretion of the Member in charge, be resumed on the next day following (not being Sunday or a public holiday) at the hour of 11 a.m., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertized shall not be sold on the day appointed, the Member in charge may dispose of the lots which remain on hand at a juture sale.
 - 4. Each lot shall contain five chests.

A Promissory Note for a sum calculated

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest. On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400

per chast.

And so ou, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

according to the scale noted in the margin shall be taken as a deposit : on each lot from the purchaser in the sale-room, and betore the lot is registered in the sale book, and all

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the afternoon of the fifth day after the sale: or on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatsoever attending such rc-sale shall be borne and paid by the detaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6. The Promissory Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, Bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before 4 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in case any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such pur-chaser, and the securities so deposited will be returned when payment in full has been made by

the said purchaser or his order.

11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.

12. With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bond fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.

18. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.

14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort Wil-

liam in Bengal.

15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the Opium advertized for sale.

No. 2, Report of the examination of such Opium.

16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Resenue. But, in accordance with established usage, under no circumstances will the Member in charge catertain or recognize any claim to compensation fee loss from any alleged deficiency of

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for

shipment.

18. It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the wholequantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Article VI .- " With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of " that article there shall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons duly appointed by "them, the number of chests so applied for, pro"vided that such supply shall not exceed three "hundred chests in each year, and the price for "the same shall be determined by the average . . "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Most Chris-"tian Majesty within the usual period of delivery, "the quantity so applied for shall nevertheless "be considered as so much in reduction of the "three hundred chests hereinbefore mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazette."

Reports on the administration of the Municipalities in the Burdwan Division for the year 1870-71.

From F. H. Pellew, Esq., Chairman of the Municipal Commissioners of Hooghly and Chinsurah, to the Commissioner of the Burdwan Division,—(No. 103, dated Hooghly, the 30th June 1871.)

I HAVE the honor, on behalf of the Municipal Commissioners of Hooghly and Chinsurah,

to report on the administration of the municipality for the year 1870-71. 2. The corporation consisted of 23 members inclusive of the ex-officio ones, and of these

14 were official and 12 non-official members. Of the official members three were transferred elsewhere and one appointed, and of the non-official members only one was appointed during the year.

3. The number of the resident non-official members representing the four principal divisions marginally noted of the municipality are shewn against those Chandernagore ... Chandernagore stands without representation since the demise of Baboo Promotho Nath Ghose. Baboo Ashootosh Ghose, Hooghly Bali brother of the deceased commissioner, was sometime ago recommended for the vacancy, but no orders were received from Government respecting this appointment.

4. Altogether 27 meetings were held during the past year. The number of general meetings was 9, and of sub-committees and special meetings 18. The average attendance of the commissioners at the general meetings was 10.

5. Many important matters of business were laid before and considered by the Commissioners at the general meetings, such as the schemes for lighting the towns; for extension of the Act for the prevention of cruelty to animals; for administering oath to the Commissioners under section 2 of Regulation IX of 1793; for thoroughly re-excavating the tank to the south of the civil courts; for the execution of drainage and other works of local improvements, &c. Besides, many other projects commenced upon in the preceding year were carried out during the year under review, namely the closing up of the Mahomedan burial ground in Karballa and opening another in its stead in a convenient and unobjectionable place, the acquisition of land for the Sandershurtollah new road, Mookerjya lane, and Bali latrine. Attention was also paid to securing good drinking water by inducing the proprietors of some of the largest and best tanks within municipal limits to set them apart for drinking purposes only. With their consent notices are to be stuck in conspicuous places near the tanks, prohibiting persons from using these tanks for other purposes. The tanks were first cleansed of jungle and penna under the powers vested in the Commissioners by section 73 of Act III (B.C.) of 1864.

6. At the meeting held for passing the budget estimate for the past year on the 26th January 1870, the rate upon the annual value of houses and lands was fixed at 6½ per cent., being the same as that fixed for the year preceding. The valuation and assessment of that year were also adopted for the year under review.

7. The house-rate collections amounted to Rs. 22,243-4-3 during the past year, and the house and wheel taxes to Rs. 1,330. The following statement will show in detail the

accounts of these two sources of income :-

Statement showing in detail the demand, collection, and balance of tax on houses and lands, and on horses and carriages from 1868-69 to 1870-71.

8. The amount of taxes for the two preceding years, which remained unrealized in April 1870, have been shewn as demands for those years in the above statement. Out of the total balance of Rs. 7,196-12-3 the sum of Rs. 4,458-10-9 has been collected up to date. Great efforts were made to secure punctuality in realizing the municipal revenue during the year, and the result is that the balance uncollected of the revenue of 1870-71 is less than that which remained at the close of 1869-70 by Rs. 1,317-8-6.

9. The balance of house and of horse and carriage taxes for the year 1868-69, amounting altogether to Rs. 632-1-6, was found irrecoverable, owing to deaths, evacuations, and other similar causes; and at a general meeting held a little after the close of the past year, was

written off from the column of demands.

10. The registration fees on carts amounted to Rs. 376. The income under this head is steadily increasing. The following comparative table will show the increase which accrued during the past and preceding year:—

1868-69. 1869-70. 1870-71. Registration fees on carts 276 0 0 349 0 0 376 0 0

The fines and forfeitures under this head have been hitherto remitted to the magistracy. It is now under consideration whether these do not legitimately belong to the municipality.

11. The income derived from the four ferries on the river Hooghly amounted to Rs.5,090 during the past year. This sum does not represent the actual rent of the ferries for the past year, which was Rs. 5,440. The rent of March last having been paid in April and credited to the current year's account, caused this difference.

12. In addition to the two cattle pounds which had existed in the municipality for a long time, an experimental one was erected in the Chinsurah town guard police station in May last, the proceeds of which amounted to Rs. 96-14-6 during the eleven months of the past year. The proceeds of the two other pounds, viz. of the Tolafuttuck and Hooghly pounds, amounted to Rs. 326-2-9 and Rs. 706-10-6 respectively. The total proceeds of the three cattle pounds amounted to Rs. 1,129-11-9, being

Rs. 9 less than those of the year preceding. This result is due to the greater care dis-

played by the owners of cattle.

13. The license fees levied under section 77 of Act III. (B. C.) of 1864 amounted to Rs. 1,073-8-3, being Rs. 713-8-9 for the past year, and Rs. 359-15-6 for the year preceding. Appendix A will show the various trades on which the above midely was levied for these two years.

Some of the persons engaged in offensive trades have removed their in ises to places beyond the municipal boundary to escape the tax. This result is on the trades nave been removed from more populous to less populous places.

14. The fines amounted to Rs. 438-13, being nearly Rs. 25 set than the sum realized under this head in the preceding year. This result is not the fattributed to any laxity on the part of the municipal servants, but rather to improved habits on the part of the population, who are gradually becoming accustomed to strict conservancy rules. The number of cases instituted, and in which convictions were recorded during the year, is shewn in Appendix B.

15. The miscellaneous items, viz., the stable refuse tax under bye-law 40, rent of a godown at the Hooghly Chuck Bazar, sale proceeds of trees, warrant fees, &c., amounted

altogether to Rs. 628-13-3.

16. Thus the total receipts during the past year amounted to Rs. 32,310-2-6. This sum being supplemented by Rs. 12,031-13-9 which was in hand at the close of 1869-79, and also by the grant of Rs. 245-0-6 by Government, being the surplus registration fees under Act V. (B. C.) of 1866, for the years 1868-69 and 1869-70, amounted Rs. 44,587-0-9.

17. The following tabular statement will shew in abstract the actual and estimated income of the past year :-

19. There was a balance of Rs. 11,952-5-5 in hand at the close of the past year which arose from the savings and unexpended budget assignments of that year.

20. It should also be mentioned here that Rs. 319-5-9, being the amount of surplus registration tees and fines for hackney carriages and palankeens for the past year levied under Act V. (B.C.) of 1866, which was deposited in the municipal fund by the Joint-Magistrate of Hooghly, has not been included in the balance mentioned above, as section 51 of the Act provides that the money should not be in any way disposed of without the orders of His Honor the Lieutenant-Governor of Bengal.

21. The number of metalled roads repaired during the year has been shown in detail in the accompanying statement of the actual receipts and disbursements of this municipality for the past year. The total cost under this head has been Rs. 3.251-15-9 during the past year. The repairs of the unmetalled roads were mostly done by the conservancy dhangur coolies. The sum shewn i sibe annual statement under this head was expended during the two last months of the y_{idu} by employing tieca coolies to work with the dhangurs for the speedy completion of some of ns, unmetalled road repairs. Besides, six unmetalled roads were

opened during the year in the places noted in the margin, to the great convenience of the people of the localities who gave the land gratis. The total sum spent on these roads, besides the price of labor of dhangur coolies under permanent employ, was Rs. Much trouble was experienced 141-11 only. in opening the line of the Sandersbur tollah new road on account of the opposition of some

of the inhabitants of the locality. The opposition was chiefly on account of a temple which it was desirable to remove to a short distance. There was much difference of opinion amongst the Hindoos of the place as to whether this removal was opposed to their religious principles or not, but I considered it better to leave the temple standing. The road is in consequence only 10 feet wide at the point where the temple stands and 20 feet everywhere else. The work of acquisition of land under Act X of 1870 for this road and Mookerjya Gully was entrusted to Baboo Runga Lal Banerjya, deputy collector of this station, who has completed the adjustment of all cases relative to the Saudershut tollah road, which is fast progressing to completion. As regards the Mookerjya Gully, proceedings had to be stopped for the decision of higher authority as to the respective rights of Government and the ryots of Chinsurah khas mehal to the compensation. The question has since been settled, and many of the cases adjudicated promptly. The preliminary arrangements for making the road have been taken, and as soon as the land question is decided the road will be made. The completion of these two roads opens a communication between the Grand Trunk Road nearly opposite the Dhunyakhalee road and the river Hooghly through the middle of Chinsurah. Previously the traffic from the Dhunyakhalee road could orly reach Chinsurah and the river by very circuitous routes.

The bricks for road-making are now separately contracted for. Formerly advances for brick-making were made to the road contractors, but as this plan did not work satisfactorily, I have forbidden advances, and payment is made on inspection of the progress made.

- Very great attention was paid towards the drainage of the towns during the past and preceding years. It is proposed gradually to put all the old pucks Dutch drains in Chineurah in a thorough state of repair, and also to make pucka drains in Hooghly. It will, however, take some years of perseverance before this result is obtained. During the past year several pucka drains have been repaired and earthen ditches have been converted into pucka drains, and a great number of cutcha drains have been made and deepened. The total sum spent for the drainage purposes amounted to Rs. 4,531-0-6.
 - Four length of railings at the sides of roads were erected during the past year in the places noted in the margin, at a total Two railings in Hooghly. Two ditto in Shawgunge. cost of Rs. 610-5. The artificial stone pillars which were used for railings in cer-

tain localities two years ago were found to be useless, as they give way by the least shock offered accidentalty. Wooden pillars and iron bars were therefore substituted. The pillars are of sall sunk in a brick foundation and promise to stand well.

- On the removal of the military depôt from Chinsurah, the supervision of the barrack latrine was entrusted to the Commissioners, who have kept up the regular establishment at their cost until final settlement is made on the subject. The sum spent has not been provided for in the budget, and is expected to be reimbursed by Government from the Military Department. With reference to the construction of the cutcherry latrine, the Commissioners selected a suitable place at a little distance from the Hooghly Chuck Ghât. The latrine will be a covered pucka building, surrounded by a wall, and besides being useful to the frequenters of the courts, will be a great benefit to the locality, as the chur below this part of the town is, in spite of the police and in defiance of decency, much used as a privy. Steps were taken for the acquisition of the land by the collector, but owing to disputes amongst the claimants to the land, the matter was referred to the civil court under section 18 of Act X of 1870. I may mention, as showing the sub-division of rights in land in Bengal, that more than eighteen claimants of different interests appeared in respect to this small portion of 9% cottahs of land. Pending the result of the proceedings I have thought proper to proceed with the work, though section 16 of Act X gives the power to do so. It is possible that the sum to be paid may be so high that the Commissioners may prefer another site.
- The disposal of the night-soil was carried on during the past year in the same The soil was removed in large wooden buckets properly covered by lids manner as before to a garden called Puckabagan in an out-of-the-way place in Chinsurah, and there buried in trenches daily dug by three mehturs employed solely for that purpose. Save and except the place named above the soil was never allowed to be in any vay disposed of elsewhere. For the purpose of detecting offenders the Commissioners cange register to be made and kept at their office, containing the paragraph residence of all perto registers who have also been the purpose of detecting offenders the Commissioners caughter to be made and kept at their office containing the names and residence of all pily below helders, who have also been furnished with badges of the municipality to be borne on their common while employed in their business avocations. The regulation of private meliturs under the powers vested in the municipality by section 55 of Act III (B C.) of 1864 and by entry 36 has been found to work much more economically and successfully than the practically the Serampore municipality of removing night-soil by meliturs paid by the municipality decises to define the time and place existed and are paid by the people, all that the municipality decises to define the time and place for removal and deposit of night soil.
- 26. All pauper or unclaimed dead bodies were disposed wo at the cost of the municipality. The five moordafurrashes employed to guard the river against throwing dead bodies or nightsoil into it, bury or burn the corpses according to circumstances and requirements. The corpses found floating in the river were always buried into the chur above the high water-mark. Each moordafurrash has also a cremation ghat assigned to him to superintend over its conservance, They are also entrusted with the killing of paria dogs under the superintendence of the conservancy oversecr.
 - 27. The sum spent for watering the roads during the year under review amounted to

Besides, the tanks noted below which belong to private parties were all re-excavated during the year at the cost of the proprietors, who have also agreed to reserve the waters for drinking purposes only. Further, the proprietors have allowed the Commissioners to keep the tanks under their supervision:—

Further subscriptions are expected from the inhabitants of the municipality.

at the places noted in the margin, the one at Khackrajob which belonged to the military authorities was removed at the latter end of the year on the departure of the cantonment officers from Chinsurah. The income derived from these amounted to Rs. 48 only.

31. Agreeably to the orders received from Government the Mahomedan burial ground situated at Karballa was closed up, and removed in February last to a place called Junglee Shaw's garden, which lies to the south-west of the old burial ground, and which measures about 18 beegahs. The mutwallee of the Hooghly Emambarah procured the land at his own expense. The land taken for the new burial ground was Mahomedan endowed land, which had been appropriated and was in possession of Hindoos. It was, therefore, a real benefit to the whole Mahomedan community to recover this land for them. Moreover, owing to its religious character all objection to burial there on the part of the Mahomedans was obviated. Notwithstanding there was great difficulty in inducing the parties in possession to surrender the land at the merely nominal price which the mutwallee was ready to offer for it, I was unwilling to negotiate for any other land. Further difficulty arose from the fact that the mutwallee would accept of no pecuniary assistance from the municipality, and persisted in the opinion that the municipal money would act as a curse and pollution in destroying the sanctity of the land. Eventually by taking the strong measure of issuing a notice for closing the old burial ground, and at the same time inducing the local agents to threaten to sue the possessor for the land, both parties came to terms, and the land was made over. Besides the new burial ground there

32. The working of the Hackney Carriage and Palankeen Registration Act V (B. C.) of 1866, which was extended to this municipality first as an experimental measure in January 1869, and then permanently enforced in April 1870, was satisfactory during the year under review. The condition of the hackney carriages and palankeens were observed much improved, and their conveyance safe and speedy. As heretofore stated, the surplus registration fees of Rs. 245-0-6 from January 1869 to the close of the year 1869-70 were, under the orders of Government, brought to the credit of the municipal funds in the past year. Nothing further on the subject need be mentioned here, as all the details are contained in the report, dated the 16th May last, submitted by the Joint-Magistrate of Hooghly, under whose control the Act was enforced to this place by Covernment.

33. The mortuary returns furnished by the police during the year under review shew a total of 275 deaths within the municipal boundaries. A statement shewing the number and causes of deaths at the interval of ten years, which has been prepared from the police returns, is given below. It will be observed that no deaths under one year are given, and the returns

In addition to the five outposts which already exist, a new one is proposed to be creeted at Aymah, at a cost of. Rs. 500. The necessity for an outpost between the Hooghly East Indian Railway station and the Peepulputty outpost was urgent, as the road leading from the station to Hooghly has gradually risen to such importance that passengers on foot, as well as by gharry, may be at all hours of the day and night en route to or from the station.

35. The secretary of this municipality displayed great zeal in the discharge of his duties, and I have every reason to be satisfied with the conduct of the supervisor and other officers of the municipality.

MUNICIPAL COMMISSIONERS' OFFICE, The 10th August 1871. T. J. C. PLOWDEN, Fice-Chairman.

From F. H. Pellew, Esq., Officiating Magistrate of Hooghly, to the Commissioner of the Burdwan Division,—(No. 201, dated Hooghly, the 31st August 1871.)

I have the honor to forward the report of the vice chairman of the Scrampore muni-

cipality for the year ending the 31st March 1871, also the accounts in duplicate.

2. With reference to the remarks in paragraph 4, I have requested the vice-chairman in future nominations to pay attention to the representation of those parts of the municipality at present unrepresented, and he reports that the subject is under the consideration of the Commissioners.

3. In reference to paragraph 7, the vice-chairman calls meetings now twice every month.

4. In reference to paragraph 9, I have pointed out to the Vice-Chairman that the scheme is successful in Hooghly, and he reports that he has called on the civil surgeon to give it a fresh trial.

5. In reference to paragraph 13, I have addressed the vice-chairman to stop proceed-

ings for the present and lay the matter before the Commissioners for reconsideration.

6. With regard to paragraph 17, I requested the vice-chairman to favor me with a statement shewing in detail, 1st, the cash balance; and secondly, the unrealized balances of past years, and the demand of the present year; all these latter to be shewn as the demands of the years to which they relate. He has not, however, as yet done so, and I do not think proper to delay the report any further. It will be seen from the accounts that the actual cash balance from last year was Rs. 1,896-7-6½ so that Rs. 3,366-3 represents uncollected balances of previous years. The cash balance in hand at the close of the year 1870-71 was,

Rs. 3,732-8-114 so that the income exceeded expenditure by Rs. 1836-1-5. The vice-chairman should also in his report have applied for permission to write off the unrealizable balance.

7. In regard to paragraph 22, I have pointed out that deposits of farmers in lieu of security should not be included in the income of the municipality, until they are actually taken in payment of the rent, and that properly speaking these deposits should be kept with the Magistrate. .

8. I beg to call attention to the remarks of the vice-chairman in this paragraph 27.
9. With regard to paragraph 30, I observe that in Act III (B. C.) of 1864, section 77,

oil-boiling houses are included.

- With regard to paragraph 46, I have pointed out to the vice-chairman that the leases to the farmers should contain provision for all ferry expenses, which should be borne by the farmers; and that only the surplus proceeds as contemplated by Regulation VI of 1819 should be appropriated. A new form of lease of ferry ghants is now being prepared in the Magistrate's office, which will bind the farmer to provide safe and commodious boats and to keep them in good repair, &c.,
 - With regard to paragraph 49, the police are within the limit allowed by the law.
- 12. The vice-chairman has been requested to report further on the re-u.t of his enquiry into the purchase of the secretary's house and wood alluded in his paragraph 52.
- With respect to the last paragraph, I have directed the vice-chairman to keep the accounts strictly in accordance with the rules laid down for the accounts of local funds, and he is carrying out the reform.

T. J. C. PLOWDEN, Vice-Chairman.

SERAMPORE MUNICIPAL COMME'S OFFICE, The 20th August 1871.

From T. J. C. Plowden, Esq., Vice-Chairman to the Municipal Commissioners, Serampore, to the Magistrate and Chairman of the Municipal Commissioners, Hooghly,—(No. 148, dated Scrampore, the 14th July 1871.)

-I-HAVE the honor to report as follows on the administration of the Serampore municipa-Tity during the year 1870-71.

2. The present body of Municipal Commissioners is composed of the following members :-

Ex-officio.

F. H. Pellew. Magistrate and Chairman. Mr. A. D. Larymore, District Superintendent.

Ordinary.

T. J. Chichele Plowden, Fice-Chairman. Revd. J. C. Ince.

T. Martin.

[†] hs. 7,359-4-9 is the actual collection of the year and deposit of the last year, together with the loss suffered for Connugur ghât makes Rs. 8,006-11-9.

The Rs. 1,020-8 is the actual collection of the year, and the deposit of the last year being transferred into instalment leaves

no balance.

R. A. Barker. Mr.

F. Jones.

William McIntosh. ,,

J. Routledge.

Baboo Shamachurn Chatterjee.

Shibchunder Deb.

Gopal Chunder Lahiry. ,,

Shumbhoo Chunder Chatterjee.

3. There have been a good many changes in the list of ordinary members during the past year. The late vice-chairman was transferred to Midnapore in February, and was succeeded by myself in the month of March, the post being vacant in the interval. The absence of some members in Europe, and the non-attendance of others, renders it necessary to increase the number of Municipal Commissioners; and the following gentlemen were nominated at various times:-

Mr. F. Jones, c.s.

Mr. William McIntosh.

The second of th

,, J. Routledge. | Baboo Gopal Chunder Lahiry.
4. In selecting Municipal Commissioners, I think the object to be kept in view is to ensure the proper representations of the interests of the various classes of the people, and of the towns and villages which are included within the municipality.

5. I would suggest that the number of European members is too large and out of proportion with that of the European residents in the municipality; even excluding ex-officio

members, Europeans form a majority in the commission.

- 6. The result too is, that Scrampore itself has too many representatives; for out of the twelve non-efficial members all the Europeans and three of the five natives are inhabitants of this portion of the municipality. Connaghur, a large and important village, forming the southern entremity of the municipality, sends only two of its residents to the board; while Chattra, Mohes, Buliubpore, and Rishra are entirely without representation. Before passing from the subject of Municipal Commissioners, I desire to mention the compliment they paid to Mr J. A. Hopkins in recording a proceeding, thanking him for the pains he had taken in the municipal affairs.
- 7. Meetings.—As there were only twelve ordinary and one special meeting held during the year, it does not seem that the provisions of section 17, Act III of 1864 have been strictly adhered to.
- S. Few of the subjects discussed at these meetings call for much remark, and these too with one exception may be very shortly disposed of.
- 9. At the meeting of the 20th May, with a view to give native women instruction in midwifery, a sum of Rs 5 was voted for the salary of a native midwife, but the attempt proved abortive, as no one could be found to accept the post.
- 10. On the 12th July, on the motion of the civil surgeon, an estimate was framed for creeting a building for the separate treatment of contagious diseases. I do not find that the ward has been used for any serious sickness, such as cholera and small-pox, but the existence of such a building is useful in case any emergency should arise.

At the same meeting a proposition to appoint a paid secretary and health officer was very

properly negatived on the score of insufficiency of funds

12. At the meetings of August, September, and November, it was discussed whether permission should be given to the Indian Jute Company to build a jetty in front of their mill. and finally leave was given. Hitherto no steps have been taken by the agents of the company

to carry out their proposals.

- 13. I submit that the Municipal Commissioners in entertaining this proposal at all encroach upon the jurisdiction of the collector. The river bank upon which it is intended that the jetty should be erected is the property of the Government, either as putnidar under the zemidar of Sewrafooly, or as trustee for the public of the banks of a tidal navigable river. Under neither of these circumstances have the municipality any concern with it. I would further point out that it is both illegal, and. I submit, opposed also to fair and generous principles to expunge the condition by which all foot-passengers were to be allowed free access to the jetty. There is a ghât here, over which, as over all others, the public have a right of way, and which has been in existence for many years. This ghât consists of a path some two or three feet wide leading down to the water's edge. Surely it cannot be proper to permit the Indian Jute Company to abolish this ghat and acquire not only the land upon which it is situated, but also some forty feet in addition, and erect there a jetty from which they will exclude the general I submit that the municipality or even the collector would be liable to an action orthe part of any person who was deprived of his right of way. I see also that the Indian Jute Company have agreed to pay a yearly rent for this jetty when built, but if any person is entitled to that rent, it is not the municipality but Government. The only immovable properly vested in the Commissioners under the Act consists of roads and lands purchased by themselves; they have no jurisdiction over ghats or river banks. I should be inclined to recommend that the proceedings of the municipality with reference to this question be quashed.
- 14. Finance.—Under one other item of receipts and expenditure it will be convenient to comment on the results that have been achieved by the municipality during the year under report.

15. The subjoined statement shows the income and expenditure of the municipality, both as they were estimated and as they actually turned out: -

The above totals show a result so far satisfactory that the year's expenditure has not exceeded its income. I shall proceed to comment item by item on the details, pointing out what I consider is unfavorable in them, and shall begin with the receipt side.

17. Bal ince 1869-70.-The sum shewn under this head is calculated to mislead, for no distinction is made between cash actually in hand and that which is simply due; in other words, it includes the outstanding collections of past years. These last, amounting to a large sum, are principally due on account of house rate, and the result is that it will most probably be necessary to write off a considerable portion of them as unrealizable, because since the hous s were orginally assessed changes have taken place in their ownership, citner from natural causes or by voluntary desc + on.

18. House Rate.-Too is of course the principal source from which the municipality derives its income. It is an uniter tax; that is to say, it talls with unequal error upon the ficher and poorer classes, and its increance is very different from that of its quasi namesake a house

tax in England

The law directs that the tax should be paid by the owners of houses, baildings, and 19. lands, with gertain exceptions. The ryot who owns is also in the majority of cases the builder of the house in which he lives, and the time spent in its original construction or in repairing the ravages of the last storm is so much subtracted from the time at his disp sal for earning his daily subsistence. So far, therefore, as the rate falls upon him at amounts to a direct tax on labour. The owner of the lands on which the house is built is a distinct person, but I cannot find any instance in which he is separately assessed for it. That he has one right to escape is evident from the act itself, and from the debate which took place in the Bengal Legislative Council, both on this section and on that in which the word "owner" is defined. I fair, however, that though the land were assessed as the act directs, the only result would be an additional burden upon the already hardly pressed ryot. The remindar would simply increase the rent of the parcel of land by the amount of the assessment and something over by way of insurance against less in individual cases.

20. Perry Farm.—A glance at the annexed figures will show the income derived from this source from the year 1865 to the present time: -

1865-66. 1866-67. 1868-69. 1867-68. 1569-70. Years 1870-71. Rs. Rs. Rs. Rs. R≤. R≈. 8,162 6,550 6,990 7,100 7,190 Incomes ... 8,435 I will explain why the receipts under this head during the current year exceed the total

jumma for which the ferries were let.

21. The actual collections and deposits made within and on account of the year under report amounted to Rs. 7,359-4. During the last month of 1869-70 Rs. 403-12 were deposited in advance on account of ferry contracts for the year 1870-71; this sam is included in the figures shewn under the first head of receipts "balance in hand." A loss of Rs. 370 was sustained by the failure of the tarmer of the Connaghur ghât, and its subsequent settlement at a lower rental. The above sums give a total of Rs. 8.133-0-9, from which must be deducted Rs. 36-4-9 refunded on account of excess deposit. The balance that remained uncollected at the end of the year amounted to Rs. 338-4-9, most of which has since been realized. This accounts for the whole rent at which the ferries were let for the year under report.

The same of the sa

22. The difference between actual collections on account of this year, and the total sum which was received under this head, and which amounts to Rs. 1,525-4-9, consists of sums deposited in the last month of 1870-71 on account of ferry contracts for the year 1870-71.

23. Bazar Farm—The sum shewn in column 5 is not really deficit, the term is a misnomer for faulty estimate. During the year under report the bazars were let for a total rent of Rs. 1,350, out of which one-fourth was deposited in advance during the year 1869-70, and has been credited in the funds raised during that year. The whole of the remaining rent, together with a similar deposit in advance for 1871-72, has been realized within the present year. That the exact sum shewn in column 3 exceeds Rs. 1,350 is to be accounted for by the fact that the bazar has been let for a somewhat higher rent during the current year, which has necessitated a deposit of a proportionately larger amount.

21. The practice of receiving deposits before the year for which they are required has commenced, and of crediting them to the year in which they were actually paid tends to confuse accounts; they should never be accepted until after the beginning of the year to which

they refer.

25. These bazars are three in number, and are known as the Hat, the Pooratun, and the Buttolla bazar respectively. In addition to permanent shops of various kinds, the usual vegetables are sold here; and at one of them (the Pooratun bazar) an evening fish market is regularly held.

26. Peunds.—The income derived from this source has not answered the expectations formed concerning it, chiefly because they were somewhat sanguine. The receipts undoubtedly justified some increase in the estimates, but not so high a one as this, which is half as large again as the total estimate of the previous year. Pounds are managed by the Municipal Commissioners, and the proceeds credited to Municipal Funds under the authority of a Government order No. 4118, dated the 28th June 1865.

27. That this management can be continued under the new Cattle Trespass Act I of 1871 does not appear to be possible. Not only does that law invest the magistrate with the entire authority over pounds, their keepers, and income realized from them, but it further enumerates the purposes to which surplus proceeds may be appropriated, and among them municipal funds are not included.

28. The number of eattle impounded by the police and private individuals appears from the subjoined statement:

. J					Rs.	Λs.	P.	.'

29. Cart Registration Fees.—This subject calls for no remark, I therefore pass on to the next.

30. License Fres.—The income to be derived from this source is regulated by section 77, Act III of 1864, and I suspect that its terms have not been closely attended to. The words "premises newly used" very considerably restrict the profits which would otherwise accorde. The schedule too is defective, inasmuch as it omits to fix any rate to be imposed upon premises used for boiling oil.

31. I consider that the operation of this section is unsatisfactory. If by its provisions it is intended to entrust the Manicipal Commissioners with some control over objectionable-trades, by enabling them to refuse a license to carry them on, it is clear that this end is not gained if no authority is given over premises that have been in use before the existence of the municipality. If it is intended that the municipality should derive any considerable portion of their income by trading in license, I would submit that the principle is a bad one. To enact a fee from a new trader and to exempt the old one is practically to enforce a monopoly in favor of the latter. Priority of existence gives the old established dealer a

considerable advantage in the struggle of competition; but if the new trader is besides subject to a tax from which the other is exempt, he is too heavily weighted to make it possible for him to succeed. The injustice is specially grievous in the case of those trades which are not in themselves a nuisance, but which require some sort of regulation as a protection against accident. Some exception must also be taken to the meaning of the words "newly used;" they are ambiguous as regards certain trades at all events.

• 32. Horse and Wheel Tax.—The deficit is in some measure accounted for by the fact that the last quarter's tax has not yet been collected, but notwiths anding this, I am inclined

to think that the estimate framed was too high.

- 33. Latrine Fees.—Again I have to report, as my predecessor did before me, that the working of this department is not satisfactory. There are three causes alleged to the deficit shown in column 5; first, the inspector of methus, whose special duty it is to collect night-soil bills and supervise the work in this department, has been dismissed; secondly, loss ensues from people changing their lodgings, and in some cases quitting the towns without paying the bills due from them; thereby, a sum of Rs. 60 is due for arrears of rent from the farmer of the bazar latrine.
- 34. Miscellancous.—The receipts have again been under-estimated, the single item of recoveries is more than half as much again as the entire estimate. The remaining Rs. 2.500 is made up by sums received on account of compensation for land, temporary deposits of various kinds, and miscellaneous receipts proper. By far the largest part of the latter is on account of recovery of expenses incurred for repairing ruinous houses under section 64 of the Act.

To consider the year's disbursements.

35. Collecting Establishment. - The saving under this head is accounted for by the non-

employment of an assessor, and by a reduction in the number of bill sirears.

Office Establishment and Contingencies.—There is a very large expenditure under this head in excess of estimate, but a great portion of it is included in one item, the purchase of a gharry for the use of the honorary secretary and commissioners. It is perfectly fair that travelling expenses incurred on account of the municipality should be defrayed out of its funds, and hence there was ample reason to pay bills presented on this account by the honorary secretary and others. I do not find that these bills ever exceeded Rs. 10 a month, which is about one-half (rather less) the average cost of the keep of the horse and gharry. The arrangement has therefore been aloss. Various items of furniture purchased for the use of the office, and more or less necessary explain the remaining deficit under this head.

37. Conservancy.—Compared with last year the figures are not satisfactory, for they exhibit an excess of expenditure over assigned income, the reason being that the budget was not sufficiently comprehensive. The coolies, whose wages form a principal item under this head, have been actively employed in cleansing the town, cutting jungle, and other conservance.

work; it is sufficient to say that they have done this satisfactorily.

38. Roads.—In addition to petty repairs carried on by the conservancy coolies, a sum of Rs. 983-13-9 has been spent upon those of a more important character. This sum is well within the estimate, but I regret to say that the whole of it has been spent on Serampore itself to the neglect of Rishra, Mohes, Connaghur, &c.

• 39. Local Improvements.- A good deal of useful work has been accomplished by the

funds expended under this head.

- 40. A railing has been set up along the upper and lower strand roads, and continued as far as the strength of the river bank would admit. It will shortly be further extended, for the present condition of the road is fraught with danger both to foot passengers and carriages.
- 41. A public burning ghât has been erected at Connaghur, which I trust will be of use to the inhabitants; it has not been opened for a sufficiently long time to enable me to speak with accuracy on the point.
- 42. Last year the municipality excavated a new tank, and this year they have improved it by the addition of a ghat constructed on that side of it nearest the Grand Trunk Road, thus affording convenient means of access to the water.
- 43. Lighting.—Scrampore alone of all the constituent parts of the municipality, enjoys the advantage of street lamos. These are 45 in number; they are lit and kept in repair under contract for a monthly sum of Rs. 135.

44: The rate allowed for each lamp was reduced from Rs. 4 to Rs. 3-14 per month, and now stands at Rs. 3 only. I think it is possible that a further saving may be effected.

- 45. Watering.—The trouble given by the bheestees in previous years led to the purchase of three watering carts at a very great expense from Messrs. T. E. Thomson and Company. They are certainly an improvement upon manual labour, but they are constantly getting out of repair. They cost Rs. 225 each.
- 46. Ferry Expenditure.—The municipality, in accordance with Government letter No., 1155 of the 28th January 1868, manages all the ferry ghâts within its limits, and is entitled to half the proceeds, the remainder being handed over to the amalgamated district road fund. I find that the municipality pays out of its own share the whole of the expenses of management, and also undertakes repairs of the ferry boats, making no deduction on any of these accounts from the share paid to Government.

- 48. Police.—The annexed figures show the strength of the municipal police force. It is sufficient for ordinary occasions; but on the occurrence of any large festival, such as the Ruth Pooja, we are obliged to indent for aid from Hooghly. It might be possible to inaugurate a system of reserves from which the police ranks might be from time to time recruited, and who might be called upon on special occasions.
- 49. There are four outposts, and although situated in Scrampore itself, pucca quarters with a substantial railing have been exceed at a cost of Rs. 1 449
- with a substantial railing have been erected at a cost of Rs. 1,449.

 50. I am unable to afford any information on the way in which the police performed their duties for the year under report; for during the fortnight I was in charge I had no opportunities of observations.

- 51. Miscellancous.—I should imagine there had been an unintentional oversight in calculating the expenditure under this head, for two permanent items are aloue in excess of the entire sum assigned.
- 52. No margin whatever has been left for law charges, and yet these amount to nearly Rs. 200. Among the miscellaneous items proper, I find that the municipality purchased what is known as secretary's house and buildings attached for Rs. 370, and I also find that they purchased the tumber in the house for a further sum of Rs. 204-14. It seems so extraordinary that a purchase of the entire house and buildings from the executive engineer should not include the beams and rafters in the various rooms that I have instituted an enquiry into the matter
- 53. Mortuary Returns—I annex tables exhibiting the deaths that occurred within the municipality during the year under report, but I am not inclined to place absolute faith in their accuracy. They are taken from a register in which the information supplied by the police and conservancy ameens is recorded and compiled. I should imagine that deaths among infants exceeded twenty-nine. Deaths from fever are fewer than those from cholera; cholera and dysentery in excess of last year.

Final remarks. - Whatever credit is due on account of the administration of the municipality during the year under report solely belongs to my predecessor Mr. J. A. Hopkins, for it was only in my charge for a fortnight. All that remained for me to do was to write the usual report upon, what had been done by him and the other municipal commissioners. For the many deficiencies in it, I must plead my slight experience of municipal business. I have pointed out what have appeared to me faulty estimates both in income and expenditure, and it is a matter of regret that the accounts should never have been kept according to the local fund rules. My predecessor has left on record a minute stating that the budget, though it bore his signature, did not carry his entire approval, and that he had been obliged to modify his own wishes according to the views pressed by others.

From F. H. Pellew, Esq., Officiating Magistrate of Hooghly, to the Commissioner of the Burdwan Division,—(No. 174, dated Hooghly, the 5th August 1871.)

I have the honor to forward the accounts of the Ooterparah Municipality for the year

1870-71, together with the report of the Vice-Chairman.

The report shows that the financial position of the municipality is healthy, and that the deficits, which were apparent in the budget estimate, and which were remarked on in letter No. 2442, dated 26th May 1871, of the Secretary to the Government of Bengal, have never been permitted to occur in reality.

3. With regard to collections, paragraph 5 of report, the vice-chairman has promised to introduce a change in the practice which has crept in at Ooterparah of commencing to

collect after the close, instead of at the commencement of the quarter.

With regard to paragraph 9, it is satisfactory to find that the police have behaved so well.

It is to be regretted that the Honorary Secretary of the municipality was not called 5. on to give some particulars of the local improvements effected in Ooterparah during the year. This small municipality has in many respects shown great spirit and energy.

From T. J. C. Plowden, Esq., Assistant Magistrate and Vice-Chairman of the Ooterparah Municipality, to the Magistrate and Chairman of the Municipal Commissioners, Hooghly, -(No. 75, dated Serampore, the 6th July 1871.)

I have the honor to make the following report on the administration of the Municipality

of Ooterparah during the year 1870-71.

2. The annual accounts herewith annexed show that expenditure has not exceeded It will be seen that the actual cash balance amounted to Rs. 1,221, which is exclusive of another sum of Rs. 1,214 on account of bills due, but not yet realized. In the budget estimate for 1871-72, forwarded in my letter No. 70, dated 1st July 1871, you will see that a sum of Rs. 2,634-8 is put down for loan to meet ordinary expenditure.

3. Originally the budget for this year showed, under head of balance from last year, an estimated sum of Rs. 1,200; but from the figures of that year it appeared that the estimated expenditure exceeded the estimated income; and the Secretary to Government of Bengal, in his letter No. 2442, dated 26th May 1871, pointed out that it was difficult to understand how we

could anticipate such a favorable result.

That the balance should actually remain in our hands, is very easily explained by the fact that some of the costly items proposed in the budget estimate for 1870-71 have, for one reason or another, never been undertaken, and the money consequently never spent.

The result is that the loan entered in the budget estimate for 1871-72 will not be

required. 5. Collections.—There seems to me room for improvement in the system of collecting the taxes imposed in the municipality. It seems to be the custom to allow the quarter to expire Biore any attempt is made to collect the bills due on account of it. Endeavours will be made to introduce a change in this respect during the present year.

6. License Fees .- The decision of Baboo Bamachurn Banerjee, Municipal Commissioner, on certain prosecutions for refusing to take out licenses under section 77, Act III. of 1864,

is a great blow to the finances of the municipality.

He decided that the words "premises newly used" could only refer to such as were brought into use after the extension of the Act to any particular locality.

I concur generally in the decision, but consider that with reference to certain trades the is "premises newly used" are ambiguous.

8. The loss to the municipality amounts to nearly Rs. 350 a year, and we may be obliged

to refund the fees we have already taken.

9. Police.—The Commissioners are glad to be able to state that in their opinion a satisfactory watch and ward has been kept by the police under their head constable Kuralee Churn Eannerjee.

Reads.—The metalling of the Kalipore road has been commenced and will shortly be finished; the roads in general are in good order.

11. In appendix A. will be found the details of the year's expenditure.

OGTERPARAH MUNICIPAL COMMES.' OFFICE,

The 1st May 1871.

T. J. C. PLOWDEN, Vice-Chairman.

From the Chairman of the Howrah Municipality, to the Commissioner of the Burdwan Division,—(No. 277, dated Howrah, the 24th July 1871) I have the honor to submit, on behalf of the Municipal Commissioners of Howrah, the annual administration report of the Howrah Municipality for the past official year 1871-70. 2. At the commencement of the year the municipality numbered twenty-one Commissioners, viz.-Ex-officio Members. Officiating Magistrate. Mr. G. E. Makgill ... Officiating Executive Engineer. W. D. Bruce ••• ... Major W. Gordon District Superintendent of Police. OTHER MEMBERS. Mr. C. H. Denham District Engr., E. I. R. (Vice-Chairman.) Dr. R. Bird, M. D. Civil Surgeon. Deputy Magistrate. Baboo Dwarkanath Bancrjea . . **.** Mr. E. B. Godfrey Deputy Magistrate. ٠. Mr. R. N. Burgess. ,, W. Stalkartt. Baboo Raj Mohun Bese. Kedarnath Bhuttacharjee. ,, J. Stalkartt. " Tara Prosunno Mockerjea. " S. H. Robinson. R. W. Pearce. " Krishna Comul Bhattacharjya. ,, Hurro Mohun Mookerjea. Revd. T. Skelton. Nundo Gopal Chunder. Mr. A. B. F. Thompson. 3. Among these the following changes occurred during the year :-Mr. G. E. Makgill, Major W. Gordon, and Mr. W. D. Bruce, left the station. Mr. C. H. Denham, Vice-Chairman, and Revd. T. Skelton, resigned. Mr. G. Smeaton succeeded Mr. G. E. Makgill, Mr. W. E. Ward succeeded Mr. Smeaton. He also was transferred, and Mr. G. Graham took his place.

Major W. Gordon was succeeded by Mr. K. G. Burne, Mr. Burne by Major W. R. Gordon, Mr. Gordon by Mr. R. W. King, Mr. King by Mr. W. F. Smith, and Mr. Smith by Captain R. J. Wimberley. Captain J. P. Steel succeeded Mr. W. D. Bruce. Mr. J. S. Ridsdale was appointed a Vice-Chairman in place of Mr. C. H. Denham resigned as temporary arrangement, and Mr. E. B. Godfrey succeeded Mr. J. S. Ridsdale. Revd. A. W. R. Quinlan was appointed as Municipal Commissioner during the year. 4. At the close of the year the Commissioners numbered twenty members, of whom thirteen were Europeans and seven natives. 5. The number of meetings of the Commissioners held during the year was as follows :---Ordinary general meetings 23 Special ditto 2 Total 25 6. Appendix A. shews the attendance of the Commissioners at these meetings. The average attendance of each was a little over eight. 7. On four occasions (18th April, 19th October, 5th January, and 2nd March,) the attendance of Commissioners was too small to form a quorum. The ordinary municipal meetings are, as a rule, held on every alternate Wednesday, and afterwards altered to Thursday. No meetings were, however, convened on the following dates, there being no business to lay before the Commissioners:— 24th August 1870. 9th November 1870. Special meetings were called for the following reasons:-(1) 1st June 1870. - To consider a memorial from the inhabitants of Ramkistopore and Sibpore with regard to the disposal of night-soil. To consider the statement of bills realized by the warrant department, &c.
(2) 15th July 1870.—To read the draft of a letter to the Commissioner of Burdwan with regard to the police subsidy. 10. Besides the above there was a finance sub-committee meeting held, the members of which were-The Chairman. Mr. S. H. Robinson. " R. N. Burgess. Baboo Dwarka Nath Banerjea. Also, a market sub-committee, the members being-The Chairman. The Vice-Chairman. Mr. R. N. Burgess.,, A. B. F. Thompson.

Baboo Dwarka Nath Banerjee.

INCOME.

- 11. Subjoined are the sources from which the income for the past year has been derived :---
 - 1.—Balance of arrears of 1868-69 and 1869-70.
 - -House-rate collections for the year under report.
 - 3.-Wheel tax.
 - 4.—Tolls.
 - 5 Fines.
 - 6. Hackney registration.
 - 7. Miscellaneous.

The total income of the municipality amounted to Rs. 1,71,310-8-10 or Rs. 9,317-8-10 in excess of the budget estimate.

12. The following tabular statement shows the actual income under each head as compared with the revised budget estimate for the year under report :-

- 13. Balance from 1869-70.—The excess under this head over the estimate has arisen from unspent all ofments, under several heads of expenditure, under which it was anticipated, when pregaring the budget, that no balance would have remained.
- 14. House-rate -The accompanying tacle gives the details of collections under this head at the close of the year under report :-

- 15. It will be observed that the very large outstanding balance of house rate shown in the report of last year has been reduced this year to about half. This is owing to the admirable system of collection introduced by Mr. Ward and maintained by his successors. The large balance yet outstanding for 1868-69 is owing to the contractor who was entrusted with its collection having decamped and compelled the Commissioners to resort to law to recover from him the money and bills in his hands. The secretary has since resigned, and it is to be hoped that his successor will be successful in collecting these and other arrears.
- 16. The remissions noticed in column 4 of the statement given above were for the following causes:-
 - Rs. As. P.
 - 16,544 8 4 These were irrecoverable. The Municipal Commissioners at a meeting 25,561 11 0 struck them off.
 - 25,561 14
 - 2,091 Ruined houses. () ()
 - 1,200 Vacancy Act.
 - Wheel Tax.—The small deficit under this head needs no special remarks.
- 18. Tolls and Ferries.—There were thirteen tolls belonging to the municipality during the year under report. Those in the Maidan and Avenue road have ceased to yield any income owing to changes in the outlets from the railway premises. The one at Poddopookur is on a

There are no ferries belonging to the municipality.

- 19. Fines.—The improvement under this head is due to the better organization of the . Conservancy Department, and consequent greater vigilance in detecting breaches of the conservancy laws.
- 20. The subjoined statement shows the work done by conservancy overseers in preventing breaches of conservancy laws. The result of trials has not been quite satisfactory owing to the sub-overseers being new to the work; but steps have been taken to instruct them, and better results expected in 1871-72.

- 21. Appendix B shows the attendance of Commissioners to try cases under the Municipal Act.
- 22. Hackney Registration.—The deficit under this head arises from too sanguine an estimate having been made last year. There is a decided tendency to increase under this head, but it will be slow and steady, keeping pace with the growing population.
- 23. Miscellaneous.—The receipts under this head were derived from the following sources:—

24. Hackery Registration.—739 hackeries were registered during the year, and the fees realized amounted to Rs. 888-12-3, showing an increase this year of 129 carts.

25. Licenses.—The following is a detailed statement of licenses issued under sections 69, 75, and 77 of the Act during the year under report:-

26. Latrines.-The receipts under this head were derived partly from public latrine license fees, paid on account of public latrines not built by the municipality, and partly from mehters, to whom latrines built by the municipality were leased for the year under report. The following statements will show the number of latrines existing in the municipality of each class, and the receipts from each during the past year :-

	Particulars.	:	Number of latrines.	Number of scats.	Receipts.			
•	Latrines built by the municipality Latrines built by private parties	•••	3 7	38 38	Rs. 188 35		0	
	Total		10	76	226	8	0	

Both the old latrines at Howrah Ghât and Arkatty Bazar have been dismantled during the year, and a new one has been re-built at Arkatty Bazar.

27. Municipal Market.—A full history of this has been given in last year's report. A proposition from Mr. Ward for improvement of the site is still pending decision of Government. No steps have been taken as regards Mr. Grose's contract, owing to the Chairman of the Municipality having been too often changed of late.

28. Pounds.—There are three pounds in the municipality. The receipts from each as compared with the receipts of the two previous years, are shown in the following statement :-

The receipt from this source has fallen off this year, but it is not possible to say whether it is owing to greater caution on the part of the cattle owners, or want of vigilance on the part of the police.

29. Stock.—The sum of Rs. 185, shown as received under this head, was derived entirely from the sale of ponies employed in the road, watering, and conservancy department.

30. Civil Suits.—No law charges recovered.

 Interest on Government Securities.—This small item requires no explanation.
 Lease of Municipal Property.—Maidan, tank, and trees not leased.
 Warrant Fees.—The sum shown under this head requires no explanation. It was recovered under the provisions of section 45 of the Municipal Act.

34. Miscellaneous.—This item is made up of receipts derived by the sale of unservicable stores; by recovery of the cost of filling up tanks; by sale of distrained property, &c. This closes consideration of collections.

EXPENDITURE.

35. The expenditure during the year amounted to Rs. 1,15,467-6-3.

36. Expenses of collection.—The excess expenditure under this head was owing to the necessity of entertaining two special establishments for collecting the cutstanding arrears of 1868-69 and 1869-70 respectively, the ordinary establishment having been found inadequate to keep up the arrear work as well as the current. The amount was provided for by a transfer of Rs. 1,000 from the head Latrine.

.....

- 37. General charges.—The excess under this head arose from overlooking the want of Bengah types and extra stationery for the press, and was met by a transfer from the sub-heads Survey and Latrine.
- 33. Roods.-When preparing the revised budget certain extra establishments which would be needed for the repairs of roads in the cold weather were overlooked, consequently Rs. 2,000 had to be transferred from the sub-head Latrine to this.
- 29. Details of reads repaired during the year with expenditure on each is given in the statement of actual receipts and disbursements which accompanies this report.

10. No culverts or bridges of any importance were constructed this year.

- Lighting. -- The excess under this head arose from under-estimating the cost of new lamps and lamp posts. Since the last report the populous part of the town has been lighted with gas costing Rs. 20 000 per annum. It was considered impossible to meet this charge from the ordinary revenue, and a request was made to Government to provide a clause in the Municipal Act, authorizing the levying of a lighting-rate. The matter is yet pending decision.
- Watering .- The saving under this head arises from not purchasing the number of k2. ponics budgeted for.
- 43. Conservancy The drainage scheme not having been yet sanctioned by Government, the entire amount budgeted for was saved; also a great part of the amount provided for latrines.
 - The total expenditure incurred in this department was distributed as follows:-

R	ls.	Λs.	P.

Total Rs 183	228	6	O

- 15. Since the last report a part only of the lattine scheme has been introduced, and application made to Government for taking lands for the rest. As soon as this is done, and a standard plan selected, the work will be pushed on rapidly.
- 16. Drainage .- The scheme of open drains referred to in the last report has not yet been sanctioned by Government, consequently nothing has been done under this head.

 47. Police.—The saving under this head is nothing more than the non-payment during
- the year of the instalment of police debt referred to in the last report.
- 18. Hackney Registration .- The slight excess under this head is the commission allowed . to the Registrar, which had been overlooked whilst making the budget estimate.

A transfer from the unspent drainage allotment was made to meet this.

- 49. Local Improvements .- No provision was made under this head in the revised budget estimate, but the amount now shown in excess was what had been laid out under the old budget for purchase of land, sign-boards, and palisading triangular pieces of land at the junction of three roads.
- 50. Municipal Market .- This institution remains just the same, the project sent up to Government for improving it not having yet been sanctioned.

52. Refund of Fines .- The amount shown under this head was returned to parties under the orders of the High Court in appeal.

53. Hackeries.—This shows expenses incurred for registration tickets, &c.
54. Latrines.—This head has been improperly put by the accountant under miscellaneous, and orders have been issued to correct the error this year. The amount represents the cost of dismantling old latrines, erecting a new one in Arkatty Bazar, and payment of rent for sites for depositing night-soil.

55. Municipal Market .- This charge should have been put under Local Improvements, and was incurred on account of maintenance of existing sheds, &c.

56. Pounds.—This charge shows the salary of pound-keepers and cost of repairs to pounds.

Widening Dobson's Lane.—This may have been shown under Local Improvements. **57**. It represents petty expenses incurred in removing huts out of the way. This lane is to be widened and extended to the Chandmaree Road as a substitute for that portion of the Howrah Road which was closed for the coal line of the railway. The work has been stopped pending a negotiation with the railway authorities to pay the cost.

58. Tolls.—These are expenses incurred for repairs to toll-houses and refund of deposits

to toll farmers. 59. Interest Account.—This shows amount of interest on Government papers deposited by contractors.

60. Refund of House Tax.—These are over-charges returned.

Discount on copper.—This amount shows the discount allowed on the large quantity of copper brought in by the collecting sirears.

62. Warrant fees.—Amount returned as erroneously charged.
63. Fire-brigade.—This charge shows cost of establishment and purchase of a new hose. Fires were considerably less this year.

64. Law charges.—These are expenses incurred in the prosecution and defence of cases for and against the municipality, both in the conservancy and collecting departments.

65. Stock.—This amount is the value of a bull and stores for the yard department.

Cinerator Fund. - A full history of all that has been done under this head was given

- 67. The question of improving the burning ghats stands here just in the same state as at Calcutta, and it is considered advisable to watch the action of the Calcutta municipality in the matter and follow it. Sulkea burning ghat it is expected will soon be enclosed like the Ramkistopore one. The amount shown under this head is the balance due for construction of the Ramkistopore cinerator.
- 68. Advance account.— This shows the amount advanced to municipal officers for execution of works entrusted to them. These have since been adjusted.
- 69. Contractors' Deposit Account .- This shows amount of contractors' deposits refunded. **7**0. Contractors' Interest Account .- Payment made of interest realized on securities deposited by contractors.

71. Petty Miscellaneous.-This shows principally salary of workshop establishment and

cost of materials used by them.

72. Several of the above charges have been improperly shown under the head Miscellaneous. The new system of debiting charges under budget heads will this year rectify such errors.

This closes the consideration of expenditure.

73. Conduct of Municipal Servants. -All the servants of the municipality have given satisfaction as far as they could under the defective system existing. Mr. Ridsdale, the Secretary, was found incapable of maintaining the improvements made, therefore his services were dispensed with, and Mr. R. P. Sage appointed in his place.

From the Chairman of the Burdwan Municipality, to the Commissioner of the Burdwan Division,—(dated Burdwan, the 1st June 1871.)

I have the honor to submit, on behalf of the Municipal Commissioners for the town of Burdwan, the annual administration report of the Burdwan Municipality for the past official year 1870-71.

.2. At the commencement of the year the Municipal Commission numbered 17 members, viz.—

Mr. W. E. Ward 'Officiating Magistrate. ,, Charles Dis. Supdt. of Police.

3. During the year the following retirements took place:-

Messrs. Ward, Charles, Smeaton, Captain Garnault, Dr. Mantell, Colonel Hume. Mr. Ward, ex-officio member, left the station in August, and was succeeded by Mr. Kean. Mr. Charles, ex-officio member, was succeeded in August by Mr. Showers, who in turn was succeeded by Major Gordon in October. Major Gordon again was succeeded in December by Mr. Cockburn. Mr. Smeaton was succeeded in November by Mr. Porch, who again left the station in February. Mr. Field also officiated as chairman for two months in the year during the absence of Mr. Kean, on leave. Colonel Hume resigned.

4. At the close of the year the commission numbered 14 members, of whom five

were Europeans and nine natives.

5. No changes occurred among the native Commissioners.

6. Twenty-lour meetings were convened during the year, of which nineteen were general and five special.

7. On four occasions the attendance of Commissioners was insufficient to form a quorum.

8. Appendix A. shows the attendance of the Commissioners at these meetings; and it will be seen from it that the attendance on the part of some of the members was very unsatisfactory, showing that they had no proper interest in their duties.

9. The general meetings of the Commissioners still continue to be convened on the 5th and 20th of each month. No meetings were, however, held on the following dates, there

being no business to lay before them :-

5th August 1870. 20th 5th September 1870. 5th October 5th March 1871.

10. Special meetings were convened on the following dates for the following reasons:-12th of April 1870.—To consider the business intended for the general meet-

ing of the 5th idem at which a quorum was not present.
(2) 25th of July 1870.—To consider a proposition made by Mr. Ward, the Chair-

man, of increasing the Secretary's salary to Rs. 300 a month.

(3) 13th October 1870.—To consider a communication from the Civil Surgeon urging the necessity of administering food relief to certain mohullas of the town.

22nd of December 1870.-To consider the business intended for the general (4)

meeting of the 20th idem at which a quorum was not present.

(5) 13th of January 1871.—To consider a proposal from Mr. Sherman, the Secretary (who had been offered the Howrah municipal secretaryship on a salary of Rs. 600 a month), to remain in his present post if his salary was increased to Rs. 400 monthly.

11. The following subjects were referred, in the course of the year, to the several sub-

committees :--

CONSERVANCY SUB-COMMITTEE.

(1) The consideration of the question of the quantity and site of the land to be taken up for a latrine garden for the deposit of night-soil removed from the public latrines.

The selection of proper sites for the public latrines which it was proposed to erect (2)

within the town.

The consideration of the necessity of closing some of the existing Mahomedan burialgrounds and opening others in their stead.

LEGAL SUB-COMMITTEE.

The preparation of a draft deed of agreement, to be entered into between the Chairman and Mr. Sherman, the Secretary, whereby the latter bound himself to remain in the municipal employ for a period of five years, on a salary of Rs. 400 per measem.

SPECIAL SUB-COMMITTEE.

The consideration of the necessity of distributing food relief to certain mohullas of the town.

FINANCE SUB-COMMITTEE.

The usual quarterly reports on the municipal accounts.

12. The sub-committees have all during the year submitted their reports on the subjects referred to them; the report of the sub-committee, referred to in paragraph 12 of last year's administration report as awaiting submission, has during the year been submitted.

13. The estimated income of the year under report was Rs. 55,050. The actual income from all sources, as compared with the budget estimate, is shown in the following statement:—

which, with Rs. 5,576-7-8, the balance at credit brought forward from last year's account (see statement of receipts and disbursements appended to last year's annual report), gives a total income of Rs. 55,917-6-8 available for general purposes.

14. The house-rate assessed under section 26 of the Act forms the principal source of the municipal revenue, the result of the collection of which is given in the accompanying table.

*15. The collection of the arrear house-rate due for the years 1868-69 and 1869-70, has been effected, chiefly by recourse to the civil court under section 82 of the Act, all attempts at realization under the ordinary process of the law having failed. The arrears of the year under report are chiefly due on empty houses, the owners of which reside without the municipal jurisdiction. To recover this amount measures are being taken.

16. The cause of the excess in house-rate collection over the estimate, is the assessment on holdings (principally bamboo plantations), which had previously been unnoticed, and which

have been brought under assessment during the year.

17. Wheel and Horse tax.—The introduction of the wheel and horse tax, leviable under section 35 of the Act, was resolved on by the Commissioners at a meeting held on the 5th of March 1870. The sanction of Government to the same was received the month following. The receipts accruing from this tax were estimated in the budget at Rs. 3,000. From the subjoined statement, the result of these collections will show a deficit of Rs. 440-4-0, the anticipated income being evidently an over-estimate.—

18. Registration of hackeries.—The registration of hackeries is also a new source of income. Its introduction was resolved on at the meeting held on the 5th March 1870. The year's income from the fees collected under this head was estimated in the budget at Rs. 2,000, which at the time of its preparation was considered an under-estimate. The result, however, would tend to prove the contrary, the receipts from registration being only

- Rs. 1,584. The evasion of registration, chiefly in villages situated within two miles of the municipal limits, which under section 49 of the Act are liable to the registration rules and the difficulty of enforcing the provisions of that section, must be considered the cause of the deficit.
- 19. The Act would also appear to be defective, inasmuch as section 51 gives no power of seizure before conviction; consequently its provisions have remained almost a dead letter, more particularly in the villages without the municipal limits liable to this tax, as it is impracticable to get convictions unless the names of the owners and their residences are known, which can never be properly ascertained by merely questioning the drivers in the streets.
- which can never be properly ascertained by merely questioning the drivers in the streets.

 20. Fines—The collections on account of fines have exceeded the estimate by Rs. 392-15-0. Rs. 136, however, of this amount were the uncollected fines of 1869-70. The remaining excess is not attributable to any special cause.
- 21. The subjoined statement will show the number and nature of the offences reported, and the amount of fines imposed during the year:—

22. The result then is, that 996 convictions were obtained during the year for contraventions of the Municipal Act and By-laws, and fines to the amount of Rs. 1,513-11-0 inflicted. Out of this sum, Rs. 1,256-15-0 were realized, Rs. 74 remitted, and the balance, amounting to Rs. 182-12-0, awaits realization during the current year. 473 notices were also issued under the Act for the removal of noxious vegetation, obstructions, &c.

23. The past year has been remarkable for the number of appeals and objections urged against the decisions of the Municipal Commissioners at their judicial sittings. For the first time during the existence of the Burdwan Municipality,—a period of 7 years,—a point has been mooted questioning the legality of those decisions on the grounds of the Commissioners who, under section 6 of the Act are vested with the powers of magistrates, not having taken the oath of office.

24. Appendix B shows the attendance of the Commissioners at their judicial sittings which, as a rule, are held bi-weekly. The attendance of some of the Commissioners has been far from satisfactory, and has caused considerable inconvenience as well as serious and objectional hardship to defendents, who are frequently compelled to dance attendance at the municipal office till their cases are decided. These facts have been brought prominently to the notice of the committee more then once, but without effect; until, finally, things had been brought to such a pitch that the matter had to be represented with the view of its being taken notice of by the Government. The result of this representation has had the effect of causing the resignation of three of the Commissioners.

25. Tolls & Ferries.—There have been no changes or additions to the tolls and ferries under the municipal charge. The prices realized at auction sale are as follows:—

Hutoo Dewan toll ... Rs. 1;338 0 0

Kastogola ferry ... , 1,525 0 0

Total Rs. .. 2,863 0 0

The toll was twice put up for sale during the year. At the first sale it realized Rs. 1,725-0-0. The lessee, however, fell into arrears with his rent after the lapse of a month, for which, under the terms of his agreement, his lesse was cancelled, and the toll re-sold. At the re-sale, which

Ĺ

took place on the 1st of June, the toll only fetched Rs. 1,050-0-0 for the ten months, thus entailing a loss to the Commissioners of nearly Rs. 400. The defaulting lessee was prosecuted in the civil court for the loss sustained, and a decree has been obtained in favor of the municipality for the full amount. The execution of the decree, however, has been considerably delayed, the defendant having obtained its transfer to Jehanabad, where the property attached is situated, and where the case is still pending.

26. Miscellaneous.—The miscellaneous receipts, which were derived from the following sources, amounted to Rs. 3,631-14-6, or Rs. 1,431-14-6 in excess of the estimate. This excess is due entirely to two causes:—(1) from excess receipts from pounds; and (2) from a Government grant-in-aid towards the erection of a public latrine near the cutcheries:—

The attention of the Commissioners having been drawn by Government in their memorandum No. 1141, dated 4th March 1870, to the propriety of municipalities providing latrine accommodation near the Government cutcheries and arranging for the conservancy of the same, it was referred for consideration at a special meeting held on the 22nd of December 1870, at which the Commissioners agreed to creet a latrine near the cutcheries, and arrange for the management of its conservancy, provided the Government would meet them half way by bearing half the cost of its erection. To this Government agreed; the sum which forms this item having been placed to the credit of the municipality at the close of the year.

28. Item 2.—The income derivable from pounds was estimated at Rs. 300, and was based on the receipts available from one pound. On the 1st of May, however, which was after the submission of the budget estimate, two other pounds were opened within the municipal jurisdiction under sanction of the Commissioner of the Division (see paragraph 28 of last

year's annual report).

29. The subjoined statement shews the total number of cattle of every description impounded during the year at the several pounds, and the proceeds realized from the same:—

30. Item 3.— The income under this head was derived from the rent of the municipal serai and Mithai Mehal which were leased out in one lot. The former continues to be resorted to by native travellers, and has been worked fairly throughout the year.

31. The municipal cattle sheds situated in the proximity of the civil jail, the removal of which was anticipated (see paragraph 32 of last year's annual report), have been vacated and dismantled, a new site has been selected and taken up under the law at Nawab Dost kaem, and a substantial shed has been erected for the accommodation of all municipal cattle.

and a substantial shed has been erected for the accommodation of all municipal cattle.

33. The municipal press continues to work satisfactorily. The receipts from out-printing during the time of its existence—a period of four years—have more than covered its

original cost. The subjoined statement shows the cost and working of the press during the year :--

- 37. Collection.—The small saving under this head calls for no remarks.
 3. General Charges.—The excess expenditure under this head is due to an increase of Rs. 25 monthly having been sanctioned by the Commissioners to the salary of the Secretary at their meeting held on the 25th July.
- 39. Roads.—The saving from roads has been effected from the repairs of ballast and kutcha or fair-weather roads allotments. The expenditure on roads is thus divided :-
 - (1) Establishment.
 - (2) (3) Construction, &c., of ballast roads
 - " of kunkur " ditto
 - " of kutcha " (4) ditto
 - ditto " of culverts "
- The number, description, and extent of the roads repaired during the year by the Commissioners is as follows: -

41. The experiment of metalling the Kunchunuggur and Parbeerhata roads with kunkur (noted in paragraph 47 of last year's report), has been tried and proved very satisfactory, the result being that after the year's wear and tear these roads have remained in splendid order. The amount of traffic carried over these roads is very great, and when repaired with ball-st they were invariably, as the rainy season approached, almost impossible for vehicles. The relative cost per 100 cubic feet of the two metals inclusive of all charges is-

							ns.	Λ.,	F.
Ballast	•••	•	•••	• •	• • •	• •	8	0	0
Kunkur	• •		•••	. • •	••	• •	8	0	0

the difference in cost being so small, and the results in favor of the latter material so marked, it becomes a question worthy the consideration of the Commissioners whether it would not be advisable to introduce kunkur metalling throughout the municipal roads.

42. The kutcha or fair-weather roads within the municipality deserve the greatest attention of the Commissioners. The number and extent of the roads shown in the above statement only includes those actually repaired. It may be said without exaggeration, that

scarcely a village exists in the suburbs of this municipality within which several roads or lanes have not yet to be opened out. During the past two or three years a great deal has been done in this direction, but much yet remains to be done, the necessity for which is urgent.

. 43. A detail of the roads repaired, with the expenditure incurred on each, is given in the statement of actual receipts and expenditure which accompanies this report. The following statement will, however, show the cost and quantity of the materials and workmanship expended on roads during the year:—

45. Lighting.—To diminished expenditure on oil is due the saving under this head. The lighting of the town is not sufficient. To light the town of Burdwan properly requires at least 200 street lamps, but only 54 exist at present. The proper lighting of the town though important, must give way to the far more pressing questions of sanitary reform. It, would therefore be inexpedient to advocate at present any further expenditure on lighting.

46. Watering.—The small saving from watering is due from contingencies. The difficulty experienced in properly watering the streets during the year has been very great. It arose partly from the paucity of the watering earts, which are far from sufficient for the requirements of the town, and partly from the difficulty of procuring water out of the tanks adjacent to the roads watered, as the owners objected to allow the water to be used, alleging that it could not be spared.

47. Conservancy.—The excess expenditure under this head was unavoidable, and is due entirely to the purchase of a site for the cattle shed, for which no provision was made in the

. 48. The revision of establishment under contemplation (see paragraph 54 of last year's report) has been effected. At the commencement of the year the establishment consisted of—3 sub-overseers.

17 chuprassies.

68 mehters.

The revised catablishment is as follows:-

· 2 sab-overseers.

& chaprassics.

20 sirdar scavengers.

40 street seavengers.

10 drain ditto.

Besides the revision of establishment, the whole system and jurisdiction of the conservancy has been altered and remodelled. For conservancy purposes the municipal jurisdiction is now divided into two divisions, northern and southern, the river Banka dividing them. Each division is sub-divided into sections, which are again partitioned off into beats. The supervision of the division is entrusted to the sub-overseer, the sections to chuprassics, and the beats to sirdar seavengers, under each of whom is placed a conservancy cart with seavengers. Over the whole of the above, again, exercising a general supervision, is the municipal secretary. The result of this thorough revision is satisfactory, as every locality within the municipality is now supposed to be visited daily by some portion of the conservancy establishment.

49. Attention has also been paid to the systematic cleaning out of all drains and water-ways, pucka drains being cleaned daily, and kutcha monthly. The street sweepings are daily removed, and have been utilized in filling up holes and tanks. Eight such holes have been filled up during the year.

50. The latrine conservancy of the town has also received considerable attention, and its partial introduction during the year has been accomplished. To simplify and expedite its general introduction, it is proposed to divide the municipality into 15 circles, for the accommo-

• 51. The sites of these latrines have all been selected. They are given in the margin.

Kutchery Sham shagur Shamlall Bagh Peerbaharam Dograsohid The Shamshagur latrine, the site of which was presented to the Commissioners by the Maharajah of Burdwan, is about to be completed, and the cutcherry latrine commenced. Measures are being taken for obtaining the other sites, when the erecting of the other latrines will be commenced.

52. A large plot of land, covering an area of about 30 biggahs, has been purchased adjacent the Cutwa road, to which the night-soil removed from the several latrines will be carted and used as manure. This plot will hereafter be cultivated and the produce sold, a con-

siderable source of income will thus, it is hoped, be secured.

53. The Radhanuggur latrine, which accommodates No. 1 circle of the town, has during the year been completed. It was opened to the public on the 1st November free of charge, and has continued to work most satisfactorily. This latrine is capable of accommodating from 1,500 to 2,000 persons daily. It has been ascertained by careful observations that from 600 to 700 people now use it daily. This number will, however, considerably increase as the other

circles are brought under the system, and all open air defectations put a stop to.

54. The removal of night-soil from the private privies within the above circle has also been undertaken by the municipality. This scheme was only introduced on the 1st of April last. A small fee of six annas per mensem in advance for each privy cleaned is demanded and readily paid by the public, who have evidently appreciated the system, as it affords them a cheap and well-regulated method of keeping their privies clean. The night-soil is removed from the privies by mehters in covered receptacles between the hours of 4 and 8 a. m. and deposited in large tubs at the latrine, which tubs are again removed during the night in carts to the garden, and deposited in trenches ready dug. The trenches are then closed and the earth rammed well down over the deposit. The mehters employed in removing the night-soil from private privies receive two-thirds of the fee, the balance being paid to the credit of the municipality for the removal of night-soil from the latrine, wear and tear of tubs, carts, &c.

balance from the fees collected from No. 1 circle and credited to the municipality alone amounting to Rs. 30. Calculating the same out-turn monthly from this circle, the Commissioners would receive a yearly income of Rs. 360. This again multiplied by 15, the number of circles into which the town will be divided, will give a yearly income of Rs. 5,400. To this is to be added the income available from the public latrines, for the use of which it has been decided to charge a small fee at the commencement of the year 1872-73. There can be no doubt that when the system of latrine conservancy has been generally introduced throughout the municipality, a sanitary reform of the greatest importance will have been effected. The system, however, cannot be considered as thoroughly introduced until all well privies are closed. It has been ascertained, after a house-to-house enquiry, that within No. 1 circle, where a latrine is open, there are 370 private privies, 120, or about one-third of which are well privies. If an inquiry in each of the other circles yields similar results, there are 2,000 well privies within the municipality!

56. In any case it is certain that well privies exist in great numbers, and it is obvious that the percolations from them must contaminate more or less the neighbouring tanks and wells, and that this must be one, if not the most fruitful cause of the siekness which has prevailed in this town, can hardly be disputed. The closing of these well privies is of such vital importance that the matter will be prominently brought to the notice of the Commissioners in order that steps may be taken to that end. No new well privy is allowed to be sunk.

57. Several schemes of sanitary reform were proposed during the year, but the Commissioners decided that the introduction of the latrine conservancy was of paramount importance, and that until open air defocation had been stopped by the erection of the tall number of latrines, no real sanitary improvement could be effected. It was proposed to provide for the immediate introduction of latrine accommodation throughout the town by raising a loan, but this was rejected on the ground that it would be very difficult, if not altogether impossible, to obtain the necessary number of meliters, &c., for the proper service of so many latrines, erected as they would be almost simultaneously, experience having shown that it was extremely difficult to obtain a sufficient establishment for the latrine at present working, as dhangurs could not be induced to settle at Burdwan. The Commissioners had therefore decided that it would be safer to introduce the system gradually, and at the same time as quickly as possible.

58. An attempt has also been made during the year to cope with the "stagmant hole" nuisance so prominently noticed by the Sanitary Commissioner of Bengal during his visit to Burdwan in the year 1869-70. Besides the utilization of the sweepings of the town in filling up holes, brick-making, the excavation for which is one of the main sources of this nuisance, is now only permitted under the most stringent rules, for the proper carrying out of which brick

Aerchants are compelled to deposit security.

- 159. Included in the conservancy expenditure is the cost of the site and erection of the new cattle shed. The site covers an area of about 1½ bigahs, for which an offer of Rs. 350 was made to the owner by the late Chairman. The owner demanded Rs. 1,200. The land was ultimately taken up under Act X of 1870 for Rs. 600, as reasonable terms for its purchase could not be concluded with the owner. The total cost of the shed was Rs. 900. The budget estimate only allowed the sum of Rs. 600 for the shed, and Rs. 5 monthly for the lease of the site. It was found, however, that to purchase the land outright would be a most economical procedure in the long run. The new shed has been most substantially erected, and affords accommodation for 32 bulls. This accommodation is insufficient, in fact barely enough for the cattle used in ordinary conservancy and road purposes. At present no accommodation exists for the cattle employed in the latrine conservancy of the town which, when thoroughly introduced within the mumicipality, will necessitate the employment of upwards of 30 more bulls. Another shed is therefore necessary, and will be constructed if possible during the current year.
- 60. Police.—The saving effected under the head of police is due to a revision of the police budget, which took place during the year, and which was submitted and approved of by the Commissioners at their meeting held on the 20 h of May.
- 61. Local improvements.—In the budget estimate for the year under report, the sum of Rs. 3,500 was alloted for expenditure on local improvements, a detail of which is subjointed:—

(1)	Drainage	a .	•••			Rs.	1,000
(2)	Latrines		•••		•••	,,	1,000
(3)	Survey		• • •	•	• • •	,,	1,000
(4)	Miscellaneous	•••	•••		•••	. ,,	500
						-	
					Total		-3.500

At a meeting, however, held on the 20th September, the sum set apart in the budget on account of the survey of the town was appropriated for latrine purposes.

.. 62. The local improvements during the year may be thus divided-

- (1) Drainage.
- (2) Latrines.
- (3) Miscellaneous.
- 63. Drainage works —'The following is a detail of the improvements effected under the head of drainage works:—
 - (1) Excavation of Rancegunge main drain.
 - (2) Extension of Rancegunge bazar drain.
 - (3) Ditto Raneegunge roadside drain.
- 64. Rancegunge Main Drain.— In explanation of the Rancegunge main drain, which has been under excavation more or less to the last two years, has been given in previous reports. At the close of the year 1869-70, the way of excavation had progressed as far as the Boro Bazar bridge, the platform of which had be a towered in accordance with professional opinion (see paragraph 62 of last year's report). The work of excavating continued during the year, and was proceeded with as far as the Bohilap... a road, immediately opposite the civil jail, where it was found necessary to erect a bridge. An old bridge here spanned the drain, the platform of which was considerably above the level of the new excavation. The lowering of this platform to the new drain levels was found impracticable in consequence of the bridge being in a state of decay. A new bridge was therefore, constructed, the cost of which was debited to the drainage allotinent.
- 65. After the completion of the bridge, the work of excavation was put a stop to inconsequence of its having been ascertained that the main drain, or Shaharpanah as it is more generally known in the town, was the property of the Maharajah of Burdwan, who had sub-let the same to other residents of the town. Baboe Tara Prosonno Roy, a zemindar of Burdwan, who it appears is an possession of the Shaharpanah situated between the Boro Bazar and civil jail bridges, tendered a claim for damages for the deterioration which he said his property had undergone in value in consequence of the work done by the Commissioners. The correctness of the claim, so far as the ownership was concerned, having been ascertained by Mr. Ward, the late Chairman, amends were made by the payment of Rs. 50 to the zemindar as compensation, and to obviate future unpleasantness, the Shaharpanah lying between the bridges above named, has been rented by the municipality at a yearly jumma of Rs. 4-0-0. A small portion of the Shaharpanah remains to be excavated, and as this portion also belongs to the zemindar, arrangements are being made to take up the same on a similar lease.
- 66. Rancegunge Bazar Drain.—The extension of this drain for about one hundred feet to connect it with the private drains of several of the residents of the Rancegunge Bazar, the water from which had previously been discharged over a public road, was the improvement affected
- 67. Raneegunge Roadside Drain.—The expenditure incurred on this drain was necessitated in consequence of the Commissioners having resolved, at a meeting held on the 22nd December, to fill up a large filthy tank into which the surface drainage of a portion

of the Rangegunge mohulla had hitherto emptied itself through this drain. The providing of another outlet for the drainage being necessary, it was effected by constructing a culvert across the Rancegunge road, and connecting the same with the main drain..

68. Latrines.—The public latrine under erection at Radhanuggar (see paragraph 68

Mooruth Mohulla. Prottappore. Radhanuggur. Ticcapara. Telmaruli. Portion of Borro Bazar. Do. of Rancegunge. of last year's report), was completed during the year at a cost of about Rs. 2,600. The estimated cost of a public latrine on the plan in use inclusive of out-houses, is Rs. 2,000. The excess, however, incurred on the Radhanuggur latrine is due to the lowness of its site, which, being subject to inundations when the river Banka overflowed its banks, had to be considerably raised. The total expenditure incurred during the year in working the Radhanuggar latrine, which accommodates the

mohullas marginally noted, and which was opened to the public on the 1st November (see paragraph 53), was Rs. 232-5-3. This gives an average monthly expenditure of Rs. 46-7-6.

The monthly expenditure has during the current year been reduced to Rs. 30.

69. The average daily quantity of night-soil removed from the Radhanuggur latrine,

which includes the night-soil taken from private privies within the circle, is 19 maunds.

70. Miscellaneous Local Improvements.—The miscellaneous local improvements may be sub-divided into-

(1) → Fencing tanks.

(2)—Repairs to Serai building. (3)—Erecting sign posts.

Fencing Tanks.—The expenditure incurred during the year on fencing tanks amounted to Rs. 96-6-0, Rs. 32-3-6 of this amount is recoverable from the owners or occupiers of the tanks enclosed, and the balance is the expenditure on account of repairing the old fencing of nullas, tanks, &c., the property of the Commissioners.

72. The other items of Miscellaneous Local Improvement expenditure are shown in the

statement of actual expenditure appended, and require no explanation.

73. Miscellancous.-The miscellaneous expenditure, of which the subjoined are, the details, amounted to Rs. 5,173-10-5, or 1,181-10-5 in excess of the estimate. This excess is due, as last year, entirely to expenditure on the medical relief of the town, and was sanctioned by the Commissioners at a meeting held on the 29th July 1870 :--

74. Item 1 .- The following brief remarks will serve to explain the expenditure incurred during the year on medical relief: - At the close of last year, the establishment entertained • to give medical relief to certain mohullas within the municipality had been reduced to a native doctor and one compounder (see paragraph 79 of last report). This establishment confinued on until the month of July, when the fever, which was of a similar type to that which prevailed in the town last year, though with far less severity, showing a tendency to increase, the Commissioners resolved to increase the medical relief then being given, by establishing two dispensaries, one at Kazeerhat, and the other at Baldanga, the Magistrate also agreeing to establish a third dispensary at Ichla Bazar, the expenses attending which would be defrayed from the Burdwan Charitable Dispensary Funds.

. 75. Two dispensaries were accordingly opened on the 1st of August, to which the following establishment was allotted, which included the establishment previously entertained :-

	•				Rs.

Total 140 per mensem.

The Government dispensary was also opened at Ichla Bazar. Subsequently, the services of an extra native doctor were entertained at each of the municipal dispensaries to visit the suffering poor who were unable to attend personally for relief, as it was found that the time of one native doctor was amply taken up in administering relief to the people who attended the dispensaries. On the 20th December, a third dispensary was established at the cost of the municipality at Kunchunnuggur with a similar establishment, the Civil Surgeon having urged the necessity of the same.

76. The three dispensaries continued to afford relief until the approach of the cold season, when the fever showed symptoms of abating. The medical relief establishment was then gradually reduced, the services of the three extra native doctors being first dispensed with. The Baldanga dispensary was closed on the 15th January, the Kunchunnuggur followed on the 31st idem, and finally, on the 18th February, the dispensary at Kazirhat was closed,

when all relief operations for the year ceased.

77. For a detail of the medical relief expenditure see Appendix C.
78. The following mortuary statement, the statistics of which are furnished monthly by the police, will show the relative effects of the fever on the population of the municipality during the past two years :-

- 79. Item 3 .- This item erroneously budgeted and entered under the head of Miscellancous has been explained in paragraph 68.
- 80. Item 4.—The following civil suits were instituted during the year by the manicipality: -

Decrees in favor of the municipality have been obtained in the whole of the above. On the other hand, a suit for damages was brought against the municipality in consequence of a . distraint put in force under the orders of Mr. Smeaton, the Vice-Chairman, for the recovery of house-rate. In this case the plaintiff obtained a partial decree, against which however an appeal has been ledged.

- 81. Hem 9.- In consequence of the very insufficient manner in which graves were dug, the services of a chaptassic on Rs. 5 per mensem, were entertained to supervise the same. The Dhamrai, Ichla Bazar, and Godha burial-grounds having been ascertained to be in a state dangerous to the people residing in the neighbourhood, steps have been taken under section 79 ofethe Municipal Act to close them.
- 82. The remaining items of Miscellaneous requiring no explanation, this closes the consideration of the expenditure.
- 83. The conduct of the municipal servants has been, with the exception of the Sub-Overseer in charge of the roads, satisfactory. The Secretary, Mr. Sherman, still retains his character for energy and good management. His supervision in every department has been most satisfactory, and the manner in which the accounts, &c., are kept do him much credit. • The Head Clerk and Accountant, Baboo Ramgopaul Bannerjee, and Consorvancy Sub-Overseer, Hurnsh Chunder Mookerjee, also deserve special mention.
- 84. A statement of actual receipts and disbursements during the year under report, is subjoined.

Burdwan Municipal Comme.'s Office,

The 1st June 1871.

H. F. J. KBAN, Chairman.

From J. C. PRICE, Esq., Officiating Magistrate of Midnapore, to the Commissioner of the Burdwan Division,—(No. 103, dated Midnapore, the 25th July 1871.)

I HAVE the honor to submit herewith the annual report on the administration of the Midnapore Municipality for the year 1870-71, together with statements showing the receipts and disbursements appertaining to the Municipal Improvement Fund of the town for the same period.

2. At the commencement of the year the following gentlemen were the members of the Municipal Commission of the town of Midnapore:—

Ex-Officio.

Mr. J. C. Price, "W. Parry Davis, Major J. D. Swayne, District Magistrate and Chairman.
District Superintendent of Police.
Executive Engineer.

Dr. Mathew, Moulvie Koyrat Ali. Mea Mahomed Jan. Baboo Junmejoy Mullick.

Civil Surgeon.

- ", Okhcel Chunder Dutt.
- , Nobin Chunder Banerjee.

Mr. Parry Davis acted as Vice-Chairman from the commencement of the year to the 18th of May, when the Joint-Magistrate, Mr. J. R. Hallett, was gazetted to the office. He was succeeded by Mr. T. Norman on the 4th of November. He was in his turn succeeded by the present Vice-Chairman, Mr. J. A. Hopkins, on the 24th March. Mr. G. Micleid and Mr. J. Kimler were appointed Municipal Commissioners on the 14th April 1870. The former left Midnapore in the course of the year, and Mr. W. Serry resumed his seat.

The municipality of Midnapore comprises several villages and suburbs, and is divided into thirty-four mobullahs, containing from 33 to 619 dwelling houses each. The number of houses on which the house tax is assessed is 6,920; the p-pulation is estimated at 27,696.

The income of the municipality for the year compared with the budget estimate is-

The balance in hand on account of 1869-70 was considerably in excess of the amount estimated, because grants made for the execution of works in the preceding year were not expended. Under the head of house-rate there was a considerable deficit, which is thus accounted for:—Rs. 129-13-0 were remitted. Rs. 348-6-0 were outstanding at the end of the years, finally the assessment fell short by Rs. 205 of what was expected. By some misunderstanding allowance was not made for these contingencies in the budget. The land-rate, or rate levied on gardens and the like, fell short by Rs. 75-6-0 of what was expected; Rs. 2-1-0 was remitted; Rs. 30-4-0 were outstanding and the balance (Rs. 43-1-0) was estimated for lands which were not assessed in consequence of a dispute about ownersnip and possession. The wheel tax brings in a large amount compared with the receipts under other heads; the receipts, however, fell short of the estimate by Rs. 102. The owners of carts in outlying villages do not come forward readily to take out licenses, and the municipal officers whose duty it is to protect the interests of the municipality did not exert themselved. In the budget estimate fines were simply under-estimated at Rs. 100. The pound collections were nearly double the estimate. The management of the pound was transferred from the police to the municipal 2nd clerk; the result has been satisfactory. The total number of cattle implement was 3,042, out of which 459 were impounded by the police. Miscellancous receipts include the rents of the tanks. Hairesion diggee, Patna Bazar tank, Checreemarshye tank; Thama pond, warrant fees and recoveries; they can for no remark.

The budget was framed on the basis of a monthly expenditure of Rs. 153-8-9; the monthly saving effected was Rs. 36-8-0. The changes were not carried into effect before the 15th April. The work in the office, which the present officers are competent to per orm, is very light; the chief burden falls on those entrusted with the collection of the rates, which is done for the most part in very small sums. The expenses of the conservancy establishment exceed the estimate by Rs. 589-15-9. The regular and fixed establishment consists of an overseer at Rs. 10 monthly; 4 choprassees Rs. 20 monthly; one sind r at Rs. 5 monthly; and 30 sweepers costing a monthly total of Rs. 155; and annually Rs. 1,880. Owing to an outbreak of cholera in the months of April and May an extra force of coolies was appointed under a European overseer at a cost of Rs. 589-15-9, including contingencies. Besides these disbursements, the municipality, in accordance with the views expressed in Government memorandom No. 1141, dated 4th Match 1870, employed a sweeper on Rs. 4 monthly from 1st December to keep clean a latrine attached to the District Magistrate's office. I notice this small item, for it excited considerable opposition; a number of the Commissioners being of opinion that Government property ought to be looked on as private property, for the conservancy of which the Commissioners are in no way responsible. This opinion appears to have arisen from a mistaken notion as to the position of the Commis ioners with reference to Government: the Commissioners cannot consistently deny their responsibility for the conservancy of all places within their jurisdiction to which the public have unrestricted access. Under the head of conservancy contingencies considerable expense was incurred for the repair of the hand carts used for the removal of rubbish. Steps are being taken to secure bullock carts with a view to economise the time and labor of the establishment, the whole of which is at present occupied in removing the kitchen stuff and house refuse which lines the streets each morning, to the detriment of the heavier work of cleaning and excavating drains and mending roads.

This torce during the greater part of the past year was required to perform the watch and ward of the town only. No recognized system for the prevention of nuisances was pursued through its agency; nor has the force been instructed in the conservancy provisions of the Municipal Act and By-laws. Bengalee copies of the Municipal Act are not procurable in Calcutta or elsewhere. The sum expended on the police, Rs 5,340-4-3, bears a large proportion to the income of the municipality. Whilst the District Superintendent of Police was in charge of the municipality, and acted as Vice-Chairman, the police showed a little interest in the conservancy of the town, and the following figures give the result of their operations:—In fifty cases 62 persons were summoned, and in forty-one cases 50 persons were convicted.

The sum of Rs. 1,000 allotted to local improvements was to be devoted to enlarging the Patna Bazar tank, but the work was not executed. The sum expended, Rs. 150-12, was used in cleaning various tanks, the property of the Commissioners, in accordance with the suggestions of the Sauitary Commissioner of Bengal.

8. The sum sanctioned for reads was Rs. 3,000, of which 2,176-10-6 were spent. The total number of reads and footways to be kept in order is 262; they are all, with two or three exceptions, metalled, being cut in beds of gravel. The length of readway has not been accurately determined. Very few of the streets are straight; and no precautions have been

class, and six third class roads were repaired; besides which, a sum of Rs. 309-10-6 was spent in road works of a petty nature throughout the town.

Under the head of miscellaneous expenditure (Rs. 1,212-4-11) are some items which should have been included elsewhere. A vaccinator is paid by the municipality Rs. 10 monthly; for the year his pay is Rs. 120; the balance of Rs. 10 which appears against his name is for his pay in February 1870. During the year he vaccinated a large number of persons. During the months of May and April cooles were retained to work the fire-engine; they were bound to turn out at all hours. The other charges call for no special remark.

10. The income of the municipality is very restricted, and as a consequence the Commissioners find it a very difficult matter to meet the many calls on their funds. Strict economy has always been observed, often to the detriment of the conservancy and sanitation of the town. There is scarcely a department of the municipality in which double the sum at present allotted to it could not be spent with advantage. in some instances the

- Commissioners have been obliged to forego from want of funds, works actually necessary.

 11. The character of the town is singularly unadapted to improvement without large expenditure and extensive demolitions. The streets are for the most part narrow and crooked. The houses are irregularly placed and badly built—some quarters of the town are crowded with houses of every description; some quarters are sparsely occupied. Large tracts of low cultivated land intervene. The labyrinths of lanes, alleys, drains, defiled with the dirt of ages, defyedescription. The town is built on undulating ground: the high land is for the most part densely occupied. The intervening low-land, with its neglected tanks and wet paddy fields, intersected by khalls and drains, hidden in dense vegetation, presents a most insalubrious appearance, which the town does not deserve, for it is remarkably healthy. A survey of the whole town is in the course of completion. As soon as a trustworthy map has been prepared. and levels taken, it is hoped that a more regular system of drainage will be enforced, and more method and regularity secured in future building operations. At present buildings are erected haphazard without regard to anything except the will of the builder. That portion of the town which is occupied by the European residences and Government offices has been laid out well, and is kept in excellent order. Mallet's Khal, an immense open drain through the very centre of the town, is rendered abortive by the obstructions to drainage effected by private individuals.
 - 12. The conservancy and sanitary operations effected during the year have been briefly.

-The cleansing of tanks.

(2)—The appointment of burial-grounds and of burning-ghats.

(3)—Careful removal of rubbish.
(4)—Exeavation of drains.
(5)—Fixing a site for all slaughter-houses.

(6)—The introduction of conservancy divisions.

The details of cases in which the conservancy provisions of Act III of 1864 and the bylaws were enforced against private persons are given below:-

In 81 cases notices were issued against 120 persons; of these notices 49 were obeyed by 54 persons, and 20 orders were withdrawn; and in 12 cases 17 persons were prosecuted for disobedience; 4 cases only resulted in conviction, and 6 persons were convicted. Summonses were issued in the first instance in 178 cases, against 318 persons; of these cases 122 resulted in the conviction of 180 persons; 56 cases were dismissed, and 138 persons acquitted.

13. The health of the town, if judged by the official mortuary returns, is incredibly good. The registers show 295 deaths against a population of 27,676; of these deaths 201 were from cholera. I think I am justified in saying that the statistics are utterly unreliable for the mortality must be considerably more than 10 in a thousand. The months of April and May were very unhealthy, owing to the prevalence of cholora. The Civil Surgeon expressed a strong opinion that pilgrims on their return from Poorce should be prevented from passing through the town. He wrote-"It is believed, and I think with truth, that not a few of the epidemic outbreaks of disease that have taken place in this town are attributable to the arrival of batches of cholera and small-pox-stricken pilgrims from Poorce and other places." He suggested that pilgrims should be compelled to traverse the district by cross-roads so as not to enter any large or densely populated place. The matter was discussed by the Commissioners at a special meeting, at which it was resolved to move the District Magistrate to prevent the entrance of pilgrims into the town. The influence of the Magistrate and police was brought to bear, and satisfactory results were arrived at. Cholera has not since re-appeared.

The Municipal Hall is not yet completed: a verandah is in the course of erection. The civil suit regarding it, though decided by the court of 1st instance against the Com-

missioners, is still pending appeal.

J. A. PRICE, Chairman.

The second secon

Lovy of improper and illegal cesses by Zemindars.

From D. J. McNelle, Esq., Officiating Secretary to the Board of Revenue, Lower Provinces, to the Officiating Secretary to the Government of Bengal, Revenue Department,-(No. 225A., dated Fort William, the 12th November 1871.)

I am directed by the Member in charge to submit herewith a report,* received from the Commissioner of * No. 218, dated 11th September 1871. Orissa, regarding the levy of improper and illegal cesses by zemindars from their ryots, and to observe that the correspondence reveals a state of relations between the zemindars and their tenantry which, though generally supposed to exist throughout Bengal in a greater or less degree, has never before been so clearly and definitely brought to the notice of Government.

In the districts in the neighbourhood of Calcutta, where the spread of education has covered a larger surface, and consequently most of the ryots have formed some idea of their rights, and are prepared to resist the illegal demands of their landlords when urged beyond a certain extent, it may be presumed that the exactions of the latter are not carried to such a degree as would appear to be the case when the ryots as a body are so ignorant, listless,

and impoverished, as in Orissa.

- 3. The Member in charge, though strongly opposed to interference between the landlords and tenants, is yet of opinion that the principle may be carried It is true that the law, as it stands, would theoretically enable the ryot to resist extortionate demands for unauthorized cesses, such as those described in the correspondence, but practically the existing remedy for redress is too costly and too insufficient even when obtained, and, where the ryot is not a man of substance, is certain to terminate in his ruin in revenge for the opposition that he has shown to his powerful landlord; so that even when the ryots are aware of their rights, they very naturally prefer to bear the almost insupportable burden of oppression, rather than to follow a course of opposition which would probably result in even greater oppression, nay even in
- 4. The landlords are not only clearly bound by the terms of this agreement for the settlement of their estates, to "conduct themselves with good fith and moderation towards their dependent talookdars and ryots, and to enforce the strictest adherence to the same principles on the persons whom they may appoint to collect the rents from them," but the levy of cesses of the character specified in the correspondence has been repeatedly declared illegal.
- 5. Not only is it the duty of the Government to "protect all classes of the people, and especially those who from their situations are most helpless," a duty the performance of which they have specially reserved to themselves as a condition of the permanent settlement; but it is also their interest to carry out that duty, because the extent.—to which the correspondence discloses that the burden, not only of the taxation, which should properly fall in certain specified proportions on different classes of the community, but even of the actual personal expenses of the proprietors is thrown indiscriminately upon the lowest class, and that the least able to support it,-must of course interfere greatly with the legitimate power of Government to impose fresh taxes, and such undue and idegal pressure on the part of the zemindars, on the great and indigent mass of the people, must be attended with great and imminent perils of a political character.
- 6. Such considerations fully warrant, in such a state of things as that described in the papers under review, the interference of Government, in view to correct the admitted insufficiency of the existing laws, which have been enacted for the protection of the inferior tenantry of the country. The difficulty is to determine to what extent, and in what direction, action should be taken to effect that amendment.
- 7. The province of Orissa having been temporarily settled under the provisions of Regulation VII of 1822, the Commissioner wishes to take advantage 3

of the power, conferred on the Government by section 3 of that Regulation, to bring under khas management the mehal (estate) of any proprietor who may have engaged for such mehal, when it shall appear that the continuance of such proprietor in such mehal would endanger the public tranquillity, or otherwise be seriously detrimental.

8. This remedy, though undoubtedly severe, is not, in the opinion of the Member in charge, too severe for a determined and persistent disobedience of the law, and for continued exactions from, and oppression of, the ryots whom the proprietor is bound to protect, or at all events to treat with a due regard

to existing laws.

Before, however, enforcing so severe a measure, the utmost publicity should be given of the intention of Government to move in that direction, and for that purpose the Member in charge would suggest the enactment of a law, setting forth the necessity for affording further protection to ryots, and the determination of the Government to secure such protection, and providing that it should be lawful for the Government, on good cause shown, to authorize the Collector of a district to make inquiries as to the relations between a landlord and his tenants; and that, if great oppression be proved, the Government may exercise the power of taking the estate under khas management (with the due reservation of malikana to the proprietor), under the provisions of section 3, Regulation VII. of 1822.

To enable the proprietors generally to redress the evils complained of, the Act should not take effect until after two years from its enactment.

The Member in charge is fully aware of the responsibility he takes upon him in proposing so extremely severe a measure; but he feels convinced that the state of things described by the Commissioner is one, to permit the continued existence of which would be a disgrace to the Government, and would involve the abnegation of some of its most important duties.

From T. E. RAVENSHAW, Esq., Commissioner of the Orissa Division, to the Officiating Secretary to the Board of Revenue, Lower Provinces,-(No. 218, dated Cuttack, the 11th September 1871.)

I have the honor to submit copy of correspondence with the Collector of Balasore, No. 382 of 30th August 1871, regarding levy of improper and illegal cesses by zemindars from their ryots.

2. I have for some time had reason to believe that such conduct on the part of zemindars was not uncommon, but owing to the extreme timidity of the people, and their fear and disinclination to complain against their oppressors, I have until recently, been unable to obtain

3. What the Collector of Balasore has now brought to light represents, I believe, a state of affairs very general in all parts of Orissa, and there are few, if any, zemindars who do not more or less in some form or other, levy cosses over and above the settlement rents, and in

excess of the legitimate demands due on agreements with their tenantry.

The fact is, that the rural population are absolutely and entirely ignorant of law or of their rights, and even where they may know that these demands are unauthorized, they are too weak, indolent, or timid, to make any complaint.

5. Our laws, rules, acts, and penalties, are known only to a few of the hangers-on about the courts, and to a certain degree among the more educated and advanced zemindars; below this upper crust the force of custom and dustoor is mofussil law, and it is now little in advance of what it was in the time of the Maharattas. It is a painful fact, that notwithstanding our detailed settlement fixing the rent of every field to be paid by the ryots to their zemindars, and the revenue payable to Government by the zemindars, such gross abuse should be possible; and in the face of daily increasing direct taxation, I think it a duty we owe to the people to put a Stop to these unauthorized cesses.

6. Without special legislation the demand for or receipt of an unauthorized cess or abwab, unless attended by violence and intimidation, does not come under sections 384 or 885 of the Penal Code, and the remedy provided by section 23, clauses 2 and 3 of Act X. of 1869, is unattainable by a weak and demoralized and pauper ryot, having nothing but the fear of his.

zemindar before his eyes.

7. He is probably totally ignorant of the remedy provided by law, or if he ware; he is not in a position to cope with his zemindar in a law suit, so that the remedy is practically useless, or even supposing that he were to gain his case, the compensation is hardly worth the fields, expense and delay of a suit, with the full knowledge that he would be ever after a marked man, and certain, sooner or later, to feel the resentment and power of his zemindar,

The levy of abwabs and cesses is distinctly prohibited not only in section 9, clause 1 of Regulation VII. of 1822, but also in section 14, clause 12, of Regulation XII. of 1805; and though no penalty is provided for breach of the law, I should be disposed to look on the zemindar's conduct as a breach of the terms of his settlement with Government and warranting a cancelment of his engagement. The present settlement Act X. of 1867 (B. C.) provides for the management of estates of recusant zemindars under sections 3 and 5 of Regulation VII. of 1822, and that Regulation in section 3 authorizes the Government to take under kbas management estates where the continued admission of any zemindar may be seriously detrimental. It appears to me that the cases now reported on are of this nature, and that the action of Government is fully warranted; and I would recommend, that in order to afford protection to the ryots of these estates, and to act as a warning to other zemindars, they may be taken over on the grounds that the settlement compact with the zemindars have not been adhered to, and that their misconduct has rendered them unfit to continue to manage the estates. If this course be approved, the zemindars should be allowed a minimum malikana as maintenance, and that after paying the Government revenue, any surplus should be devoted to improvement of the properties and benefit of the tenantry. These may be considered strong measures, but I am quite satisfied that a very severe example is called for in Orissa; and in proof of this I would refer to the latter part of paragraphs 6 to 10 of my letter No. 254 of 16th June 1871, reporting on the conduct of zemindars in respect to remissions of revenue made during the famine.

At the same time, I think a public notification ought to issue on the subject, copy of which should be given to every zemindar in Orissa, warning them of the consequence of misconduct to their tenantry; and I should deem it necessary, to prevent the recurrence of such conduct, to prescribe that every zemindar shall keep a detailed account with his tenantry in a definite form, and that he be compelled to adopt a form of cheque book, in which should be entered every receipt for rent, or for every sort of payment from his ryots. The cheque would be given to the ryot, and the counterfoil should remain with the zemindars. These check books might be filed together with a jumma wasil bakee account at the close of each year in the canoongoe's or Collector's office. As a rule, receipts for rent are seldom given, or, if given, are on palm leaf, and such documents are with great facility prepared to order, and cannot be relied on.

10. I think the present reference is one which should be brought to the notice of Government, with a view to obtain orders to cancel the zemindars' leases under Regulation VII. of 1822, section 3.

From John Beames, Esq., Collector of Balasore, to the Commissioner of the Orissa Division,—(No. 382, dated the 30th August 1871.)

I HAVE the honor to report that on the occasion of the assistant collector of Bhuddruck's visiting, in his cold weather tour, the western portion of his sub-division, Pergunnahs Sosoh, Amboh, &c., the ryots complained to him of the illegal exactions of their zemindars. The petition made by the ryots was forwarded to me, and in accordance with your demi-official instructions, I directed the assistant collector to make strict enquiry into the truth of the allegations contained in it.

When the news of this order spread in the sub-division, numerous other ryots also came forward to complain of their respective zomindars, and the investigations became very

lengthy, and occupied much time.

3. In June the assistant collector submitted a report, copy of which I have the honor to forward, together with a very careful abstract of oral evidence taken by him, and a mass of documentary evidence, in the shape of receipts and written orders of the various zemindars, the whole constituting a body of proof of the most complete and convincing character.

On receipt of this report and its enclosures, I sent for the zemindars who were accused,

and called upon them for their replies.

5. Abstracts of the evidence and replies (translated into English) are herewith ferwarded. but for convenience of reference I will now state the result of the enquiries made.

 - Rahdari khurcha. Levy for costs of supplies given to regiments marching through the district.
 - Gust khurcha. Levy for supplies to the zemindar when he visits any part of 3. his estate.
 - 4. Baruni asnan. Sum raised when zemindar goes to bathe at the festival at Jajipore.

Mundir. Cost of building a temple. 5.

Bibha rusoom. Fees when a ryot's son or daughter is married.

7. Additions made to the ryot's jumma whenever the zemindar is Jummabessee. in want of money.

ಕ. Ghorah khurcha. Cost of feeding zemindar's horses.

- Poorsutum khurcha. Money collected to defray expenses when zemindar goes on pilgrimage to Pooree.
- 10. Magna. A sum exacted over and above the rent at irregular times to meet any sudden demand on the zemindar.

Hatti khurcha. Cost of keeping the zemindar's elephants. 11.

- Kanongo khurcha. A sum levied whenever the Canongo serves a notice on the zemindar, ostensibly to fee that officer, but frequently gets no further than the zemindar's pocket.
- Ameen khurcha. Sum levied whenever any ameen is sent to make a local investigation or to measure land in a butwarrah case. Some zemindars send an ameen of their own every year to measure the ryots' holdings. 13.

14. Hakim khurcha. Sum levied when the police visit the estate, or when the zemindar goes his rounds, in which latter case it seems identical with "Gust khurcha."

Mukuddum khurcha. A fee levied by the headman of the village by aid of zemin-15. daree peons.

Piada tandkar.

- Salary of peons employed by the zemindar.

 approxad. When the zemindar comes back from Pooree he Hathbhara Mohaprosad. brings some of the sacred food called Mohaprosad, each ryot has to take a handful of this and pay for it.
- Some zemindars take even more than these, but the above though not exhausting the list are the principal; they are not all taken in all estates, but many of them are universal. tion to this, several zemindars are in the habit of making their ryots supply them with cloth and other articles at rates far below the market price. Khilwan Singh, who is by far the worst of all, lends his gyots one rupee's worth of rice, at a time when prices are high, say eight seers for one rupee, and at a time when prices are low, after harvest, he takes one rupee's worth of rice, say sixty-four seers from them, thus getting sixty-four seers for eight lent, or eight times the original quantity. This he defends as quite fair.

One hundred and fifty-nine ryots were examined, and many more were ready to add their testimony to that of their neighbours. The rates at which these cesses are levied vary so much in each estate that I have thought it best to exhibit the results of the inquiry in a

tabular form in table A.

10. The zemindar's defences are of different kinds. An abstract translation of their

recorded answers accompanies this letter.

41. Rajah Khilwan Singh is an old man, unwieldy from stoutness and very indolent. He leaves much of his affairs in the hands of his agents. His answer consists of a denial of the struth of the allegations, and says that his ryots have combined to make a false charge against bim. He admits and justifies his conduct in taking dak khurcha and in lending rice at exorbitant rates. The documentary evidence is weak, because his agents were too knowing to put down these exactions under their proper names; although in one or two instance we have documents specifying the cesses to be levied which were written down for the guidance of some ignorant village headman.

12. Rajah Nursing Churun Singh also denies and says he has leased his estate, and that the lessee may have perpetrated all these offences without his knowledge. He admits dak khurcha and dealares that in the famine year he remitted reut to the lessee. He ascribes the getting up of this complaint to the enmity of a man to whom he refused to grant a lease. This, however, will not account for the simultaneous rising of all the ryots in the pergunnah.

- Gopeebulhub Mohashoy admits dak khurcka and denies all the others. He admits levying fees on marriages, but defends the practise by saying that he gives fuel, cooking pots, &c., for the celebration. He attributes the complaint to the scanty harvests of late years, which have prevented the ryots from paying their rent, and thinks this is a design of theirs to get let off altogether. But the ryots do not desire to be let off, they only ask to be allowed to live and to be relieved from the burden of excessive demands.
 - Bhagirutty Pundah is ill and cannot come in to give his defence. The other zemindars made defences similar to those above noted.
- It appeared to me that all these zemindars were lamentably and surprisingly ignorant of the state of affairs existing in their estates. Most of them leave the management of details to their subordinates or agents, a class whose rapacity is notorious in all parts of India, where they exist. The zemindar only knows that when he wants money he tells his agents to raise it from the ryots under some pretext or other, and raised it is accordingly. As no yearly audit is held in most estates for years together, the ryots have no means of knowing whether they are paying more than they ought or not, and the zemindar often deludes them even when they are conscious that they are paying too much by promising to allow for these sums in the year's accounts; but as he keeps no regular accounts and seldom holds an audit, this promise is of course fallacious.

17. The only zemindars who keep proper sheristae with accounts and the like, are the few

Bengalees settled here, the native Oriya zemindars never keep any.

18. From information which has reached me from many quarters since this enquiry commenced, I have the strongest reasons for believing that the practice of exacting these illegal cesses is universal in this district; but the ryots are so ignorant, timid and indolent that they have not hitherto complained, and the Sosoh people have only complained now, because they have been so ground down that they cannot bear it any longer.

19. As an example of credulity of the ryots, the item of tar khurcha may be cited. It need hardly be said that in fixing a line of telegraph posts that department does not call upon the zemindars to pay anything, nor does the Collector. Still the sight of the posts appears to have inspired some one with the idea that they might be made useful as a means of getting

money out of the ryots.

20. Iskool khurcha is another example of the same kind. When the school, a grant-in-aid one, was established at Bhuddruck, these zemindars put down their names as subscribers, but to this day, though frequently applied to, they have never paid up their subscriptions, and yet their ryots have been systematically taxed on this ground.

21. I could mention other impositions quite as bad as this, but to avoid prolixity I

refrain.

I beg now to submit my views as to the remedy for this state of things. Regulation VII. of 1822, section 9, clause I, merely declares that "all cesses or collections not avowed or sanctioned, nor taken into account in fixing the Government jumma, shall be held illegal and unauthorized, unless now or hereafter specially sanctioned by Government." But though the action is declared illegal, no specific punishment is prescribed; and by Act X. of 1859, section 1, such parts of Regulation VII. as refer to "complaints of excessive demand of rent", &c., are repealed, and such suits are to be tried under section 23, clauses 2 and 3 of that Act, and damages can in such cases be awarded to a ryot. But as a matter of fact this provision is inoperative, the amount of damages awarded being so small a punishment to a wealthy zemindar as to be ineffectual in deterring him from exaction.

It is doubtful whether, without an express declaration to that effect, the criminal courts could, in the present state of the law, treat these cases under sections 384 and 385, Penal Code; because inasmuch as the ryot has from his dependent position no choice but to pay, he rarely makes any show of resistance to these demands, and consequently the zemindar has

no necessity to put him in fear of injury, which constitutes the crime of extortion.

24. It would be, I think, advisable to pass a short Act declaring all such exactions punishable under section 384. Extortions they certainly are in so far that if a ryot resisted them, he would certainly be bitterly oppressed by the zemindar and probably turned out of his village; and it is especially necessary that this step should be taken for the protection of the ryot at a time when it is proposed to allow the zemindar to collect from his own tenants their share of the road cess.

I may also add that the condition of the ryots in these particular pergunnaher is miserable in the extreme, their houses have not been repaired for three years, they have barely enough cattle to plough with, they are scantily clothed and insufficiently fed, and from sheer want many of them are now working as coolies on the canals, though they have enough land to support them if they were only allowed to enjoy the fruits thereof.

-Abstract of defence of Rajah Khilwan Singh, zemindar of Talook Radhanagore, Pergunnah, Sosoh, to the charge brought against him by his ryots for exacting illegal cesses from them.

SANDTERA is not in my estate, but in Bhagiruttee Pundas, Mohanpore, &c., 17 villages

are in my estates.

The statements of Arut Raut, collecting agent of Mohanpore, Sadu Barik, Naru Patro, Bhag Mahanty, peasants; Gopi Puhan, ryot of Gohiranada, Brinda Swaye, collecting agent of Pareyapara village, Abhi Raut, Dam Behara, Man Barik, and other tenants of other villages, about my taking excess jumma, Baburta khuruch, Basonto Punchomi festivał khurcha, Baruny Senan festival khuruch, Rughoo Baboo's taharir and paddy on account of Ronce's funeral ceremony, and purchasing ghee and cloth at less than market price, and not paying 8 annas remission of rent to them, are all false.

For the last three years the rice crop having yielded a less quantity than usual in Pergunnah Sosoh on account of the inadequate fall of rain, the rvots have not been able to pay rent due to me, and paddy which they have borrowed from me, I made known my intention to them

that I would sue them.

The ryots therefore combined themselves and lodged complaints in the Bhuddruck

Assistant Collector's court against me.

On reference to the quittances given by the collecting agent, it will be proved that I have remitted them S annas rent for 1273. The ryots say now that they have not received

the remission of rent, but they never said anything to me on this point before.

Till three years after the assessment of dak khurcha on me by the Government I did not take any thing from them; but when the tax was doubly charged upon me owing to my inability to pay it in due time, I told the ryots that as they did not pay their rent I was obliged to pay double charge to the Government; I asked them therefore to give me something, and took from some ryots at the rate of haif pice and from others I pice per rupce, but many of them have not

paid me anything.

In 1273 Blag Mahanty and Brinda Swaye borrowed from me 8 porces of paddy each, and paid me 60 and 64 porces in 1274. The cause of this is, that in 1273, in Pergunnah Sosoh, the market price of p. ddy was 5 porces in a rupee, but I sold to them 8 porces per rupce. ryots instead of paying the price of the paddy in each promised to return paddy in 1274, according to the market value of that year. In 1274 paddy being sold at 60 porces in a runce, I took 60 porces from Bhag Mahanty, and 64 porces, i. c. 4 porces in excess of the actual price, from Brinda Swaye.

Abstract of Gopce Bullub Roy Mchashoy zemindar's defence.

I have not taken Iskool, Kanvongoe, Rassid, Tikkus, Hati, Tar. Gusht, Mundir, Tewai Khurnch, &c., at 3 annas 6 pie per rupce, from Khatu Padhan, Nandu Padhan, Mudun Bal, Dosi Padhan, Sankur Sahu, &c., ryots of mouzahs Laho and Belgariya.

I have taken dak khurcha from some ryots at 3 pies per supee, and from others at 2 pies

per rupee.

In 1273 I remitted 8 annas rent to the ryots. This will be proved on reference to " Besodham."

At the time of marriage of my ryots I assist them by giving fuels, pots, and therefore the ryots in return, some give me a pair of cloth and others give one rupee in cash, as a token of honor. Those rvots who are poor and helpless give only 100 "pauns" and 10 betchuts.

In 1273 I gave rice and money to many ryots, and saved their lives from the disaster of

famine.

Since three years rice being produced insufficiently on account of the inadequate fall of rain, the ryots are in arreats and complained in this manner.

Abstract of Rajah Nursing Churun Sing zemindar's defence.

I have not taken excess jun ma and khuruch as complained by Sindhu Sahu, Sindhu Padhan, Sagar Mohalie, Jogu Sahu, and other ryots.

Kunai Churun Mahanty, mustajur, had collected rent in the village of Bunt.

It appears that the ryots might have cultivated more land, and the mustajur therefore took more jumma from them.

The rypts had never before brought to my notice in regard to their paying excess jumma

and khuruch.

In 1273 Tremitted rent to the mustajur. It will be proved if the mustajur be asked on oath.

I took only dak khurcha at 3 pies in a rupee from the ryots.

Guru Churun Mozoomdar brother of Parbuttee Churun Mozoomdar, an inhabitant of village Bunt and former mustajur, applied to me for the post of mustajuree. I did not give him the post, and he is therefore not on good terms with me.

The ryots by his instigation have lodged the complaints in this manner.

Abstract of Juggernath Dass zemindar's defence.

In reply to the complaints of Rughoonath Raoot and other ryots of village Ampra and Raipore, I state that I have not taken any sum in excess of the legal jumma or any sort of khurcha,

In 1278 I remitted 8 annas rent and gave all villages to Rasick Mullick in farm.

There being a quarrel between the most and the mustajur, the ryots have complained in this manner.

Abstract of Padu Churun Mahanty zemindar's defence.

The settlement jumma of estate Kotsira being made in sicca rupee, I only take discount I anna I pie in each company rupce, and dak khurcha at 3 pie in a rupee, from the ryots. With the exception of this charge I have not taken any sort of khurcha.

I do not know anything with regard to the holding and jumma of the ryots. Dasruthy

Naka Surbarakar knows about it. In 1273 I remitted 8 annas rent to the surbarakar.

Narhuri Sahu and others were former surbarakars, but I discharged them and appointed

Dasruthy Naka in their stead.

Under this circumstance Nathuri Sahu and other surbarakars instigated the ryots to complain in this way.

Abstract of Rasik Sahu zemindar's defence.

I have not taken excess jumma and khurcha as complained by Anand Seto, Soiac Sate. Bhicarce Jenna, &c., ryots.

I only take collection charges from the ryots at 2 pice in a rupee.

The ryots being in arrears, and having borrowed much paddy from me, have complained against me in this manner.

J. Brameš.

Collector.

From W. Fiddian, Esq., to the Collector of Balasore,—(dated Bhuddruck, June 1871.) DEAR SIR,

In accordance with your request I beg to report on the existence of certain illegal cesses, mentioned in a petition drawn up by a number of rvots Preliminary. from Pergunnah Sosoh and subsequently forwarded for your information.

The petition was presented while I was out in camp, near the river Rebbo, in a part of the sub-division not often visited by Europeans, and the parties presenting it were principally ryots from a group of villages called Barahpotna, in the estate of Bhagiruthi Pandah.

The ryots of these villages suffered very greatly from the floods of 1868, which destroyed their houses and washed away their cattle. A succession of indifferent harvests has since kept them in a state of poverty, so that they have not found it an easy matter to pay even their proper rent, while exactions beyond that have been doubly burdensome.

This is no doubt the reason why they were particularly urgent in their complaints. In the latter part of the same tour however, along the western side of Sosoh, similar statements were made verbally by the ryots of other zemindars, such as the Rajahs Khilwan Singh and Nursing Churun Singh of Agurpara, and Gopeebulhub Roy Mohashoy of Cowpore.

Since then I have examined a considerable number of ryots from various parts of Sosoh

in regard to the illegal exaction of rent and other similar abuses.

Although they do not agree in all cases either as to the exact nature of the impositions or as to the amount imposed, the weight of evidence appears suffcient to show that the various zemindars of that locality are in the habit of taxing their ryots very much beyond the limits prescribed by the law, and that extra taxation has considerably increased within the last five or six years. The inhabitants of some detached villages belonging to the Keonjhur territory, but lying within the sub-divisional boundary, admitted that these extra taxes were imposed on the Mogulbundi ryots, but that they themselves were exempted. Many of the complainants expressed a great desire to be under the direct management of Government as in Government estates, and said they would then be quite content.

The cesses most generally mentioned by the ryots are four extra rent charges, termed 'dak khurcha,' 'tar khurcha,' 'school khurcha,' and tikus also a Enumeration of illegal cesses. marriage fee termed 'bihalchina' or 'paglundhy,' according as

it is levied from the family of the bride or from that of the bridegroom.

Besides these, there are a number of less important and less generally exacted cesses known as 'bussunt punchami, taharir,' 'rahadari', rusud khurcha', gusht khurcha,' kumpani batta. &c.

Another practice alleged against the zemindars is that of taking paddy, doth, ghee, fruit, &c., at very low rates, in lieu of rent, and exacting forced labor without giving any remane: ation for it.

Further, the manner of levying these rents and taxes, i.e. by quartering piyadhas on the ryet at his expense until the money is forthcoming, stationing a man of low caste at his door to prevent exit and entrance, and laying an embargo on his store of dhan in a similar way, not to mention manifold beatings and petty torturings, is not funaturally felt to be oppressive.

The principal cess is that called dak khurcha, and has arisen of course out of the dak fees levied from the zemindars under Act VIII. (B.C.) 1862. I have not the slightest doubt that this charge is recovered from the ryots by the majority of the zemindars in Sosoh, and this is probably the case with zemindars elsewhere. The rate charged appears to be from one to two pice in the rupee calculated on the original rent. The testimony of the ryots with regard to the existence of this cess is almost unanimous. In some villages it is said to have been exacted ever since the zemindary dak was established, in other villages for a shorter period.

One or two talpatra documents, written by zemindars' agents in which the item dak kantala is recorded, have been given up to me.

Tur khurcha does not appear to be so generally in vogue as dik khurcha, the term not being known in several villages. It has been devised by some ingenious person since the laying down of the telegraphic wires along the trunk road which runs through the subdivision, and the ryots have no doubt been led to believe that the zemindars pay something to Government on that account. The rates mentioned are one pice and two pice in the rupes.

Iskool khurcha is explained by the fact that certain zemindars, mainly those who are said to levy this cess, pay a monthly subscription to the Government middle class school at Bhuddruck, and this is evidently adopted as an expedient for reimbursing themselves at the expense of their tenants. The rate for this cess appears to be usually 2 pice in the rupee, but occasionally less. Tikus, or income tax charge is the most recent of the four cesses, and has not apparently been exacted for more than two or three years, except in some cases where the rents of back years had still to be adjusted.

In some villages the cess has been demanded for the first time within the current year, and several ryots stated that the annual settlement of their rents was then pending, because they had refused to pay the new imposition. In other villages the rate was increased last year

co-ordinately with the increase in the Government demand.

The amount actually taken from ryots under this head varies from one pice to one anna in the rupee.

the rupee. I have not succeeded in getting any documents with specific entries for this cess, or indeed

for any of the above cesses, except dåk khurcha.

Dak khurcha is an older tax, and one which had come to be considered more as a matter of course might occasionally be set down in writing; but it is hardly to be expected that the zemindars woull, as a rule, put into the hands of their ryots documents from which the levy of these imposition might be proved.

of these imposition might be proved.

The usual plan, as far as I can learn, is either to give receipts for the money as ordinary rent, or at the time when the annual settlement of rents is made, to demand an extra sum,

and merely give a receipt in full for the whole year.

Behachma is a fee varying in amount from Rs. 4 to Rs. 7, which is paid to the zemindar whenever a ryot's daughter is married. A similar fee of 1 Re. or 1-8, entitled pagbundhi (putting on the turban), is paid for the marriage of a son. There is very little doubt that these marriage fees are very generally exacted, and are severely felt by the poorer classes, the result sometimes being that the ceremony is indefinitely postponed in consequence; if the fees are not paid, the officiating Brahmin is interdicted from proceeding with the affair under penalty of a fine. The head ryot of one village informed me that he himself was in the habit of collecting these fees, and paying them in to the zemindar.

Basuntpunchomee is a fee said to be levied by several zemindars for payment to their Abodhan, or school-master. The term has arisen from a custom among children on the festival day called Sripunchomi or Bussuntpunchomi of going round to sing and collect small presents.

The Tahari appears to be a fee paid to the zemindar's treasurer. Gusht khurcha is levied if the zemindar goes into the mofussil.

Rasad khurcha represents a requisition made for supplies whenever a Government officer camps out in the neighbourhood, and sometimes without any such excuse. One zemindar takes a percentage for the keep of his horse and another for his elephant, while a third pays a visit to Jajpur to attend the Baruni festival, and must needs make good his travelling expenses and ceremonial fees. In one village the ryots assert that ever since the war in Keonjhur a small tess termed Keonjhuri khurcha has been collected annually. Kumpani batta is the relic of an impost levied under the old Government.

It would appear from this that the zemindars are exceedingly unwilling to pay anything beyond the amount originally claimed by the State, and any further burden, whether voluntary

or compulsory, they will endeavour, if possible, to transfer with interest to their ryots.

To mention the details which relate to the individual zemindars, Bhagiruttee Pandah of

Details as to each zemindar.

Churun Singh of ditto, Gopee Bullub Roy Mohashoy of

Cowpore, Russick Sahu of Thoyla, Nisakur Pandah Jaganath Prosad, Padan Charan Mohanty

and others, are said to exact the abovementioned cesses to a greater or less extent.

Bhagiruttee Pandah is apparently one of the chief offenders. I have examined 37 of his ryots representing eleven different villages, Randya Sindehtira Patuli, Churghurriya, Tentulia, &c.; they charge him with taking 9 or 10 pice in the rupee, over and above their ordinary rent, on account of the four principal cesses, roughly distributed thus—two pice for each of the three cesses, dâk, ischool, and tar khircha, and four pice for tikkus. In the villages of the Tintulia, Dundoo and Charghurriya, where three or four years' rents were settled on the last occasion, he is said to have collected tikkus for the whole period. In other villages he does not appear to have collected it for more than one or two years. Several ryots testify to their having paid him fees for the marriage of sons or daughters. Re. 1-8 or Rs. 2 for the former and Rs. 5, 6, or 7 for the latter; all agree that the custom prevails; a considerable number of persons also affirm that he has taken paddy from them in lies.

the market rate was 40 porces or 44 porces. Bhagiruthi

Pandah denies the whole of these charges except the last; he admits having taken paddy at 60 porces to the rupee which is very much below the market rate. There are no documents to prove that he has taken the other khurchas, but in several cases I have obtained possession of receipts for rent considerably in excess of the rates entered in the pottahs as well as requisitions for fruit and cloth at half the ordinary prices.

The marriage fee he declares he has never even heard of, a statement difficult to reconcile

with the general voice of his ryots and with the result of private enquiries,

The exactions of Rajah Khilwan Singh appear to have been more varied and more oppressive even than those of Bhagiruttee Pandah. Sixty-eight Rajah Khilwan Singh. ryots from eighteen diff rent villages in his estate have been examined on this subject. In addition to the four main cases, marriage fees, and subsidies of paddy, cloth, ghee, &c., at low rates in payment of rent, he is charged with exacting Basuns punchami at one pice in the rupee, Baburta kourcha for the benefit of his Baburta or manager, Rughoo Baboo, Tahari for his treasurer Ruginoo Baboo, Gust khurcha, Baruni khurcha, and small sums to defray the cost of a temple and tank constructed by his orders at Maltira in 1277 and of a tank made at Andhya in 1273 (the famine year). He is also said to have taken paddy on the occasion of the rance's death in 1274; money fees in connection with the marriage of his steward's nephew, and rassad whenever a Government official encamped in the neighbourhood. He denies having taken dak khurcha and the other three principal cesses. I have one document however dated 1270, and purporting to be a list of rents and other dues, in which the items alk khurcha and Bahurla khurcha are recovered. The ryot who brought it forward states it was written out at the annual settlement of rent, the rajah's gomasta dictating. I have no doubt the document is genuine.

The rajah admits having taken paddy instead of rent, at the rate of 60 or 64 porces to the rupee, and borrowed paddy in the year of the famine for the excavation of a tank.

The ryots say he took it compulsorily, and one man files receipts, signed by the rajah himself, for a quantity of paddy borrowed in this way, which has never been repaid up to the present time. On the other hand, for the small quantities lent by him to various ryots the same year, he is said to have recovered eight-fold in the following year.

Receipts for cloth in payment of rent at half the market price under the rajah's signature

are acknowledged by him but not explained.

He admits having attended the Baruni festival at Jajipore in 1275 or 1276, and called upon the ryots for a contribution of Rs. 40 or 50 towards his expenses, but asserts that he gave receipts for the money. No such receipts are forthcoming, and the ryots all agree that it was an extra charge.

He does not really denv that demands for rice were made when the rance died. He admits taking rassed from the ryots, but pleads payment for it. He had a temple and tank constructed. at Maltira in 1277, but denies that the ryots contributed anything towards that expense.

The rest of the charges he denies. Much more evidence comparatively has been taken about the exactions of these two zemindars. There is good reason however to believe that some of the others, such as Rajah Nursingh Churun Singh and Gopee Bullub Roy Mohashoy, have not fallen very far short of them in acts of oppression.

Eight ryots from the village of Bunth complain that Rajah Nursing Churun Singh exacts from them about 10 pice in the rupee on account of dak Rajah Nursing Churun Singh. khurcha, iskool hhurcha, tikkus, gusht khurcha, and rassad; takes marriage fees, viz. Rs. 5 for a daughter and Re. 1 for a son, and recovers from them the keep of his horse. No mention is made of tur khurcha. One of these ryots has brought forward a document given to him by the surbarakar, in which dak khurcha and another (gonda khurcha) are entered.

All the charges are denied by the Rajah. Twelve ryots belonging to village Naho, in the zemindaree of Gopes Bullub Ray Mohashoy, have been Gopee Bullub Roy. examined. They alleged that the illegal cesses imposed upon them amount to three and a half annas in the rupes; and Calculated on the rent. include dak, tar, and iskool khurchas, tikkus, charges for the canoongoe, for his elephant, rassad his lodgings in the mofussil, and a temple at Cowpore. He also takes Rs. 6 at the marriage of a ryot's daughter, Re. 1 for that of a son, and dhan at half prices in lieu of rent. He has not been examined on the subject.

Russick Sahu is said to have exacted for the last four or five years tar, dak, and iskool khurchas, and company bata. He only admits having taken Russick Sabu. two pice in the rupee for what he calls sabick khurcha. Even this amount is equivalent to the income tax of last year.

According to the ryots of Sursoda, their zemindar, Nisukur Pandah exacts four annas khurcha, in the rupee. Keonjhuri, a tax levied from the time of the Keonjhuri war, tikkus, dak khurcha and pyadah fees, are included in that sum. He also takes a fee of Rs. 4 on the marriage of a daughter, Re. 1, for that of a son, and paddy at low rates in payment of rent.

• Juggernath Prosad, zemindar of Ampore, takes it is alleged, about seven pice in the rupee.

No mention is made of marriage fees. For the last three Juggernath Presad. years he has leased the estate to Russick Mullick. The ryots of Kotsiri say they pay to their zemindar.

Padan Charan Mahanty fourteen pice in the rupee for illegal cesses, among which are included tikkus, tar khurcha, sripunchomi, company khurcha, dåk khurcha, &c. The usual marriage fees are also exacted. The zemindars explain all these charges and complaints by representing that the ryots are unwilling to pay their rents and have sought this method of avoiding payment. Many of those whom I examined however produced receipts for the whole or nearly the whole of the rent due from them up to date. It is not likely either that a large number of persens from different villages would all combine to devise the names of these illegal cesses; the idea of iskool khurcha, for instance, would searcely occur to the mind of any one except the zemindars, who pay the subscription. As far as I could judge, the statements made were correct as to the general facts. It may be said that the ryots have their remedy in the revenue courts, but many of them are too poor to pay the necessary expenses of a suit, are too ignorant to attempt anything of the kind, or think it useless resisting the zemindars with his money bags. Those of them who have been prepared to sue the zemindar, or threatened to do so, have got off much more lightly; many say they cannot maintain a livelihood much longer in this state of things, but will be obliged to remove to some other spot where the conditions of living are more favorable. What is wanted is that they should be better acquainted with their rights and be more confident in asserting them. An authoritative declaration published in each village, and a similar authoritative notice issued to each of those zemindars, will probably conduce to that result in some measure.

From H. D. Dampier, Fsq., Secretary to the Government of Bengal in the Revenue Department, to the Secretary to the Board of Revenue, Lower Provinces,—(No. 4513 dated Fort William, the 12th December 1871.)

I AM directed to acknowledge the receipt of your letter No. 255A, dated 12th October, with its enclosures, on the subject of illegal exactions practised by zemindars in Orissa, and I am at the same time to thank the Board, the Commissioners, and the local officers, for bringing to the Lieutenant-Governor's knowledge the facts therein disclosed.

- His Honor entirely agrees with the Board as to the necessity for taking action in the matter. Indeed, in one respect he would go further than Mr. Schalch, since he does not entertain that reluctance to interfere between the classes who are in these provinces called landlords and tenants, which the Board seem to feel. No doubt, if landlords were absolute and complete owners, and ryots were all simple tenants without rights, interference might not be desirable so long as these relations subsisted, except in cases where the public safety and tranquillity urgently required it. But neither by the terms of the original settlement and original laws of these provinces, nor by modern laws, are zemindars unlimited proprietors, or ryots without rights or claims to protection. The code of 1793 recognized in the fullest manner the rights of the ryots to hold at the established rates, and to be freed from abwabs, these vexatious imposts over and above the public revenue or rent; and that code is full of provisions and declarations making it clear that the intention of the framers was by no means to abstain from interference between zemindars and ryots. On the contrary, the duty of protecting the lower mass of the community—the ryots—was recognized and asserted by the Government of that day in the amplest manner. Some of the most salient declarations of the kind are very pertinently quoted in the Board's letter. The practice, it is true, has scarcely come up to the theory of these early laws; and it is to be feared that zemindars have in many respects set them at defiance: but His Honor thinks that the interference of Government, when cases of oppression and illegal exaction are brought to light, needs no apology as for abnormal action forced upon it by stress of circumstances in opposition to general principles; rather would it be a ground of reproach to the Government if under. such circumstances it should fail to interfere effectually.
- 3. In the case of Orissa the obligation to protect the ryots from illegal exactions seems to the Lieucenant-Governor to be unusually strong. The Orissa Regulations of 1805 are just as decided and clear in their provisions as those of 1793. Moreover, the zemindars of the temporarily-settled districts of Orissa are less properly landlords, and the ryots are less their tenants than elsewhere. The thanee ryots are, in fact, distinctly proprietors, with each of whom Government has made a distinct settlement, while the zemindars are only collectors over them. As respects the people now called zemindars, Mr. Campbell is not sure whether a proprietary right has to this day been formally conceded to

all of them. At any rate, His Honor believes that up to the time of the settlement under Regulation IX of 1833 many of them had no such rights, but were sarbafakars or managers on behalf of Government, and that only. It is intolerable that people in the position of the Orissa zemindars should exercise such tyranny as is depicted in this correspondence over people who stand in the relation to Government which their ryots occupy; and I am therefore to request you formally to warn the zemindars of Orissa generally that if they continue to make any of the exactions described in your communication under reply, Government will certainly exercise the power vested in it by Regulation VII of 1822, section 3, and bring their estates under khas management. I am also to refer to your letter No. 136A, dated 3rd July of the present year, with its enclosure, and the orders of Government thereupon, from which it would appear that remissions of revenue made in consequence of the late famine never reached the ryots, and that ekrarnamahs, certifying total remission of rent, were taken when a part only had really been remitted. This communication and your letter under reply, as well as information which has reached him from other sources, leads the Lieutenant-Governor to fear that the zemindars of Orissa are a specially unscrupulous and incorrigible set of men, in dealing with whom strong measures are absolutely necessary.

• 4. As regards the past, I am to say that Government still reserves the power of treating, under the section above quoted, cases which, as peculiarly aggravated and fitting for an example, render such a course desirable; but before passing definite orders, the Lieutenant-Governor desires that you will call upon the particular zemindars named in paragraph 6 of Mr. Beames' letter No. 382, dated 30th August, to state any reasons which they may be in a position to give why their estates should not, under the provisions of Regulation VII of 1822, section 3, be brought under khas management.

5. I am further to add that as there is reason to fear that the evil represented in the present correspondence is not confined to Orissa, and as representations have been made to the Lieutenant-Governor of the widespread existence of similar practices in many parts of Bengal, the correspondence will be circulated with the view of eliciting a clear expression of opinion from officers in other parts of the country as to the extent to which these practices prevail and the mode in which they can be checked, whether by special legislation or otherwise.

State of the Salt Market for the second quarter of 1871-72.

From F. B. Peacock, Esq., Officiating Secretary to the Board of Revenue, Lower Provinces, to the Secretary to the Government of Bengal Revenue Department,—(No. 501C, dated Fort William, the 24th November 1871.)

A. Money, Esc. c.s.

Report on the state of the Salt market for the 2nd quarter of 1871-72, comprising the months of July, August, and September last.

The total quantity of salt consumed amounted to 24,22,956 maunds, against 15,58,639 maunds in the previous quarter and 26,02,042 maunds in the corresponding quarter of the previous year; and the total amount of duty levied was Rs. 78,74,607, against Rs. 50,65,576 and Rs. 84,56,636 in the previous and corresponding quarters respectively.

2. The quantity of Government salt sold at the Presidency under whole-sale rowannahs amounted to 1,625 maunds, as shown in the margin, giving a monthly average of 541 maunds against 1,703 maunds in the preceding quarter. The whole of this quantity represents the clearances from the Hidgelee stocks.

• 8. The sales of Government salt at Poorce amounted to 1,675 maunds, against 300 maunds in the preceding quarter and 2,260 maunds in the corresponding quarter of 1870-71.

4. The quantities of excise salt sold in Cuttack, Balasore, Pooree, and the 24-Pergunnals, from the stocks of the different seasons, and the quantity which remained in store at the close of the quarter, are shown in the following statement:—

^{*} This quantity has been transferred to Cuttack for salo.

It will be observed from the above that the total clearances of Excise salt during the quarter amounted to 77,257 maunds, against 89,661 maunds in the previous quarter and 92,443-2 maunds in the corresponding quarter of 1870-71.

5. The subjoined statement shows comparatively the total importation into the port of Calcutta, and the total clearances of sea-imported salt during the quarter, and the corresponding quarter of the two preceding years:—

13. Referring to paragraph 2 of Government order No. 3545, dated 18th September last, I am directed by the Member in charge to state that the quantity of Pungah salt in Pooree in June 1870 amounted to 1,07,359 maunds, and as it was reported by the Collector that it was in a deteriorating condition, it was arranged, in consultation with the local officers, to dispose of the entire quantity by public auction at an upset price of Rs. 3-8 per maund. Notices were accordingly published inviting purchasers in the Calcutta, Exchange, and Orissa Gazettes. In September 1870, the entire stock was put up to auction sale divided into four lots, of which three lots, comprising a quantity of 68,597 maunds, was sold at prices varying from Rs. 3-9 to Rs. 3-10-6, and the necessary agreements taken from the buyers. One lot, consisting of a quantity of

40,762 maunds, stored in the Mcetakooah golahs, failed to realize the upset price It has accordingly been reserved for future sale, as it was considered that to sell it at a lower rate would be scarcely fair to the manufacturers.

The clearances of the 66,597 maunds sold in September 1870 had, in June last, only amounted to 7,662 maunds; and as one of the conditions of sale was that buyers were to pay the price as they cleared the salt from the golah, Mr. Money considered that it might be better to re-sell the entire quantity at a lower rate, if the former purchasers were not prepared to clear in a reasonable The only doubt was as to the effect on the Poorce manufacture. The Commissioner was accordingly requested to favor the Board with an expression of his opinion.

In reply the Commissioner reported to the Board that the Collector was of opinion that if the salt was to be re-sold, it would not pay purchasers to give more than from Rs. 3-7 to Rs. 3-5 per maund for the entire stock. Commissioner doubted very much whether, if the salt were to be re-sold, purchasers would be found willing to pay down their entire amount of duty at once, and thought that under any circumstances it would be necessary to

permit the duty to be paid on delivery.

It was at the same time reported that the auction purchasers of two out of the three lots sold in September 1870 asked, either to have the sale cancelled, or to be allowed the following terms: 1st, liberty to export by sea to Balasore; 2nd, to be allowed a period of two years to clear the salt; and 3rd, to pay

only Rs. 3-5 per maund as the salt was sold.

The Commissioner, thinking it most desirable to get rid of the entire stock of Government salt, advised its being put up to auction again, and re-sold at an upset price of Rs. 3-4, with permission to export any quantity on payment of duty, on a refund of duty being guaranteed in the event of any bond

fide loss occurring to the salt in transit.

Mr. Money has, however, pointed out to the Commissioner that to sell the salt at Rs. 3-4 per maund, which is merely the duty, would be tantamount to destroying it, as it would displace other salt which would otherwise pay On the whole Mr. Money considered that this salt had better be kept, and the expense of the necessary establishment incurred for the present. regard to the salt already sold, but which the buyers would not clear, there are still 57,760 maunds left in the golahs. If this salt was sold at Rs. 3-5, the Government would in fact realize only Rs. 3,610. Under these circumstances, it seemed best to leave matters as they are.

The Commissioner was at the same time informed that in order to meet the purchasers half way, Mr. Money would allow them eighteen months, from September last, to clear the remainder of the salt,—the clearing price being Rs. 3-7 per maund,—the salt being sold outside the division. That if the parties did not agree to the above terms, that they were to be kept to the terms under which they had purchased, and to the rates at which they did so. While this report was being drawn up a reply has been received from the Commissioner, saying that the purchasers are not willing to accept the above terms, and there appears therefore no alternative but to leave the conditions of the original sale

unaltered.

CALCUTTA MUNICIPALITY.

Mr. Bernard said the report of the Select Committee on the Bill to extend the borrowing powers of the Justices of the Peace for the town of Calcutta had, he believed, already been in the hands of hon'ble members. In the list of business a notice stood in his name that he proposed to ask His Honor the President to suspend the Rules of the Council in order that the report of the Select Committee may be taken into consideration with a view to the settlement of the clauses of the Bill. But he was not now going to make that request. This Bill had only been before the Council one week, and it had scarcely been before the public at all; and as it was a serious matter, thus adding to the responsibilities of the town by enabling the Justices still further to increase their already large funded debt, it seems better that the rules of the Council should not be further forced, and that full time for the publication of the Bill should be allowed. He did not therefore intend to ask for the suspension of the Rules.

HIS HONOR THE PRESIDENT said, that before putting the question that the report of the Select Committee be received, he must say that he was very glad that the hon'ble member in charge of the Bill had withdrawn the motion which he proposed to make to apply to the President to suspend the rules in order that the Bill should be taken into immediate consideration. He felt that in a question of this kind the responsibility of suspending the usual course of the rules, which require the publication for a certain time of a Bill of this kind, would have rested on him individually. He might say that in the case of a Money Bill of this kind he was very unwilling to take such a responsibility. Much had been heard of late of the growth of public opinion in Calcutta; and it had been said that the Government must defer to that growing public opinion. He must say that in some matters public opinion is very active and very quick, but that in regard to other matters public opinion was still exceedingly slow. This question of a very large increase to the borrowing powers a of the Justices, and consequently to the debt of Calcutta, was one of very great importance. It was proposed in this Bill to authorise the municipality to borrow thirty lakhs of rupees, that is to say, a sum of about two years of their gross income. If His Honor might compare comparatively small things to greater, it was to this town as important a Bill as a Bill would be in the British House of Commons to enable the Government to borrow 150 millions sterling, which is about two years income of the United Kingdom; yet, His Honor was disappointed to find, that on this subject public opinion has not pronounced itself in the most remote degree one way or the other. On that

account His Honor was the more unwilling to suspend the rules, which required that the Bill should be published for the usual term. He was very anxious indeed that this Bill should be thoroughly considered and discussed by the public in order that the inhabitants of Calcutta should be fully alive to the obligations which they undertake, at the same time that they appreciate the benefits which they are likely to receive from the expenditure of this money. Although then, His Honor knew that the municipal authorities were very anxious to proceed with this work—a work of the utmost importance to the health of the community—still he was not willing to take upon himself the responsibility of proceeding with this Bill with unusual haste. Consequently this Bill will be published in the usual manner, and the Council will consider it after the full period of publication. He very earnestly hoped that during that period there would be something more than a passive expression of public opinion; that there would be some evidence that the inhabitants of Calcutta are considering a matter which so vitally affects them; that they are not merely sleeping over it; and that they have made up their minds that this is a wise and advisable measure.

His Honor would say a word more on the subject of this Bill. Although he was not prepared to give notice of the exact form of the motion which he may possibly bring forward, yet he should like to tell the Council that he had it in his mind that it may be desirable to put a rider to a Bill of this kind by which a statutory obligation may be imposed on the municipality borrowing under this Act, requiring and enforcing upon it the obligation of establishing a sinking fund for paying off the loan within a moderate period, say thirty years. His Honor was quite aware that that prudent course had hitherto been followed by the municipality under its present management. He was also aware that that condition had been imposed on corporations and other bodies which have borrowed money from the Government. But he understood that there was no statutory obligation of the kind imposed on the Calcutta Municipality; and it may happen that in case the municipality finds itself in difficulty, possibly under less prudent management or under the influence of different ideas from those which have hitherto influenced it, the Jutices might suspend the operation of the sinking fund, and for anything that appears upon the face of this Bill, might borrow without making provision for the establishment of a sinking fund. His inclination was to suggest to the Council that when the Council proceeds to the consideration of the clauses of the Bill, it might be advisable to put in a statutory obligation on the municipality when undertaking these loans, not only to pay the interest, but also to set apart a certain sum towards the formation of a sinking fund, in order that posterity may not be burdened with the obligations which are undertaken by the present generation. His Honor therefore in an informal way begged to give notice that he should, if advised that it can conveniently and prudently be done, submit to the Council such a provision as he had alluded to.

The further consideration of the Bill was then postponed.

.MOFUSSIL MUNICIPALITIES.

Mr. Rivers Thompson said, as there was no other business on the paper, before His Honor the P esident adjourned the Council and fixed a day for its next meeting, he wished to put a question to the hon'ble member opposite (Mr. Bernard), with reference to one of the Bills which he introduced at the last meeting of the Council, namely the Bill for the consolidation and amendment of the law relating to Municipalities. With regard to that Bill he (Mr. Thompson) believed it would be expedient that some steps should be taken for its publication before it came before this Council in its next stage. If the Council met that day fortnight, probably it is the intention to bring forward the Bill on that day or at the first meeting held in January. Since the proceedings of the Council at its last meeting held in January. Since the member of the communication with some native gentlemen of position in Calcutta who had expressed great anxiety in reference to some remarks which fell from His Honor the President, and to the speech of the hon'ble member opposite. The

and a second to the second to

anxiety to which he (Mr. Thompson) had alluded was with reference to the possibility of compulsory taxation through municipalities, and it was feared that local taxation might be largely increased by that measure. Not being aware of the details of the Bill, he had not been able to give any further assurance in the matter than that it would not be brought forward without ample time being given for discussion and consideration both by the Council and the public. The question therefore that he wished to ask the hon'ble member was whether, if the reading of the Bill in the Council, which was the next stage of the measure, was fixed for the next meeting of the Council, the opportunity would be taken of publishing the Bill as soon as possible, so that with the details of the Bill before the Council sufficient time might be given for its careful consideration.

RAJAH JOTEENDRO MOHUN TAGORE said, he was in a position to bear out the remarks of the hon'ble member who had just spoken. It had come to his knowledge that there had been some degree of alarm amongst the community with regard to the Bill to which the hon'ble member had alluded. People seemed to think that the long list of taxes which had been mentioned by the hon'ble member in charge of the Bill would sit heavily on the communities on which they were to be imposed, and on which the burden of taxation was already great; but as neither the principles of the Bill nor its details had as yet been settled, it would be premature for him to hazard any opinion on the subject. That a Bill of such an important nature should be placed before the members of the Council in sufficient time before it was brought on for discussion was exceedingly necessary. He thought it would be also very desirable that this Bill should be before the public for some time to allow full consideration being given to it, and if he mistook not, the hon'ble President himself had expressed an opinion to that effect. He had therefore much pleasure in supporting the suggestion of the hon'ble member who had just spoken.

Mr. Bernard said that in reply to the hon'ble member opposite he would ask leave to state the course which he proposed to pursue with regard to the Bill to which allusion had been made. In the first place the Bill had to be laid on the table, which he hoped would be done on Saturday next or whenever the next meeting of the Council may take place; and before the Bill was laid on the table it would be in the hands of hon'ble members. After the Bill was laid upon the table, and before it was brought forward for the next stage, there would be such interval as the Council may deem necessary, either a fortnight, or three weeks, or a month. The reading of the Bill in Council was the most important stage of a Bill, for the principles of the Bill are best discussed and considered at that stage. It will be possible to publish the Bill and make it known to the public before it is read in Council, if the President permitted: but as His Honor had told the Council at the last meeting, he was sure that the framers of the Bill will in no way desire to hurry it through its several stages. The Council had a long session before them, and this Bill was the longest and perhaps the most important measure we had to consider. He should hope that . there should be at least an interval of three months before the Council is asked to pass the Bill.

HIS HONOR THE PRESIDENT said, he was extremely glad that the hon'ble member had afforded him the opportunity of obviating all possibility of misapprehension on the part of the public as to the intentions of the Government with regard to the Bill. There never had been any intention to harry the measure through the Council. As the hon'ble member in charge of the Bill had explained, the wish of Government is to have the most deliberate consideration given to the measure. In fact the announcement of the Bill had been made somewhat before the Bill was in a proper shape to be laid before the Council, in order that the Council might have ample time for its consideration and discussion. A beginning had been made to manure as it were the mind of the public, and to prepare them for the consideration of the measure. The Bill is as it were on the stocks: the general lines and principles on which we propose to construct the Bill had been explained, and it will be before the Council

for some time, in order that both the Council and the public may have the

most complete opportunity of considering it in its fullest details.

His Horor thought it necessary at the last meeting to explain that it was only proposed to give municipalities the choice of a long list of different classes of taxes which they may themselves impose; but an explanation of that kind cannot be too often given; and he again said that it is not for a moment intended to impose all these taxes together; they were put forward as affording an immense variety of good things so as to give to all an opportunity of choosing what they like best. In regard to the expressions which had fallen from hon'ble members that there is some fear abroad that the Government is going to impose a good deal of new taxation, he believed when they saw the Bill they would find that the obligatory taxation is scarcely, if at all, to be increased. Certain duties, such as the maintenance of police, are now an obligation on municipalities; those obligations it is not proposed largely to increase. But it is proposed very widely to extend the principle of voluntary taxation on the part of the people themselves. When His Honor spoke of voluntary taxation, it might be said that he meant taxes imposed by the municipal commissioners, and that this is not, strictly speaking, voluntary taxation, because the commissioners may be nominated by the Government. The circumstances of the country are peculiar, and it would not be possible in the present session to draw clauses which should make an elective Council part of the obligatory constitution of these municipalities; but His Honor was ready to declare for the information of the Council and of the public, that as far es he is concerned his hope and wish is to give the widest effect to the elective clauses of the Bill--clauses which will afford the means, wherever practicable, of establishing something like an elective constitution in municipalities. It is the great object of Government to create self-governing municipalities; and if His Hohor should be permitted to hold for some length of time the position which he at present held in the Government, he hoped to devise means by which voluntary taxation may be imposed by the true and real representatives of the people, and with the consent of the majority of those persons whom they really and truly represent, and for whose benefit the money is to be expended.

The Council was adjourned to Saturday, the 30th instant.

NOTE.

Barometric Pressure. - The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page by adding the weight of a column of air of the corresponding temperatures given in column 17. For stations of above 500 feet elevation, the reduction is made by Dippe's tables as given in Guyot's "Meteorological and Physical Tables."

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page by adding 1° Fahr. for every 350 feet.

Wind Direction .- The mean wind direction and its comparative prevalence are calculated from the woole number of wind observations recorded during the half month. The latter is given as a percentage of the whole number of observations. The mean direction is calculated in the usual way by Lambert's formula.

The above being all comparable, afford the data for constructing a meteorological chart for the half month, which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tacles.

Cobernment of India.

LEGISLATIVE DEPARTMENT.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 21st December 1871, and was referred to a Select Committee with instructions to make their report thereon in a fortnight:—

No 25 or 1871.

A But to amend Act XII of 1870 (the Native Passenger Ships Act.)

Whereas it is expedient to amend Act XII of 1870 (the Native Passenger Ships Act): It is hereby enacted as follows:—

1. Instead of the second paragraph of section
Amendment of sec. 2, two of the said Act, the
Act XII of 1870. following shall be read:—

"Nothing in this Act applies to any ship-ofAct not to apply to war or transport belonging
to, or in the service of, Her
Majesty, or to any ship-of-war belonging to any.
Foreign Prince or State, or to any ship under
contract with the Government of any European
Or to atcam vessels
conveying public mails.
State, or to any steam vesconveying public mails.
sel employed in the convoyance of public mails, under a boutract, to places
beyond the coasts of British Iudia or Ceylon."

Amendment of sec. 1. 2. Instead of the last paragraph of section four of the said Act, the following shall be read:—

"Native Passenger Ship' mean a vessel, whether sailing or steam, carrying more than thirty passengers, being

natives of Asia or Africa, which may depart or proceed on any voyage from a port or place in British India or in the said dominions to any port or place in the Red Sea or Persian Gulf, or which may arrive at any port or place within British India or the said dominions from any port or place in the Red Sea or Persian Gulf, shaving on beard more than thirty such passengers."

- 3. After section twelve of the said Act, the following proviso shall be added:—
- "Provided that, in the case of steam ships, the officer aforesaid may, if under the circumstances of the case he thinks fit, reduce the space to be appropriated to passengers in the between decks under the requirements of the section, to a space containing at the least nine superficial and fifty-four cubical feet of space for every adult passenger on board."
 - 4. After section twenty-one of the said Act, the following proviso shall be added:—

"Provided also that, in the case of steam ships provided with a condenser, the officer authorized in that behalf may, if under the circumstances of the case he thinks fit, reduce the amount of water to be provided under the requirements of this section to an amount not less than three gallons to every week of the declared duration of the voyage for every passenger on board."

Act to be read as part of Act xII of 1870.

5. This Act shall be read as part of Act XII of 1870.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is (1) to remove a doubt which has been expressed as to the applicability of chapters 1, 2, and 4 of Act XII of 1870 to steam vessels; (2) to define with more precision the meaning of the expression 'Sea-going Steam Vessel" in section 2; and (3) the provide, in the case of steam vessels, some relaxation of the rules contained in sections twelve and twenty-one, as to space and water, which have been represented to be unnecessarily strict.

F. S. CHAPMAN.

The 8th December 1871.

II. S. CUNNINGHAM,

Offg. Secy. to the Council of the Govr.-Genl. for making Laws and Regulations.

Ditto ditto Southern India Brahma Samaj, dated 1st December 1871.

General of India for the purpose of making Laws and Regulations to which the Bill to legalize marriages between certain Natives of India not professing the Christian Religion was referred, have the honor to report that we have considered the Bill and the further papers noted in the margin.

2. The unanimous opinion of the Local Governments being unfavorable to the original Bill, it was at first proposed to confine its operation to the Brahma Samaja, and to require persons availing themselves of its provisions to sign a declaration of membership in that sect.

3. We found, however, that this proposal was objected to by the section / f the Sámaja which calls itself the Adi Bráhma Sámaja, who regard themselves as being still Hindús, and deprecate all legislation on the subject of Brahmist marriages, as implying a doubt, which they do not feel, as to their present competence to contract valid marriages, and object to a Bill the title of which would imply that the other sections of the Brahmists have an exclusive right to that title.

4. On the other hand, we found that the Progressive Brahmists had no objection to declare that they were neither Hindús, Muhammadans, nor Parsis, and would be satisfied with a Bill providing a valid form of marriage for persons who

were prepared to make a declaration to that effect.

We have therefore confined the Bill to persons who, not being either Christians or Jews, do not profess or have renounced, or have been excluded from, the Hindu, Muhammadan, Parsi, Buddhist, Sikh, or Jaint religion. We provide that the parties to any marriage under the Act must at the time be unmarried; that the man must be eighteen years of age, the woman fourteen, and that if she be under eighteen, the parent or guardian must consent; and that they must not be connected in any degree of consangainity or affinity which, by the law to which either of them is subject, would render a marriage between them illegal.

6. We have provided that persons marrying under the Act shall not be permitted to marry another person during the lifetime of the wife or husband, whatever form of religion they may, at the time of such second marriage, profess; (2) that the Indian Divorce Act shall apply to marriages under the Act; (3) that the issue of marriages under the Act shall be subject to the English law of consanguinity and affinity; and (4) that the Indian Succession Act shall apply to all persons marrying under the Act and the issue of such marriages.

7. In section 15, we provide that nothing in the Act shall be deemed to affect the validity of any marriage not solemnized under the Act, or of any mode of marriage other than the one provided in the Act.

- 8. We have provided, in section 16, that all marriages contracted before the passing of the Act between persons, who might have married under the Act had it been in existence, may be registered within a year, and shall thereupon be as valid from the date of the marriage as though contracted under the Act.
- 9. We recommend that the Bill and report be published in the Gazette of India, and that, subject to the foregoing amendments, the Bill be passed.

> R. B. CHAPMAN, Secy. to the Govt. of India.

No. 3232.—The 21st December 1871—Leave and Allowances.—Difficulties having been found in applying the various rules regarding the salary drawn by officers in appointments of which the pay rises from a minimum to a maximum, the Governor-General in Council is pleased to direct the publication of the following statement of the rules in force for the counting of increments of progressive pay and salary. Sections VII. VIII, and IX. of the Acting Allowance Code are superseded, being with the following modifications incorporated in these rules:— No. 3232 .-- The 21st December 1871 - Leave and Allow-

Modifications. -(1)—The rule in clause (b) of section VII ceases to have effect; until the publication of the Acting Allowance Code, it applied only to ministerial officers and to the classified list of the Financial Department; and, in all but extreme instances, the rules now published give

the same allowances.

(2)—The privilege conceded in clause
(c) of section VII is restricted to appointments, the minimum pay of which is not less than Rs. 100: and it is extended to substantive appointments as well as officiating.

No refunds need be demanded in consequence of these

Rules for counting increments in progressive salaries.

- I (a). When an officer is first appointed (whether the appointment be substantive or officiating) to an office of which the pay is progressive, and the minimum pay is not less than Rs. 100, the pay of the appointment shall, for the purpose of calculating his salary, be ascertained by counting towards the increments any continuous period in excess of a year immediately preceding the date on which the appointment takes effect, during which the officer's pay-
 - (1) if progressive, has been at its maximum, and
- (2) has been not less than the minimum pay of the appointment.

 Provided that not more than a year can be counted under

this section.

- (b). If the minimum pay of the appointment is less than Rs. 100, no time can be counted towards the increments before the date on which the appointment takes
- After an officer's first appointment, the pay of the appointment shall, for the purpose of calculating his salary, be ascertained by counting towards the increments (in addition to any time admissible under section
- (6) Any time, whether continuous or not, during which he has officiated in the appointment, and during which-
 - (1) his pay, if progressive, has been at its maximum, and
 - his salary has been not less than the minimum pay of the appointment.
- Any time during which he has substantively held the appointment.
- If the officer is officiating in the appointment, his acting allowance shall be calculated on the mean pay of the appointment; his maximum salary shall be the pay of the appointment as fixed in accordance with sections I and II; and his minimum salary shall be half the mean pay of the appointment.
- (b). If the officer holds the appointment substantively, his pay shall be the pay of the appointment as fixed in accordance with sections I and II.
- IV. An officer may, by excluding a previous appointment, count a subsequent appointment as the "first appointment under these rules.

Example-

A officiated from 1st January 1872 till 31st March 1872 in an appointment the pay of which was progressive, but his own pay not being at the maximum, he was not entitled to count any time under section I.

He is again appointed to officiate on 1st Janury 1874, but his pay having for some time been at the maximum, and the other conditions being fulfilled, the circumstances are such that, if this were his first appointment. he would be entitled, under section 1, to count 9 months towards the increments.

As this is more advantageous than it would be to count under section 11 only it e three months of his first officiating tenure, he would, by this section, exclude the first officiating tenure, and count the second tenure, (beginning on 1st January 1874) as the first.

The three months of course could not be afterwards counted under section II.

- V. In departments in which the pay is regulated according to classes, an officer may count, under section II, any time during which he has officiated in a higher class, as if he had during that time officiated in any lower class. Time thus counted cannot be afterwards counted towards an increment in the higher class.
- VI. Time spent on leave, with allowances, counts towards increments in the same manner as if during it the officer had actually held or officiated in (as the case may be) the appointment on which he has a lien. But an increment accruing while an officer is on leave does not affect his allowances until he returns to duty.
- VII. Time passed under suspension does not count towards increments, if the suspension is adjudged as a penalty; but an officer, in directing reinstatement of a person who has been suspended, may declare that the time shall count.

- VIII. The following special rules apply to the Post Office Department :-
- (1). Unless otherwise specially ordered by the Director-General, an officer can count tint; only under section II, and can count under part i. of that section only so much as is continuous. much as is continuous.
- (2). An increment accruing in any other month than March must be postponed until the 1st of March next following.

Note.—1. Rules I and V were first promulgated in the Acting Allowance Code dated 1st August 1871.

Rule V may be applied in fixing the salaries of officers in the appointments which they were holding on less August, but no back pay can be drawn in consequence of the permission given by it

Rule I can be applied only in fixing the salaries of officers in appointmen's made on or after 1st August, but any officer holding an appointment on 1st August 1871 may count that appointment as if it had been " first' made on that date.

No. 3224.—The 21st December 1871.—Pensions and Gratuities.—The Governor-General in Council is pleased to rule that, before sanctioning a pension or gratuity to an officer discharged on abolition of appointment, it shall be carefully considered whether the officer discharged cannot be provided for in some other manner. Heads of departments, in forwarding to the local Government or to the Government of India applications for such pension or gratuity, should invariably state for what reasons it has been found impossible to provide suitable employment for the applicant, and in the quarterly statements furnished by local Governments of such pensions and gratuities, it should be stated in respect of each case that it has been found on enquiry impossible to provide for the officer elsewhere.

No. 3260. -The 22nd December 1871.-RESOLUTION. No. 3200.—The 22nd December 1871.—KESCUTNON.— The Governor-General in Council is pleased to rule that the authority granted in orders of this Department, No. 4183 dated 14th October 1870, published in page 715, Part I of the Gazette of the 15th idem, to local Governments and Administrations to direct at their discretion the monthly payment of political and charitable pensions, whell extend to and exaministrations also shall extend to endownment pensions also.

ORDER -Ordered that the foregoing Resolution be published in the Gazette of India.

The rule will take effect from the 1st of January 1872.

R.—Besides the fees payable under articles A, B, C, (c) and D, of this table, there shall be paid, for the registration of every document of such length as to occupy more than two pages of the register, an extra copying fee at the rate of four annas for every page or part thereof in excess of the first two pages. Assuming three hundred words to the page, this fee may be calculated by counting the number of words in the document; or, if no such calculation is made by the parties, the registering officer will estimate the number of pages likely to be thus charged for, but the fee shall in every case be payable on presentation; and in case of miscalculation, the document shall not be returned until any deficiency in the fee levied is made good.

Example.—A conveyance is presented for registration containing 1,350 words. If the parties certify to this fact, the registering officer would are once proceed to charge a fee for three pages (1,350—600=750), i.e., 12 annas. If the number of words is not known, the registering officer would perhaps charge for two extra pages, or eight annas only, and the deficiency of four annas would have to be made good before the document could be returned.

NOTIFICATION.

The 26th December 1871.—The attention of heads of all offices and departments subordinate to this Government is, drawn to the following Resolution passed by the Lieutenant-Governor on the 9th September 1871, on the subject of the rules as finally revised by the Government of India in the Financial Department, respecting the transission of official correspondence by post.

2. The new rules will come into operation from and after the 1st January 1872:---

(RESOLUTION)

The 9th September 1871.

READ-

Resolutions of this Government, dated respectively the 25th March and 26th August 1870, directing the circulation of revised rules for the treatment of official correspondence sent by post, as laid down in Financial notifications No. 1665, dated 10th March, and No. 2531, dated 5th August 1870.

READ-

Letter No. 896. dated 3rd June 1871, from the Under Secretary to the Government of India in the Financial Department, together with letter from the Director-General of Post Offices, containing certain proposals, with rules, respecting official correspondence transmitted by post, intended to supercede all previous rules on the subject.

READ-

- Letter No. 2294, dated 28th August 1871, from the Under-Secretary to the Government of India in the Financial Department, stating that the new rules submitted by the Director-General have been approved by the Governor-General in Council.
- 1. The Lieutenant-Governor directs that the rules in question be circulate! to all officers under this Government for information and guidance.
- 2. At the same time the Lieutenant-Governor draws special attention to the following paragraphs of the letter of the Government of India of the 2sth August, pointing out how the risk incurred by placing funds in the hands of officials for the purchase of stamps may be obviated:—
- "3. As, however, some of the authorities, whose replies have now been received, deprecate the proposals on the score of the risk that may attend the necessity of placing funds in the hands of officials for the purpose of purchasing stamps as a necessary consequence of the new arrangement,—a circumstance which, it is alleged, will lead to much peculation and fraud,—it is necessary to point out that these apprehensions can be removed by a simple rule that no charge for postage stamps shall be admitted, unless supported by a receipt from a treasury officer, and insisting upon every charge for Service Bearing being supported by the envelopes. By this system service labels can never become marketable commodities.
- "4 It is also represented that the proposal will involve the necessity of furnishing even the pettiest officer of a district with weighing machine and a supply of stamps, and that a proper check over the latter cannot be expected by means of any superior officer.
- "5. On this point I am to suggest that a free use of the "Service Bearing" system will obviate all difficulties."

ORDER.—Ordered that a copy of this Resolution, together with a copy of the rules approved by the Government of India, be forwarded to the undermentioned authorities for guidance, and for distribution to their subordinates.

No. 399.

The 11th December 1871.

In supersession of the rules referred to in Notification No. 243 of the 9th August 1870 by this Department, the following draft of rules having reference to the undermentioned four navigable channels in the Backergunge District, viz.:—

- 1. The River Damoodah, connecting Rivers Balessur and Kotcha and Kaleegunga.
- 2. The Cowcolly River, from its junction with the Kotcha and Kalleegunga Rivers, up to the place where the Jhallokati Bharani Khall rises.
- 3. The Jhallokati Bharani Khall, from its junction with the River Cowcolly to its opening into the River Jhallokati.
- 4. Bhandaria Done, from its junction with the Jangalia River up to the place where the Khatakhally begins on the south, known in its several channels as Augaria, Joobkhali, Galooa, Churkhally, Kanoodass Khati, and Bhandaria,—

is published for information under the provisions of Sections XI and XII of the Canals Act (V of 1861, B.L.C).

- 1. Every vessel, not being a steamer or flat for which a fixed rate of toll has been provided, on entering any of the above navigable channels, shall be liable to measurement by the officer in charge of the toll station, for the purpose of ascertaining the amount of toll to be paid.
- 2. The tonnage of every vessel, not being a steamer or flat as aforesaid, whether laden or empty, shall, for the purposes of the Canals Act and of these rules, be determined by the following measurement:—
 - (a)—The product of half the length of the vessel, from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll should be levied.
 - (b)—The measurement of the length is to be made in feet, rejecting inches. The measurement of the breadth and depth is to be made in feet, and quarters of feet, rejecting portions of less than a quarter of a foot.
 - (c)—In calculating the amount of toll to be levied, any fraction of 100 maunds, less than 50 maunds, is to be omitted.
- 3. No timber, bamboos or grass will be admitted, except securely and compactly packed in the form of a raft. There shall be no restriction

as to the size of rafts, but the supervisor of tolls may order a raft to be lessened and divided into two or more rafts, when its size is such as to impede the navigation of the channels.

- 4. Every vessel entering any of the channels shall be furnished with a ticket on paying the prescribed toll. The ticket will specify the date of entry, the maundage of the vessel, and the amount of toll paid. Toll paid at the first station clears the passage through any tolls met afterwards on the same voyage.
- 5. No vessels whatever, except such as are employed on works connected with the maintenance or improvement of the lines of channels in question, shall be exempted from paying tell.
- 6. Any person infringing any of the above rules, or wilfully interfering in their enforcement, shall be liable, under Section XI of the Canals Act, to a fine not exceeding Rs. 50 for any one offence.

such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Pengal receipts, or by substitution of other public securities of the Government of India, on or before 4 o'clock in the atternoon of the fifth day after the sale: or on the other hand, failing such redemption by tac time aforesaid, then the lot or lots for which no Bank of Bengal receipts, or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of resale as the Member in charge shall see fit, and all losses and expenses whatso wer attending such re-sale shall be borne and paid by the defaulters, whilst any profit according from such re-sale shall be forfeited to Government.

6. The Promiss by Notes taken on the day of sale under the last-mentioned condition, if remaining unredeemed at 4 o'clock of the fifth day following the day of sale, will be placed in the hands of the Schitter to the Government for realization in such manner as to him shall seem fit.

7. No tender of money, bank of Bengal receipts, or public securities, on account of Opium, upon which the prescribed deposit may not have been made before 1 o'clock of the fifth day following the day of sale, will be afterwards accepted.

8. The Opium advertised for sale shall be paid for within fifteen clear days from the day of sale, and in ease any lots of such Opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the Opium shall be disposed of on account of Government at such time and in such manner as the Member in charge shall think fit, and the first purchaser shall further be required to make good any loss or difference of price between that obtained at the re-sale and the amount at which the Opium was first purchased, forfeiting all advantages that may arise from such re-sale.

9. Purchasers taking out Certificates or Orders for the delivery of Opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each Certificate or Order; and it is to be clearly understood that the Certificates or Orders so taken out shall be considered final, and not afterwards changeable for other Certificates or Orders authorizing the delivery of single lots, or of a different number of lots or chests whether more or less, than the number of lots or chests originally required to be included in each Certificate or Order.

10. No deposit of public securities under the fifth of the present Conditions will be received in this Office, except from the party recorded as the purchaser in the sale book, or his authorized Agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be

returned when payment in full has been made by the said purchaser or his order.

- 11. The Officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these Conditions.
- With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the Officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first bond fide bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the Officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these Conditions.
- 13. The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same agency Opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the Opium to complete the said twenty-five.
- 14. In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the Opium included in this Notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.
- 15. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, Certificate of the Opium advertized for sale. No. 2, Report of the examination of such Opium.
- No. 2, Report of the examination of such Opium. 16. The public are hereby informed that in providing the investment of the Behar and Benares Opium for the year 1870-71, the same precautions have been taken as those which have been observed during past years, to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of Opium put into each cake. An account of the weight of the drug when packed at Behar and Benares, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.
- 17. Any further information respecting weight or quality of the Opium advertized for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Member in charge entertain or recognize any claim to compensation for loss from any alleged deficiency of

٠.

weight, abstraction of Opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the Opium for shipment.

It is hereby further notified, that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of Behar and Benares Opium declared as above for sale at the twelve sales of the year 1872, there shall be delivered to them, at the average of the particular sale or sales to which the Opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of Opium required by them at any particular sale, within thirty days from the advertisement of such intended sale, provided, however, that the Agents of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agents of the French Government shall not make the requisition for Opium within the time above mentioned the entire quantity of about 42,900 chests of

Opium to be delivered to them out of the quantity advertized for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the Opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing the date of payment, or by selling it at a sale to be held expressly for the purpose.

Article of the Convention above referred to-

Irticle VI .- " With regard to the trade in "Opium, it is agreed between the high contract-"ing parties that at each of the periodical sales of "that article there shall be reserved for the French "Government, and delivered upon requisition duly "made by the Agents of His Most Christian "Majesty, or by the persons luly appointed by "them, the number of chests so applied for, pro-"hundred chests in each year, and the price for "the same shall be determined by the average "rate at which Opium shall have been sold at every "such periodical sale, it being understood that "if the quantity of Opium applied for at any one "time shall not be taken on account of the French "Government by the Agents of His Most Chris-"tian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless "be considered as so much in reduction of the "three hundred chests hereinbefore, mentioned. "The requisitions for Opium as aforesaid are to be "addressed to the Governor General at Culcutta "within thirty days after notice of the intended "sales shall have been published in the Govern-"ment Gazette."
